QUICKEST ROUTE TO THE EAST.

Dr. Henry J. Smith, the eminent surgeon and specialist, 433 Kearney St., San Francisco, author of popular lectures on Science of Life, Chronic Nasal Catarrh, its Cause and Cure, of De-fines, Diseases of the Male, Diseases of the Female, etc., who for years past has made regular professional visits to Portland, and has previously visited Albany as a representative of the Pacific Surgical Institute, is now at the Bevere house, where he may be consulted regarding all chronic, special and surgical affections, including deafness, chronic nasal catarrh, affections and operations on the eye, all throat and lung diseases, nervous, blood, kidney and sexual diseases or weakness in either sex. All affections of the hip, leg and ankle joints, chronic ulcers, cancers, skin diseases, and all cases of bowen disease, etc., are especially invited to call and investigate our method of treatment. To all the afflicted he would say do not be influenced by what others may say, but come and see us at a double for yourselves. The doctor has been consulted for years with institutions whose sole practice was the treatment of chronic, special and surgical affections, and has had an opportunity thus passed for learning to care this class of diseases which has been given up by the general practitioner as incurable. The doctor has been in practice over 20 years and is a graduate of the best schools in America and the university of Berlin, and may be consulted in German or English. The doctor would call attention to the wonderful

Taken from the Penitentiary for a New Trial.

THE INDEPENDENCE MURDERER.

He Spends His Time in Je' Praying and Remoaning His Black Deeds—Folk County Horse-Stealer.

The Herald's Special Dispatches. SALEM, Jan. 31.—Sheriff Bently to-day took from the penitentiary to Unatilla county Barty Hoffman, sentenced for six years for stealing a steer. Hoffman was granted a new trial by the supreme court.

MURDERER IN DEFILED.

The murderer Landreth spent last night in praying, and this morning he appeared quieter. His photograph was taken to-day.

ARRESTED FOR HORSE-STEALING.

Al Jordan, a notorious hoodlum, was to-day arrested for stealing horses of Wm. Jones, of Eola. His brother Willis will be arrested to-day on the same charge.

HOUSEHOLD HINTS.

A very palatable imitation of mock turtle soup is made out of ordinary black beans.

Epicures rise in meeting and declare the only way to enjoy red birds is stewed in cream.

Just why so many French cooks destroy tomato soup by a flavor of ham has yet to be explained.

Alarmists are spreading the usual tales of probable extinction of canvas back ducks and terrapin.

Foolish men continue to get into disputes as to the alleged superiority of different kind of oysters.

Philadelphians long ago ceased to deny the allegation that they eat sparrows "as a regular thing" for game.

Only the brave deserve the fair, and only those made mince pies are ever made as the gastronomic law directs.

The government has put a duty on imported plum pudding, and there is a great howl from the Anglo-maniacs.

The fashionable buckwheat cake is about the size of a trade dollar, and to be factious, contains more of the wheat than the buck.

Thousands of people at this season are not happy at dinner which there is turkey unless they get the delicacy of the bird, which is a wing.

Between some hotels' cranberry sauce and ordinary red ink there is very little difference, and ant slug dieters may well say to the waiter: "What are you giving us?"

A Washington correspondence would have us believe pumpkin is the most invariable dessert at this season at a White House dinner. This, if true, would indicate the "eternal fitness of things," at least in one direction.

What am I to do?

The symptoms of biliousness are not hardly but too well known. They differ in different individuals to some extent. A bilious man seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly be inspected at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are often hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy.

Ladies, misses and children's wool knit hoods, scarfs and jackets at cost at SAMUEL E. YOUNG'S.

DR. G. W. GRAY, SURGEON DENTIST.

ALBANY, OREGON.

PATENTS

CAVEATS, TRADE MARKS AND COPYRIGHTS

Obtained, and all business in the U. S. Patent Office attended to at moderate fees.

Our office is opposite the U. S. Patent Office, and we can obtain Patents in less time than those remote from Washington.

Send model or drawing. We advise as to patentability free of charge; and we make no charge unless we obtain patent.

We refer here to the Postmaster, the Suppl. of Money Order Div., and to all other offices of the U. S. Patent Office. For circular, advice, terms and references to actual clients in your own State or county, write to

C. A. SNOW & CO., Opp. Pat. Office, Washington, D. C.

New Barber Shop.

