THE CITY COUNCIL.

Successor to E. Goin Elected—Street Railway and Electric Light Measures.

Regular meeting of the city council was held last night.

The committee on ordinances reported an amendment to the ordinance preventing the spread of contagious diseases, which was adopted.

The city printing was awarded to Stites & Nutting at ten cents per square.

The special committee to whom was referred the matter of locating a sewer in the third ward recommended that the sewer be built on Railroad street, which report was adopted.

The pest house recently constructed was accepted by the city, and the board of health were instructed to rent it.

W. R. Blyven presented a petition from Engine Co. No. 1, asking that the city purchase for the use of the company a new steamer, the same to be an improved Clapp & Jones engine.

Petition of citizens asking for the removal of the wash house of San Wa, was read and referred to the committee on health and police.

Petition for a bridge at the intersection of Eighth and Washington streets, was read and referred to the committee on streets and public property.

Ordinance to purchase a new fire engine for No. 1's, read first and second times, and referred to the committee on ordinances to report at the next meeting.

Ordinance to grant to the Albany Street Railway company the right to construct and operate a street railway, presented by J. K. Weatherford, was read first and second times, and referred to the ordinance committee.

Ordinance No. 176 relating to contagious diseases was put upon its third reading, and passed unanimously.

The following proposition of N. H. Allen to furnish the city with electric lights was read and referred to the committee of the whole, to meet on Thursday evening to consider the subject.

ELECTRIC LIGHT PROPOSITION.

To the Honorable Mayor and Council of the City of Albany:

Gentlemen:—Having now received a portion of my electric light machinery and a sufficient quantity to commence the work of lighting the city and other work required to put the plant in operation, before the work of putting up the poles and wiring commences, it becomes necessary for me to know who desires to take the light, what kind of a light they require and where they desire the lamps located, etc.

Having been led to believe that the city would encourage my efforts of enterprise by its patronage, I have bought what I deemed the systems best calculated for the purpose of lighting the city, as well as for domestic and other uses; and knowing that your honorable body would wish to know something of the cost of the light, etc., before you could act intelligently, is the object of this communication.

I have concluded after mature deliberation to make the price of lights to the city as follows:

For each 2000-candle power arc light run until 1 o'clock a. m., \$10 per month, and for all night service, that is from dark until daylight, \$12.50 per month. For a 30-candle incandescent light run until 1 o'clock a. m., \$1.75 per month, and for all night service, \$2.50 per month. I going to all the expense of putting lamps in position and furnishing all renewals and guarantee that the light shall be kept up to the standard in average brilliancy and shall be reliable.

In making the price of lights to the city I have taken into consideration the financial condition of the city and what could be appropriated for this purpose as well as what I could afford to furnish the lights for without loss to myself. It was my desire that the city should make the best appearance possible, to prosper and grow; and feeling that appearance has much to do in deciding those wishing to locate in our city, and knowing that well lighted streets are quite a factor in helping to form an opinion about any city, I came to the conclusion to offer the cheapest light to any city on this coast, namely \$12.50 per month for an all night light. Salem pays \$10.50 for a light till 1 o'clock a. m. Portland pays \$20 per month for an all night service, and private consumers pay \$15 per month for light till 1 o'clock a. m. The lowest all night service I could hear of on the coast was \$15.00 per month. The running of an all night lamp will require the services of an extra man and an additional consumption of carbons and wood when steam is used, which will cost me extra nearly as much, and perhaps more, than I can expect from the city, and would therefore prefer to furnish the light till 1 a. m. if that would give satisfaction.

Gentlemen, the above proposition and brief statement of facts, I would most respectfully submit to your consideration, hoping that you will not delay action longer than is absolutely necessary for reasons previously set forth.

N. H. ALLEN.

Communication from Mr. Kohler in regard to the opening of Ninth street, refusing to allow the extension, was read and referred to the committee on streets and public property.

