A WARNING TO C. D. Y. GIRLS.

A Sensitive Stranger Led to the Altar By the Maiden He Had Deceived.

An unusual marriage, which could not but grate harshly upon the sensibilities of those who witnessed it, was solemnized at the Revere House yesterday afternoon. O. B. Wilskey, who had been arrested at Lebanon and brought to this city by Deputy Marshal J. A. Lamberson on a charge of seducing Miss C. H. Arnett, of that place, was married to the latter in presence of the officer who had him in custody and a few others.

The circumstances surrounding the affair exhibit a shocking lack of decency and morality. Wilskey had been at Lebanon but two or three days, having come up the valley in a hack in company with two other young men, who were camped near that place. The girl, who is 17 years of age, had met him, and on Thursday evening after returning from church in company with her parents, stepped out of the house and went away with her lover. Wilskey went, or where they spent the night, unless at the camp of the man who is now her husband, is not known, but next morning their camp was gone, and the father, who had boarded the train for Albany in search of his daughter, found her standing on the platform at Tallman. He compelled her to walk back to Lebanon with him, a distance of four miles.

The constable had by this time arrested Wilskey, and he was brought this city. The girl and her mother also came down yesterday afternoon. The girl used language more forcible than cultured and quite unbecoming a bride. She went to the court house, and finding sheriff Smith standing in front, asked him, "Who is the boss of court house?" Sheriff Smith replied that several of the officials having headquarters there claimed to be "boss," and the young woman made known her errand by asking if Wilskey had procured a marriage license. The sheriff replied in the affirmative, when she said that was all right. "He has been trying to get away from me," she said, "and now I have got him arrested and he must marry me or die."

"You want to marry, do you?" suggested the officer. "You bet your life I do," was the stunning reply. She went away satisfied, and a little later they were united in marriage by Justice R. L. Dorris. The deluded girl's only desire seemed to be to cover up her shame by marriage, and she seemed quite content after the ceremony was performed.

The whole affair was so revolting that it is difficult to tell where the curse most belongs. The girl and her mother returned to Lebanon on last night's train. It is not known whether they were accompanied by the wretch who was forced to make preparation or not.

There is a peculiar epidemic of measles in Salem now, says a Salem journal of late date. Curry county has sent but one person to the penitentiary in twenty years, and that was a Chinaman, sentenced to one year's imprisonment for horse stealing, although it was generally believed that he was innocent of any intentional theft, says a paper. With the exception of two or three temporary confinements for trivial offenses, the county jail has been unoccupied for over ten years. They have no poor house and no paupers. We doubt if another county in the state can show as good a record.

The captains and pilots plying on the Columbia and Willamette rivers are about to organize a union for the advancement of their mutual interests and for their protection in case any disagreement regarding wages or amount of work should arise between them and steamboat owners or corporations. They have already held one meeting looking toward this organization and another will be held shortly to complete it. The captains and pilots are now about the only class of employed men not yet organized, and they do not propose to be behind the times.

An Old Claim. Portland papers of recent date state that a suit has been commenced by parties in Indiana, Illinois and Minnesota against the state of the late Greenbury Smith, of Benton county. REPUBLICAN CLUB AT LEBANON.

LEBANON, March 29, 1888. TO THE EDITOR OF THE HERALD: After the great democratic round up on last Saturday I think it will be safe to let your readers know that there are a few staunch republicans alive and eager for the fight in June next. On last Friday evening a large number of solid republicans met in the city hall and organized a republican club. The following members were chosen as permanent officers of the organization: President, J. Wassom; first vice-president, A. Churchill; second vice-president, D. Andrews; secretary, J. A. Roberts; treasurer, G. W. Smith. A most harmonious meeting was had, some good speeches were made and every one went home determined on electing at least three or four of the coming nominees of the republican party in June. Republicans, wake up from your lethargy, organize clubs in every precinct, go to the primaries and county convention with a determination to win. The democrats cannot and shall not have everything their own way! J. A. L.

TO UTILIZE NIAGARA. A Stupendous Scheme, the Pet Hobby of an English Nobleman. Scribner's Magazine. A somewhat startling proposition in connection with the general subject of the transmission of energy to a distance by electricity was advanced by that eminent engineer, the late Charles W. Seimens of London, who, in 1877, expressed his conviction that by this means the enormous energy of the falling water at Niagara might be transferred to New York City and there utilized for mechanical purposes. In 1879, Sir William Thompson, the electrician, publicly asserted his belief in the possibility, by means of an insulated copper wire, half an inch in diameter, of taking 26,000 horse-power from water-wheels driven by the falls, and of delivering 21,000 horse-power at a distance of 300 statute miles.

He estimated that the cost of copper for the line would be less than \$15 per horse power of energy actually delivered at the remote station. While Sir William was regarded as somewhat of an enthusiast, and has occasionally manifested a tendency to present matters of this kind in a sensational light, yet it cannot be looked upon as especially improbable that the realization of this apparently chimerical project will be witnessed by persons now living.

A series of extensive and costly experiments of this character have been zealously prosecuted within the last few years by M. Marcel Deprez, a French electrical engineer, who was fortunate enough to obtain the financial assistance of the Rothschilds. The results attained have been much criticised by the profession in other countries, but it seems indisputable that on at least one occasion more than thirty-five horse-power was delivered at the terminal of a conductor seventy miles in length, sixty two horse-power having been applied to drive the generator, showing a total loss of energy approximating 43 per cent, a result which cannot be looked upon as unsatisfactory.

MR. WOOD RESIGNS. ALBANY, March 30, 1888. To the honorable executive committee of Linn county greeting: Having had the honor of receiving the nomination for the office of sheriff on the prohibition ticket, after giving it due deliberation I have come to the conclusion it is best for myself and success of the party ticket, owing to my financial condition and other reasons beyond my control, to resign. Hoping my resignation will be accepted, I remain ever true to the cause of prohibition. Respectfully yours, B. F. Wood.

Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can think more and see it better in the evening and it will tell or scold less. If your food ferments and does digest right, if you are troubled with Heartburn, Dizziness of the head, coming up of the food after eating, Bilefulness, Indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.
