OREGON IN CONGRESS.

Summary of Important Measures of Interest to Oregon.

The senate has passed the following bills of interest to Oregon. To construct a new public building at Salem at a cost of not to exceed \$75,000; to provide for the issue of patents to certain persons for donation claims under the donation law; granting to the Newport and King's Valley Railroad company the right of way through the Siletz Indian reservation; to grant the state of Oregon townships 27, 28, 29, 30 and 31 south, in ranges 5 and 6 east of the Willamette meridian, for a public park; to pay Thomas Guinean, of Oregon, the assignee of Bradley S. Hoyt, deceased, of California, \$169 paid by the government to said Hoyt on account of land entry at Shasta, California, and which entry was subsequently canceled; to create ports of entry at Tacoma and Seattle, Washington territory; and providing for the forfeiture in certain cases of wagon road grants in the state of Oregon.

A bill to establish a life-saving station at Yaquina bay has been considered and will be urged in the senate by the committee on commerce.

The bill for the relief Newton McCoy, of Oregon, has been reported upon favorably by the house committee on claims. The claimant charges that the government owes him \$560 for his services as attorney and counsel in some thirty cases of fraudulent timber land entries. Owing to irregularities in making and approving of his contract by the district attorney the same was rejected by the attorney general.

For the Oregon Militia. Gen. Cutchson has reported favorably from the military committee Representative Heermann's bill to provide arms, ammunition and equipment to the state of Oregon for the militia thereof. The provisions of this bill have already been given in these columns. In its report the committee says: "We find the organization of the militia in said state to number at present, three regiments, with one unattached battery of light infantry and one troop of cavalry, and these are in urgent need of arms and equipments by reason of the inadequate supply due the state through its regular annual quota, it having but one representative in this house, while its population, it is estimated, has more than doubled since the last apportionment. This state contains within its limits five Indian reservations, aggregating within them about 4000 Indians, in various portions of the state, and that in the whole state as large an area as New York and Pennsylvania combined—there is but one United States military post, and it with 500 men and company of infantry; and that along its 3000 miles of unguarded sea coast, as well as frontier, there are many exposed localities, which may at any time experience the necessity of home defense."

Belongs to the Church Militant. George Winters, who belongs to the Salvation army at Salem, was fined \$5 and costs amounting to \$3.00, for cutting Guy Hirsch, son of the ex-state treasurer, who had "guyed" him, and the Evening Journal took occasion to denounce the assault as unwarranted and unprovoked. Saturday evening Winters met W. H. Parry, manager of the Journal, and attacked him, pulling off his spectacles and rendering the journalist, who is near sighted, almost hors du combat. The men clinched and went down together and were exchanging the compliments of the season, when separated. Parry was scratched somewhat, and his finger was badly bitten. Both were arrested and released on their own recognizances. Winters was evidently cut out for a soldier, but has got into the wrong army.

Patents Granted. The following patents were granted to citizens of the Pacific coast during the past week, and reported expressly for this paper by C. A. Snow & Co., patent lawyers, Washington, D. C.: P. N. Boots, Paso Robles, Cal., electric annunciator; H. E. Bradbury, Banning, Cal., a plow attachment; F. H. Busby, San Francisco, glove; W. A. Campbell, Portland, shingle sawing machine; M. Gage, Galt, Cal., automatic whistle attachment; W. Manson, Colton, Cal., well drill; J. J. Weston, Portland, binding books; J. C. Welcome, Fort Bidwell, Cal., stirrup attachment.

Notice of Equalization. Notice is hereby given that the common council of the city of Albany, Oregon, will sit as a board of equalization at the council chamber in said city, Thursday, the 13th day of April, 1888, at 7:30 o'clock p. m., for the purpose of equalizing and correcting the assessment roll of said city for the year 1888.

Dated at Albany, Oregon, April 2, 1888. N. J. HENTON, City Recorder.

Will Form a Copartnership. Mr. N. H. Allen and Mr. E. E. Goff, the electrician of San Francisco, who has superintended putting in the electric lights in this city, have accepted the agency for the northwest coast of these lights, and will form a copartnership with headquarters at Albany, for the purpose of supplying other towns with the light, which is said by experts to be the best on the coast.

Police Court Matters. John Crayton was arraigned in Recorder Henton's court yesterday on a charge of being drunk and disorderly. He pleaded guilty and was fined \$5.00 and costs. The five tramps arrested Saturday are serving out their sentence at labor on the streets.

STATE DISPATCHES.

Democrats En Route to Pendleton to Attend Their State Convention.

