WILTLESS FAMILY MEDICINE!

"I have used Simmonds' Liver Regulator for many years, having made it my only Family Medicine. My mother before me was very partial to it. It is a safe, good and reliable medicine for any disorder of the system, and if used in time is a great preventive of sickness. I often recommend it to my friends, and shall continue to do so."

Rev. James M. Rollins, Pastor M. E. Church, So. Fairfield, Va.

"I have found Simmonds' Liver Regulator the best family medicine I ever used for anything that may happen, have used it in Indigestion, Colic, Diarrhoea, Biliousness, and found it to relieve immediately. After eating a hearty supper, if on going to bed, I take about a teaspoonful, I never feel the effects of the supper eaten."

"OVID C. SPARKS," "Ex-Mayor Macon, Ga."

OVER THE ROCKIES.

A Troublesome Band of Train Robbers Caught at Last.

CLEVELAND AND HILL'S STRENGTH

Their Friends in the State Committee Have a Square Fight and Leave New York Unrepresented in National Committee.

The Herald's Special Dispatches.] MEMPHIS, Jan. 27.—James Burrows, leader of a band of men who at various times during the past year have held up passenger trains in Texas, Missouri, Colorado and elsewhere and robbed passengers, express companies, mails, etc., and in many instances killed or wounded persons who resisted, has been captured at Montgomery, Alabama.

His companion, Remben Lurrows, escaped by killing his pursuer, and is now hiding in a swamp. James Burrows will be taken to Texarkana, Arkansas, for trial.

THE DEMOCRAT.

The New York State Committee Come to a Break.

New York, Jan. 27.—Albany special to the Sun, tells briefly of the meeting of the democratic state committee. It failed to make choice of a man to represent New York in the national committee, and after thirty ballots adjourned. The vote was seventeen for Roswell P. Flower, and seventeen for William J. Mowery on each ballot. This leaves the state without a representative on the national committee. It was a square up and down fight between friends of President Cleveland and friends of Gov. Hill, and neither won.

Which Means Coffee Straight.

New York, Jan. 27.—A milk famine is threatened. Milk trains over many of the roads here buried a snowdrift with the contents of the cars frozen solid. Sixty cars loaded with milk are snowbound near Middletown. The only milk trains to-day are over the Pennsylvania road.

Mrs. Rawson Arrested.

Chicago, Jan. 27.—Mrs. Rawson was indicted yesterday by the grand jury for the alleged complicity in the assault with intent to kill Barker Rawson, was arrested this morning when she came to visit her son in jail, and was held for bail.

More Honor for Prince William.

Potsdam, Jan. 27.—To-day was the 25th anniversary of the birth-day of Prince William, and he was appointed major-general and commander of the second brigade of infantry of the imperial guard.

Er's Snowstorm.

New York, Jan. 27.—Dispatches from various points throughout the New England states report a very heavy fall of snow last night, the heaviest known in years.

DAUGHT.

Where in the Wide World Does It Actually Begin?

The succession of day and night depends on the rotation of the earth on its axis, and since the earth is of a globular shape, it is evident that the whole of its surface cannot be turned toward the sun at one and the same moment, in other words, that it cannot be noon all over the earth at once. A little thought will show that whenever it is noon at any one place it is midnight on the opposite side of the earth, and at the different places between all the times of day are at one and the same moment to be found. Take a particular example to make this clearer. When it is noon at London the countries exactly on the opposite side of the earth—say New Zealand and its neighborhood—are turned directly away from the sun, and therefore have midnight. Paris, being a little further east than London, will have been bought directly under the sun a little earlier—that is to say, at London noon Paris noon has been gone a few minutes. Go to Egypt and Constantinople, further east, their noon has been gone an hour or two. Further on, again, India is approaching her eventide, and China and Japan have already sunk into darkness. Turn your face west, however, across the Atlantic; you will find our American cousins have not yet reached their midday; in fact, are thinking in New York about breakfast, and out West in California are hardly yet getting up.

world from east to west as all its predecessors have done.