SINCE THE FIVE THOUS JONES HAS generally filled up the room of Elwert street opposite the Bevere house at the ha of Conn Bros' grocery store where his friend and patrons will find him now ready to car on the nes a before.

The Bill for Federal Aid for Public School Now before Congress.

After an elaborate and exhaustive discussion of more than three weeks, the United States senate in 1886 passed a national aid bill, by a vote of thirty-three yeas and eleven nays.

Eleven other senators were in favor of this bill, but were "paired" and did not vote, making a total of forty-four senators endorsing the measure. A similar bill passed the senate of the 48th congress.

We print two sections, so that our readers may get a better idea of the amounts to be appropriated, and a part of the conditions on which the aid is to be distributed.

Be it enacted by the senate and house of representatives of the United States of America in congress assembled: That for eight years next after the passage of this act there shall be annually appropriated from the treasury in the treasury the following sums, to wit: The first year the sum of \$7,000,000, the second year the sum of \$10,000,000, the third year the sum of \$15,000,000, the fourth year the sum of \$13,000,000, the fifth year the sum of \$11,000,000, the sixth year the sum of \$9,000,000, the seventh year the sum of \$7,000,000, the eighth year the sum of \$5,000,000; which several sums shall be expended to secure the benefits of common-school education to all the children of the school age mentioned hereafter living in the United States.

Sec. 2. That such money shall annually be divided among and paid out in the several States and territories in that proportion which the whole number of persons in each, who, being of the age of ten years and over cannot write, bears to the whole number of such persons in the United States; such computation shall be made according to the census of 1880.

FROM THE FOOT HILLS.

MIDDLE RIDGE, Jan. 29.

As I have not noticed any items from this part of the country for some time, I take it upon myself to send you what I could gather in my travels:

Amos Combs, who spent the holidays with his parents, left for Seattle several days ago.

The farmers have commenced plowing in this vicinity. But if the rain keeps up they will have to pull in for a while.

The farmers have been a little uneasy about their wheat being frozen out, but as yet I think there has been but little if any damage.

One of the coldest nights we have witnessed here for several years was on the 16th. The thermometer stood three degrees below zero.

A Mr. Heller, a nephew of Balot, who has been in this vicinity for several months, has taken his departure for the orange groves of California.

Among the leap year parties that has been given was an apron party at the residence of W. K. Temple. All those who attended speak of having a most enjoyable time.

We have been having a "right smart spell" of weather for the last two weeks—some rain, snow and a little wind. At this writing it is raining and wind blowing a regular jimmiecaze.

Dame rumor says that J. M. Zooseman will soon take unto himself a wife. I judge that it is true from the visits he is making up to Mr. M. W. Miller's. We wish you a long life and plenty of sour pickles.

There is a certain young man who resides on Middle Ridge who is too awfully awful, jealous of his Pet Lamb. You had better keep a sharp look out Dick, or the California boy will be taking her home with him.

Charley Thompson and Jack Daniels came out from the camp of the O. P. a few days ago. They report the snow being from one to ten feet deep in the mountains. They were fifteen days in making the distance of sixty miles.

Several days ago, I was standing on the platform of the Plain-View depot, conversing with several friends on the prospects of our coming spring, when on looking up to our surprise, (for it was a most terrible day), we saw a conveyance coming up the road.

One seedy-looking individual, who looked as though he had the consumption, said it was the advance agent for the Pyke opera company. Another young man, who by the way has charge of the Widow Barnes' horses, said it was the wrecking train from Browns-ville, sent out to bring in the Nar-row Gauge train, which had, by having one passenger and a box of cigarettes on board, got stuck down the track. Various and sundry were the remarks that were made as to who and what it was. Just then it pulled up in front of the depot. Well, you can imagine the surprise, when it was found to be nothing more than our old time friend, Mr. J. N. Combs, who was out in a bob sled enjoying the one inch of snow that had fallen.

An Important Resolution Passed by the U. S. Senate.

ALASKA AND BRITISH COLUMBIA.

The Boundary Question—A Boring Min Six Thousand Workmen Threaten to Go on a Strike.

The Herald's Special Dispatches. WASHINGTON, Jan. 31.—The senate to-day passed the Hearst joint resolution for the constitutional amendment, changing the time for the meeting of congress and for the inauguration of president.