Special to the Herald.] PORTLAND, April 2.—Large delegations of democrats left here on the train to-day for Pendleton to attend the democratic state convention, which meets there to-morrow. Col. John P. Irish, of California, the talented editor of the Alta, who came to stump the state for the democrats, arrived here to-day and left with the delegation.

A STOCKING DISCOVERY. To-day coroner A. P. DeLin was notified by a Chinaman that he had discovered a dead infant lying in a gulch at the head of Alder street. DeLin drove out to the place and instead of finding one corpse there were two boys, twins, and still-born. As there were no indications of a violent death upon the little persons, no inquest will be held. The remains had been wrapped in a sheet and thrown into the gulch from a height of about thirty or forty feet. In the fall they rolled out of the sheet and when found they were lying exposed on the ground perfectly nude. There is some mystery attached to the affair, which will doubtless be investigated by the authorities.

AN ODD CENTENARIAN.

A Woman Who Stopped Smoking at One Hundred.

Chicago Tribune. One hundred and two years ago this month—one year previous to the adoption of the Constitution of the United States—occurred the birth of Margaret Death in Fairfield county, O. She grew to maidenhood and married William Dutton, a young man of her native county. In 1831 her husband died and soon after she, with her children, removed to Effingham county, Ill., and purchased the farm on which she now resides. She was one of the first settlers of the county, and for many years wove all the material for her own and her children's clothing and made straw hats for the entire neighborhood. Mrs. Dutton was an only child, but is the mother of seven children, grandmother of thirty-seven, great grandmother of twenty-eight and great-great grandmother of one. She had been a member of the Methodist Church for more than three-quarters of a century, and has been a republican from the infancy of that organization. She is a small woman, never having weighed more than sixty or seventy pounds, but she is quite active, and can well remember events that transpired during her early childhood. She smoked until she was 100 years old, and then, feeling the habit was detrimental to her health, she swore the use of the weed, and for two years has kept her vow inviolate. She has planted a number of orchards, always saying she would not live to eat the fruit, but that her children might; yet she has lived to gather fruit from all, and still survives. She seems well pleased with life, and bids fair yet to live many years.

A Belle of Napoleon.

Prince Napoleon has made another addition to the numerous relics of the First Emperor in purchasing a locket given by him to a Venetian beauty of high rank in 1809. It contains a portrait of himself made with his own hair. Such fanciful works were common enough early in the century. With the portrait is a hastily scrawled billet-doux establishing its authenticity.

Card of Thanks.

To those who so kindly gave their aid and sympathy during the fatal illness of our daughter, we desire to express our gratitude, and we hereby tender to them our sincere thanks.

JOHN AND MARY HOFFMAN.

AN IMPORTANT MATTER.

ALBANY, April 2. TO THE EDITOR OF THE HERALD: Portland enterprise in her late endeavor to attract a share of the western bound immigration to her advantage and upbuilding is worthy of emulation. And now that the metropolis of the Willamette valley and the state of Oregon has taken the initiative, the country tributary to her should join in upholding her hands. It cannot be considered that Portland is acting solely from selfish motives. The coming tide of immigrants are not all seeking homes in cities and towns, in fact the majority are in search of homesteads in the country where they can enjoy our mild climate and reap the benefits of the fertility of our soil. The Willamette valley is the garden spot of the West, but the East and those traveling this way know too little of the fact for us to lay supinely by and wait to catch the overflow. There is a double current now flowing both north and south throughout the full length of the valley, but we catch none of its benefits. And to ascertain how little is known of our country one needs but to visit the Oregon California depot in the morning when the trains arrive, and hear the passengers just aroused from their slumbers, exclaim in utter surprise at being in the midst of such a "beautiful country," one they had never heard of or even dreamed of in their rapid transit. Is it wise, or even expedient, to permit this state of affairs to long continue. Albany sits in the very lap of this beautiful valley with her arms folded and doing nothing. She is thriving, but by the mere advantage of her position. She can doubly increase the rapidity of her growth and without danger of overdoing. The city has no board of trade and no organized body to deal with this issue. Salem has a board of trade and so has Eugene City. We can support one as well as they, and why not? Portland probably invite the valley towns to supplement her efforts, and with a board of trade Albany can make a creditable contribution. But should the invitation not come, would it be presumption to invite Portland to distribute descriptive matter that we might and ought to publish here, along with the pamphlets and other publications which she will send everywhere. Portland will not reject our suit. This branch of enterprise will bear discussion, to say the least.

Who is Your Best Friend?

Your stomach of course. Why? Because it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does digest right—if you are troubled with heartburn, dizziness of the head, coming up of the food after eating, biliousness, indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.