The question then arises, Where did this day, the 2d of July first begin? It was not in America, for we saw the folks there just about to rise on the 1st. Therefore it must be either in New Zealand or some place between there and America. The fact is that there is no defined place where the day can be said to appear first of all. Civilization originally spread from east to west across the old world, and then across the new, carrying its calendar with it. The next day came from the east and traveled across to the west, and no one asked whence it originally came or where it ultimately died. Thus the common usage, treated the day as first appearing in the Old World and then proceeding to the new, left no place for the new day's birth except the wide Pacific ocean and when tariff began to cross the ocean, and the question was forced upon men's minds, a sort of understanding was arrived at that the day should be deemed to begin there.

A BRIDGE COLLAPES.

A Number of People Seriously Injured at Pendleton.

PENDLETON, Jan. 25.—For the last two days the weather has been mild, and last night a chinook swept over the country. The snow disappeared as if by magic. The rising river attracted a crowd of a hundred or more to the river banks this morning to watch the floating ice. About noon fully two hundred were on the bridge and the banks of the river in the immediate vicinity. One man was engaged in chipping ice just above the bridge. Just at this time a band of cattle appeared upon the north side of the river and were started across. When about fifty head were on the structure a cracking noise was heard, and the cattle were frightened. The people began scattering and all managed to get off the structure except about ten. The bridge gave away under the great weight, and went crashing down to the ice below, a distance of twelve feet. To eye-witnesses it seemed as if the ten persons were doomed, but fortunately all escaped with their lives and without fatal injuries.

The following are the injured ones: George Ibrig, leg and head hurt; George Scully, right leg broken in two places; A. D. Wirt, shoulder dislocated; Frank Morris, a boy, head and face cut; Joseph Bengal, left arm broken at the wrist. The others escaped with a few scratches.

The debris did not float away and at this writing is still used as a footbridge. Five head of cattle were instantly killed, and six or seven head are to be slaughtered on account of injuries.

The bridge was built in 1883 by the Pacific Bridge Company, at the cost of \$6000 to the town.

A MAIL CARRIER'S PERIL.

Lost in a Snow Storm He Narrowly Escapes Freezing to Death.

Boise City Statesman. Among the narrowest escapes from death by freezing during the recent storm was that of Oscar Ryan, the mail carrier between Shoshone and Coose creek who was caught out on the desert Saturday night. He left the Falls at 11 o'clock Saturday morning, little knowing the extent of the storm of the day before, which had drifted the snow until not a trace of the road was to be seen.

Night overtook him about ten miles from town, with a wormout horse, and one unaccustomed to the road, and the weather gradually dropping below zero. The "dipper" was his only guide and fully realizing his situation, he pressed on, wading through drifts and leading his horse over the worst places, he made as straight a line as possible for town, arriving here at 12 o'clock midnight.

At that time the thermometer indicated 38 degrees below zero, and on examination Ryan found that both feet were severely frozen and the right side of his face frost-bitten. With prompt application of snow, ice water and other restoratives the frost was drawn out of his face and right foot and the left foot saved, although the toes of the latter are badly swollen and will make him limp for some time.

The Onset of Prevention.

The satisfaction of feeling safe from catching any disease from drinking water, from impure air, from a sick person, from contact with foul clothing, infection or contagion from any source, is complete and all anxieties allayed by the use of Darby's Prophylactic Fluid. A bottle will give more safety, comfort and confidence than all the doctoring in the world.

Scarlet Fever.

Furniture Dealer

LIVE TOWN.

This is what Albany is at present, and in order to keep pace with the lively times in this city, W. H. Willard has enlarged his store and stocks that to now has the most complete and desirable line of furniture in the valley. His double salesrooms in Fremont's block are filled with an elegant assortment of new furniture, consisting of holiday specialties, couches in new patterns, fine gold picture frames, willow chairs, easy rockers, marble tables, brackets, etc., etc. An examination of the stock will show this to be true in every respect.

A Stone Reproof!

