INCREASING IN NUMBERS.

Mongolian Pheasants Invade the Barnyards in Linn County.

The following from the News will show that the fame of our law protected Mongolian pheasants is going abroad in the land: Passenger reports that many Mongolian pheasants are to be seen along the line of the road, particularly a short distance above Albany, in Linn County. The birds are usually in pairs, although sometimes a half dozen are seen at a time, and in some localities they are reported to be quite tame.

During the cold weather, when snow was on the ground, these pheasants were not at all backward in taking a place in the barnyards along with domestic fowl, and even contesting with them for the supremacy. From a Lane county farmer comes the story that a cock pheasant persisted in remaining among the chickens on the place after the snow had gone, but in this was stubbornly opposed by the recognized gallinacean leader, and number of bitter fights took place between the two birds. The difficulty was ended one morning by the pheasant striking his antagonist dead, and now the stranger rules the yard.

Fast Going.

Ladies who desire to secure bargains in dress goods, millinery, trimmed hats, and all goods of that description, will do well to call at the old stand of Shane & Lonsway. The stock is full and complete at present, and by calling early satisfactory selections can be made, and rare bargains obtained. These desirable goods were bought at a great bargain and must be sold. They are going at almost unheard of prices, and those desiring choice bargains should call early.

FISH MATTERS.

The Lordly Salmon to be Sufficiently Guarded.

The efforts of the governor and fishery commission are having good effect, and even the taking of Steelhead salmon has been suppressed during the close season. The following from the News relates to the fishery matter:

"Yesterday United States Fish Commissioner Livingston Stone returned from a two weeks' inspection of the Deschutes, John Days, Yakima and other branches of the upper Columbia river, with a view to learn their fitness for the propagation of salmon. He found a number of streams which are suited for the taking and propagation of salmon eggs. Besides this the country in this vicinity is traversed by railroads, thus affording the necessary transportation facilities to and from the proposed site of the hatchery. Commissioner Stone is well pleased with the result of his investigation. So it may not be long before a hatchery will be located on one of the branches of the upper Columbia. Just at what point this will be has not yet been determined.

Commissioner Stone was elated when he learned that an agreement had been reached whereby the Clackamas hatchery is to be turned over to the care of the United States Fisheries Commission. Commissioner Stone and other state fish commissioners will hold a conference in a few days to determine the time when he will take charge of the hatchery.

Fish Commissioner Thompson recently interviewed Superintendent Shelby of Wall, Faray & Co., and asked him if he would cooperate with the commission in an endeavor to have the fish law enforced by refusing to carry salmon caught during the close season. Mr. Shelby replied that if a letter was written to him he would bring the matter to the attention of the managers of the company, and he felt sure that they would cooperate. The letter will be written and forwarded immediately.

They go to Mr. Goodale at Coburg, Crawford & Fuller, Mr. Whitbeck and Mr. Striker have each a lot of logs in the stream, and also Mr. Smith has a lot more that are not likely to go down this spring.

Artistic Entertainment.

A few days since a very large audience in Corvallis greeted Mr. C. C. Hogue in the role of a cartoonist. For over two hours he kept the house in delight with the creations of his brush. He draws as rapidly as the famous Th. Nast, and owing to the more humorous character of his sketches many enjoyed Mr. Hogue's efforts more than that of Mr. Nast. His local portraits of a few of the leading men of Corvallis, although done with a few strokes of the brush, were recognized before half done and were greeted with cheers. Mr. Hogue has consented to repeat his entertainment at the opera house in this city on Friday night, March 23d, for the benefit of the ladies aid society. He will try to draw the portraits of some of Albany's notables in addition to the regular programme. Tickets—Reserved seats, 50 cents; gallery, 25 cents. For sale at Blackman's drug store.

Peace on Earth.

Awaits that countless army of martyrs, whose ranks are constantly recruited from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic nervines, pursued with reasonable persistence. Easier, pleasanter and safer than any other stomachic, it is the only one with pseudo-tonics, alcoholic or the reverse, beef extracts, nerve foods, narcotics, sedatives and poisons in disguise. "Tired Nature's sweetest rest is balmy sleep" is the providential recuperant of weak nerves, and this glorious franchise being usually the consequence of sound digestion and increased vigor, the great stomachic in fact, it is productive of rest also of repose at the required time. Not unrefreshed awakens the individual who uses it, but vigorous, clear headed and tranquil. Use the Bitters also in fever and ague, rheumatism, kidney troubles, constipation and biliousness.