The resignation of E. Goin as councilman in the third ward was read and accepted, and Virgil Parker was elected to fill the vacancy.

The recommendation of the committee on streets that all defective sidewalks be repaired was adopted, and various crosswalks and bridges were ordered repaired.

The contract for constructing crosswalks was let to J. Clellan.

The contract for building foot

RUN OVER BY THE CARS.

A Tramp is Attempting to Board the Train Has One Leg Cut Off.

A man named Jones, who had evidently been riding on the break beam, in attempting to board the south bound passenger train Monday night as it was leaving Harrisburg fell beneath the car. His left leg was run over and crushed, being nearly severed from his body. The train passed on without anyone knowing what had happened, but some young men heard the man's cries and came to his assistance. He was given medical aid and kept over night at Harrisburg, and yesterday morning was taken to Portland.

The unfortunate man, although he had the appearance of a tramp, had money enough to pay his passage to Portland, where he said he wanted to be taken for treatment.

THE COMING EVENTS.

Another meeting of the executive committee having in charge the masquerade ball was held last night. Reports from sub-committees were read and every indication now tends to show that the ball will be the biggest event of the season. Nearly every dancer in this city has signified a willingness to be present, and those who have not should, as music will be furnished by Parsons & Brays band, of Portland. The prizes will be given as follows: To the best sustained gentleman dancer, a gold-headed cane. To the best sustained lady character, an oil painting 24x36 inches, with a 5 inch bronze frame, and to the nearest lady costume a pair of gold bracelets. The prizes are valued at \$25, and will be worthy souvenirs to the winners. In anticipation of the large crowd from a distance who will be in the city that day, the committee has had arranged seventy-six seats down stairs, which can be reserved at fifty cents each; on sale at Blackman's. Arrangements are being made for costumes full particulars of which will be given through the HERALD in due time. In the mean time orders can be left at Parker Bros. bakery, 111 1/2 Broadway, or at the City Restaurant.

Mining Company Reorganized.

The Oregonian says the sale of 200,000 shares of Sierra Nevada stock to Messrs. Van B. DeLashmitt, C. W. Knowles, H. B. Oatman and John Davenport appears to have been a signal gun which has awakened among the interest in mining matters there. This important transfer has been followed by a complete reorganization of the Sierra Nevada mining company. Mr. Van B. DeLashmitt having been elected president, H. B. Oatman, vice-president, J. Lowenberg, treasurer, and D. F. Sherman, secretary. The new board of directors consists of B. G. Smith, H. Oatman, J. Bourne, Jr., J. C. Davenport, C. W. Knowles and George B. Markle. President DeLashmitt will adopt a vigorous policy, and expects to have the nine declaring dividends by June 1st. The present mode of handling the ore by hand assorting, at a cost of \$20 per ton is both expensive and unsatisfactory. An additional twenty-five tons per day capacity will be added to the concentrator of the Tyler and Stomwinder mines especially for Sierra Nevada ore. The cost of this addition will be about \$250,000, and as the cost of working the ore by machinery is about \$125 per ton, it will be seen that a great saving will be effected and a great deal more ore can be worked. It is expected that this addition to the concentrator will be completed and running in sixty days.

Gold Watch Given Away.

Francis Pfeiffer has placed in his show case at the Albany soda and candy works a \$50 gold watch, which will be given away to the first customer who purchases of him the most cigars. Every person who buys a cigar will receive a ticket. At the end of ninety days the one holding the largest number of tickets will receive the watch. It is warranted to be a genuine gold watch worth \$50. His cigars are the best in the market. This is a rare chance to get a gold watch free.

Teachers Institute.

The annual county teachers institute for Linn county Oregon will be held at Albany commencing on Wednesday afternoon, March 14th 1888, and continuing during the 15th and 16th. D. V. S. REID, Co. School Supt.

An Important Decision.

Just before going to press we learned that Feb. 20th had been decided upon as the time for holding that eagerly expected V. W. C. T. U. entertainment. Further particulars to-morrow.