Dr. Henry J. Smith, the eminent surgeon and specialist, 433 Kearney St., San Francisco, author of popular lectures on Science of Life, Chronic Nasal Catarrh and its Cure, Cause and Cure of Deafness, Diseases of the Male, Diseases of the Female, etc., who for years past has made regular professional visits to Portland, and has previously visited Albany as a representative of the Pacific Surgical Institute, is now at the Rev. Rev. house, where he may be consulted regarding all chronic, special and surgical affections, including deafness, chronic nasal catarrh, affections and operations on the eye, all throat and lung diseases, nervous, blood, kidney and sexual diseases or weakness in either sex. All affections of the hip, knee and ankle joints, and all cases of any way crippled or deformed. All cases requiring braces or other surgical appliances will be furnished without extra charge from our work-shops. All cases of rheumatism, chronic ulcers, cancers, skin diseases and all cases of broken down constitution, are especially invited to call and investigate our method of treatment. To all the afflicted he would say do not be influenced by what others may say, but come and see us and decide for yourselves. The doctor has been connected for years with institutions whose sole practice was the treatment of chronic special and surgical affections, and has had an opportunity unsurpassed for learning to cure that class of diseases which has been given up by the general practitioner. The doctor has been in practice over 20 years and is a graduate of the best school in America and the university of Berlin, and may be consulted in German or English. The doctor would call attention to the wonderful

GALVANO-OXYGEN TREATMENT.

Which was originated by him and has been used successfully in hundreds of cases that had resisted all other treatment. He would call special attention to his treatment of

FEMALE WEAKNESS

Symptoms of which are backache, spinning pain on top of the head, feeling of debility, general weakness, constipation, and nervousness, as the most successful and permanent that has ever been devised for the cure of this very large class of sufferers.

TO THOSE OF THE MALE SEX

Who may be suffering from any disease or weakness of the genito-urinary organs he would say: Do not waste your time by sending for home for advertised specific or to so-called "doctors" who would have you believe that they can understand all the bearing and complications of your disease without seeing you. By means of the electro-galvanic treatment, in a few days we can find out all about your case and will guarantee success in every case he undertakes. All weakness can be speedily cured by our galvanic treatment. Pills radically cured without pain and without curing.

NASAL CATARRH.

This baneful disease, which is so often neglected and allowed to develop, causing many of the most serious complications, has been cured by a plan of treatment in hundreds of cases in Oregon and throughout the Northwest Coast. Those who are afflicted should not despair, but come to us and be cured.

Testimonials.

Following are a few of the hundreds of testimonials we have received from Oregon during the past year:

MILTON, Or., Oct. 3, 1886.—Editor Walla Walla Journal: A sense of duty to the public prompts me to state that my son Henry has been afflicted with business since a child and when I saw your paper that Dr. Smith of the Pacific Surgical Institute was in Walla Walla I determined to consult him. The doctor informed me that he was afflicted with catarrh of the nose, and thought that he could cure him. I accordingly put him under the doctor's treatment, which soon resulted in a cure, and I could recommend the doctor's treatment to all who may be suffering from catarrh of the nose.

AURORA MILLS, Or., Dec. 12, 1887.—J. W. Eilen writes: Your treatment has nearly cured me of my chronic difficulty of breathing and catarrh. I would have been quite well had I followed your directions and taken treatment regularly.

PORTLAND, Or., Nov. 13, 1887.—M. Slavich (Proprietor Louisville restaurant) says: My catarrh, asthma and bronchitis have been cured by Dr. Smith's treatment, and I can attest to all my duties and enjoy good health once more.

SPokane Falls, Aug. 5, 1887.—Mr. P. L. LeBrien says: Dr. Smith has cured me of my rheumatism, complicated with heart and kidney disease, which have made my life miserable for the seven years past.

SPRING, W. T., Aug. 4, 1887.—To the public: This is to certify that I have for over 10 years been troubled with a malignant chronic sore or ulcer on my shin, which more than a dozen doctors have tried to cure and failed, and my friends told me if I headed it up it would kill me. Dr. H. J. Smith told me he would cure me, and after three months' treatment it was entirely healed and I am still alive and the healthiest and happiest man in Eastern Washington territory.—J. M. Layman.
