GENERAL NEWS:

A Quarter of a Million Destroyed by Fire in Milwaukee.

THE FROZEN EAST THAWING OUT.

Striking Engineers Return to Their Work—
News From Stanley's Expedition—
Old World Affairs.

The Herald's Special Dispatches.]
MILWAUKEE, March 15.—The fire which started this morning completely destroyed the four-story brick block on west Water street, occupied by Atkins & Co., Shoe manufactory, and Thoman and Wentworth's manufactory company, wholesale dealers and manufacturers of brass goods and engine trimmings. About a half hour after the fire broke out the north wall of the burning structure fell with a great crash, demoralizing a one-story addition in the rear occupied by Gimball & Brother as a dry goods establishment, and burying a number of firemen under the ruins. Two bodies have been recovered. The loss will not fall much short of \$75,000.

THE STORM ENDED.
NEW YORK, March 15.—Weather this morning is again warm and bright with prospects of much thawing. Rail roads leading into the city are all moving, and business men of New Jersey, Long Island and the upper part of the state reached New York for the first time since Saturday. Some surface cars are running.

ICE BREAKING UP.
FORT ASSINIBOIN, March 15.—Ice in the river is rapidly breaking up, and a general flood is already in progress. Manitoba bridge on the Feon is gone and the water is rising at a rate never before known and all traffic on the west-rn division of the Manitoba road have been abandoned.

HONORING THE DEAD EMPEROR.
LONDON, March 15.—The war office has ordered the principal military garrisons at home and abroad to place flags at half-mast tomorrow and fire 91 minute gun at noon as a mark of respect for the late Emperor William. Naval stations received similar instructions.

NEWS FROM STANLEY.
LONDON, March 15.—The Emin Bey relief committee has received news that Tippoo Lito has sent a number of men to Stanley's camp on Arneive to take reserve stores and munitions to Maidela.

STRIKING ENGINEERS RETURNING.
COUNCIL BLUFFS, March 15.—The Union Pacific engineers who abandoned their engines yesterday are on duty again this morning and freight traffic is going on still. It is understood that the engineers were given to understand that they were not compelled to handle Burlington freight if they did not desire to, and so as a consequence all the cars of that line are apparently being sidetracked in the Union Pacific yards.

STRIKING PAINTERS.
CHICAGO, March 15.—Over 3000 painters will go out on a strike today unless wages are raised to 37 1/2 cents, an increase of 10 per cent.

A CHINESE GAMBLING-HOUSE.
Fresno Republican.
There is a gambling-house in Chinatown in this city that runs day and night, and is barricaded as well as any house in San Francisco. In order to get into the gambling-room from the street you must first pass into an ante-room, the street door of which is six inches thick and lined with iron. Its fastenings consist of seven heavy bars, which fall into iron catches as the door closes. The windows of this room are covered with iron lined shutters. In the ante-room is the China doorkeeper, armed to the teeth and protected by a coat of mail. The door that leads from the ante-room to the gambling hall is similar in construction to the street door, as is also a back door, which leads from gambling room into a blind alley. The gambling room itself is a veritable fort, and it will take a dozen policemen a day to effect an entrance to it, if no other resistance

CHINESE IMMIGRATION MEASURE

The New Tariff Bill and the Opposition it Has Met—Pension Matters—The Inefficient Mail Service.

Special Correspondence.]
WASHINGTON, March 5.—Senator Hiscock's Presidential boom has made rapid strides towards the front the past few days.

Deacon White, who represents one of the Brooklyn, N. Y. districts in the house of representatives and who is also generally believed to represent Jay Gould and his manifold interests in the same body, in fact it is openly stated here that he purchased his nomination and election for that purpose only, made himself conspicuous by spiritedly attacking the Pacific railroad telegraph bill in the house on Saturday. His argument was perfectly absurd. He said that the pending bill was only buncombe and would accomplish nothing that the present laws failed to do, and yet the gentleman was ready to foam at the mouth for fear the bill would pass, as it subsequently did.

It is noticeable that no legislation except that applying to something that interests Jay Gould ever attracts the attention of Mr. White.

The uncalled for slurs against the Grand Army of the Republic in which Senator Vest indulged while making a speech in the senate on Wednesday in opposition to the dependent pension bill, have lowered him in the estimation even of his own party associates.

Senator Sherman's bill amending the laws governing Chinese immigration passed through the senate safely on Thursday. Among its most violent antagonizers was the senator from Florida, Mr. Call, who characterized the bill as one undertaking to prove that the world was made wrong because of the 400 millions of Chinese in it.

The mountain which has been in labor for 100 years many months, has at last brought forth the mouse. The tariff bill prepared by the majority of the ways and means committee of the house, and which was submitted to the whole committee and made public, was the event of the week at the capital.

It has already made a perceptible chasm in the democratic party. It does not go far enough for the out and out free traders, while it goes entirely too far in the direction of free trade for the Randall wing of the democratic party. Mr. Randall calls the bill vicious.

The new bill is heartily approved by Cleveland and his secretary of the treasury. Nothing strange in that, as it is more than probable that they both had a hand in its construction. Still it is extremely doubtful whether all the power of the administration, which will undoubtedly be brought to bear on objecting members, can succeed in getting the bill passed by the house. Petitions are already beginning to come in opposing the passage of the bill, the vast first received being from the glass blowers.

Senator Vance says the bill does not meet with the wishes of North Carolina because it omits internal revenue relief. Members and senators from the tobacco growing states all object to it because it does not repeal the tobacco tax.

The senate committee on the District of Columbia have decided in favor of local option for the district, and an effort will shortly be made to give its citizens an opportunity to decide the much agitated question of liquor by their own votes.

The dependent pension bill has been amended by the senate to include all soldiers who served in the war with Mexico and all who served for thirty days or longer in any of the Indian wars.

The house committee on invalid pensions has favorably reported the bill relating to claims for pension by dependent parents. It provides that in considering such claims, it having been shown after the soldier's death that he was entitled to a pension, and that he left no widow or dependent children, it shall be necessary only to show by competent and sufficient evidence that such parent or parents are without means of support from their own manual labor or legally bound for their support. The same committee also favorably reported a bill providing that the pension money of any pensioner who is in the habit of becoming intoxicated and who neglects to support those lawfully dependent upon him, shall be paid to the wife of such pensioner, if she be a proper person to receive it, or to a legally constituted and qualified guardian.

Again last week Senator Paddock paid his respects to the administration in some pointed remarks upon the present inefficient mail service that is being given to the country.

ONE OF THE SLEEPY KIND.

I love to wake at early dawn,
When a "arrow" "cheep,"
And then turn over with a yawn,
And go to sleep.

I love to see the rising sun
In picture books,
In nature I don't care a bun
How Phoebus looks.

I love to be aled each morn,
In dreamy daze,
And make the neighborhood forlorn
With tuncful nose.

I love to draw the blankets well
Up around my chin;
I hate to hear the breakfast bell—
"Go out this morn!"

In short, I love the sweet embrace
Of slumber deep;
And heaven, to me, will be a place
Where I can sleep!