A CUT IN WAGES.

Six Thousand Workmen Likely to be Thrown out of Employment.

MCKEESPORT, Pa., Jan. 30.—The National Tube works company, employing 4000 men, have posted a notice ordering a reduction of ten cents in wages of all employees. If the reduction is not accepted the firm threatens to shut down the entire establishment. A similar action has been taken by the Continental and Pennsylvania tube works company. The men say they will not submit to the cut in wages. A general strike would throw over 6000 men out of employment in this district alone.

THE HADDOCK MURDER.

Two of the Defendants in the Trial Will Start a Big Brewery.

STOUT CITY, Jan. 31.—John Arnsdorf and Paul Leadrock, two of the defendants in the Haddock murder trial, have been appointed western agents for the Milwaukee brewing company and will at once erect a brewery works at Covington, Neb., on the opposite side of the river from this city. This takes all the defendants in the case out of the city except Murdoch, who is under sentence and awaiting trial. No further efforts have been made to convict Haddock's murderer.

AN IMPORTANT MOVE.

The Boundary Between Alaska and British Columbia.

OTTAWA, Jan. 31.—Prof. Dawson, of the geological survey commission, has left for Washington on business connected with Alaska. Dawson was engaged this summer on the survey in the Yukon district, and his departure for Washington is regarded as indicating that the question of the boundary between British Columbia and Alaska is being considered by the commission.

SCARCITY OF COAL.

Other Freight Must Wait Until the Necessary Fuel is Obtained.

DULUTH, Jan. 31.—So urgent has been the demand for fuel west of here and along the Northern Pacific that orders have been issued by this road to its Duluth agents to ship nothing but coal. All of its freight cars and equipment is being used for coal shipment and other freight must wait till the famine is checked.

A BURNING MINE.

Twenty-Five Tons of Ammonia Will be Used to Extinguish It.

CALUMET (Mich.), Jan. 31.—President Agassiz has decided to send twenty-five tons of concentrated ammonia down the burning shafts of Calumet and Hecla mine at once to put out the fire as soon possible.

Death of a Prominent Lawyer.

CHICAGO, Jan. 31.—General John L. Thompson, president of the Union League Club and a member of the prominent law firm of Williams and Thompson, died this morning at 9:30 o'clock, from the effect of rupture of a blood vessel at the base of the brain, caused by overwork.

A Harbor Full of Ice.

NANTUCKET, Jan. 31.—It is two weeks since any mail has been received here, the sound is full of ice and it extends seaward far as the eye can reach. No suffering on the island as yet. The weather is moderating.

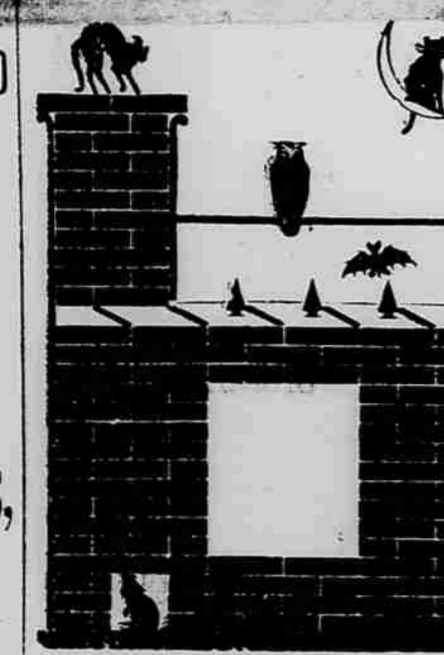

A Bank Suspends.

GUELPH (Ont.), Jan. 31.—The Guelph banking company suspended payment this morning. It is reported the cause of suspension is losses sustained by the winding up of the Federal bank.

Floyd Tufts, of Westmore, Vt. is but 7 years old, weighs only 115 pounds, but he is able to shoulder two bushels of corn with ease and to lift his grandfather, who weighs 175 pounds, from the floor without exerting himself.

In order to try the extent to which a tragic actress is moved by the whirl of stage passion, Sarah Bernhardt's pulse was once tested at the wings immediately after a scene of great intensity. It ticked as regularly and normally as an eight day clock.

I have received my new stock of muslin underwear. These goods are made on a lock-stitch machine and are warranted to be full size and length, and price reasonable. SAMUEL E. YOUNG.
