THE CALAPOOIA MINES.

Work on Dyson & Company's ledge which promises profitable results.

Mr. G. A. Dyson, of Brownsville who is one of a mining company, which has recently made some rich discoveries on the Calapoopia, was in the city yesterday. He exhibited to a HERALD reporter some specimens of gold bearing quartz and some free gold taken from the quartz which required no mining expert to attest to its richness.

The mine, which is a well defined ledge 7 1/2 feet wide, is owned by Messrs G. A. Dyson, N. B. Standish and J. W. Moore, of Brownsville, and M. H. Williams, a miner of Idaho. Four claims have been located upon the ledge, and a tunnel 92 feet in length has been extended into the mountain.

About 20 feet more, Mr. Dyson states, will be required to reach the ledge proper at a depth of 85 feet. The mine is situated six miles from a wagon road, and a trail has been cut into the ledge.

The owners of the mine are confident of success, and the specimens which have been taken out certainly indicates that gold is there in no inconsiderable quantities, the only question being a method of getting it out in paying quantities.

Who is Your Best Friend?

Your stomach of course. Why? Because it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right, if you are troubled with Heartburn, Dizziness of the head, coming up of the food after eating, Biliousness, Indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.
