If so you have the Catarrh. Some have all these symptoms, others only a part. The leading symptom of ordinary catarrh is increased secretion of mucus of yellow or greenish colored matter.

Foul breath is caused by the decomposing secretions exuded from festering ulcers far back in the head; sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are indeed objects of pity, as stench from [illegible]

As every breath drawn into the lungs must pass over and become polluted by the secretions in the nasal passages, it must necessarily follow that poisoning of the whole system gradually takes place, while the morbid matter that is swallowed during the sleep passes into the stomach, enfeebles digestion, and often produces dyspepsia, and finally great debility, nervousness and consumption.

DO NOT PROCRASTINATE.

If you have experienced any of the above symptoms do not delay, but try CALIFORNIA CAT-R-CURE at once. We positively guarantee a few applications to relieve, and a thorough treatment to cure. Six months treatment for $1.00; sent by mail $1.10.

COAST NOTES.

The vote of Wallowa county is between 800 and 900.

Grant's pass has an elevation of 965 feet above sea level.

Klamath Star: The Indians on the Klamath agency met in council last Saturday, to consider the advisability of taking land in severalty. The result was that 600 voted in favor of the project.

A gentleman living near Springfield, Lane county, reports being bothered a great deal by tramps. He says they hang around there nights and often wake him up about 2 o'clock in the morning and ask for a drink or anything else for the sake of making themselves troublesome.

A colony of twenty families from Illinois arrived here Monday and will make their homes in this vicinity, says the Astoria Pioneer. Quite a number of the men have found employment already. Emigration to this country the present year promises to be something immense.

Dalles paper: The fish wheels on the beach are being overhauled and put in condition for the coming season's work. The fishermen, like the farmers, are producers, turning into money the products of the river, which money generally comes from the East to be put in circulation here.

The stockyards now being built here by the O. R. & N. will be the best between Portland and St. Paul, says The Dalles Sun. They will hold thirty carloads of cattle, are fixed for taking care of sheep, will have sheds for horses, and arrangements made for fine stock. Nearly 100,000 feet of lumber will be used in their construction.

Captain Tom Parker, of the Canby, says that the new channel to Ilwaco was not discovered any too soon, as the old one is rapidly filling up, says the Pioneer. One day last week the Canby came through the new channel without a moment's delay, when it would have been necessary to wait over one [illegible] tide in order to come safely through the old one.

A Maker of Gods.

Boston Herald.

A queer story told of a man named John Concord, who left Sanford, Me., many years ago and was stranded on one of the Sandwich Islands. Not knowing what trade to [follow] for a living there, he set up in business as the maker of gods for the ignorant class of natives, making his images from iron with tools picked up from the vessels wrecked on the coast. These images being indestructible gained the favor of the islanders, and Concord afterward married a native belle. One day in the streets of Honolulu Concord met a man who had been picked up from the wreck of a vessel a short time before, who claimed to hail from Maine, and on investigation Concord discovered that the stranger's home was in Sanford, and that he was his [illegible] schoolmaster. The [illegible] son brought Concord's four children to this country to be educated. All four afterward returned to Honolulu, while Concord after the death of his wife, returned to Maine and married again. One of his sons [by] the second marriage is a leading druggist in Lynn, Mass.

OREGON POLITICS.

What Senator Mitchell Has to Say of the Outlook.

WASHINGTON, April 4.—Senator Mitchell was interviewed to-day.

"What do your hear about the inference of the administration in Oregon politics?" he was asked.

"Very little," was the senator's reply. "I have no doubt but what the president was interested in enrolling one more state on the list of those that at present fill the democratic column. I have received letters from San Francisco saying that John P. Irish was going to Oregon to stamp the state for the administration. As Irish was in Washington and saw the president, I presume they have come to some sort of an understanding regarding Pacific coast politics. There has been some suggestions that John F. Swift ought to go into the state to canvas for the republicans, but I don't know what truth there is in the rumor. Great dissatisfaction exists in Oregon in regard to the tariff policy of the president. I have received personal letters from many democratic friends saying that if Cleveland was again a candidate he would lose at least 1000 democratic votes in Oregon."

"How about the state election?" asked your correspondent.

"The hostility toward the president might not have so much effect in the state election. When it comes to the presidential election many democrats will not vote for him. I am confident the republicans will carry the state election in June, and if our national convention nominates a man who is right on the Chinese, tariff and money questions we will be successful in the presidential contest. On the tariff the president's message is aimed against three of our principal industries, wool, lead and lumber. Oregon produced 15,000,000 pounds of wool this year for shipment, and it is proposed to sacrifice this industry for foreign competition, besides our people have not forgotten that last year Cleveland pocketed a river and harbor bill of only nine millions that contained appropriations aggregating $[illegible] for Oregon."

THE FIRST GUN.

Rhode Island Goes Republican by About 1500 Majority.

PROVIDENCE, April 4.—The weather to-day was fair, and the election for state officers proceeded quietly. A tremendous vote was polled in this city. Enos Lapham, republican candidate for lieutenant governor, was freely scratched.

Present returns indicate the election of Tait, republican for governor by 1000 to 1500 majority. The entire vote will not vary much from that of last year.

REPUBLICAN ALL AROUND.

PROVIDENCE, April 4.—The state election to-day went republican by about 1500 on the general ticket, and the republicans had a sweeping victory on the legislature. The proposed amendment to the constitution, abolishing the real estate qualification for foreign-born voters will probably not get the necessary two-thirds vote.

Subterranean Cauldron.

[illegible]

Some time ago, during a snow storm, two small boys were attracted by the sight of snow being thrown skyward from the ground on a [illegible] about one mile south of Hornbrook. Supposing the commotion to be caused by some wild animals playing around, they cautiously approached the spot, only to find nothing [illegible]. Drawing nearer they discovered a volume of hot air issuing from a crevice in the ground. Half frightened at the strange phenomenon they hastened to the house of John Wagner, near by, and conducted him to the spot. Mr. Wagner, with another gentleman, a few days later made the opening larger and found the hot air issuing up a chimney of two perfectly smooth rock walls, and by sounding ascertained its depth to be 80 feet. It still continues to flow and is a [source of] much wonder to those who have visited it.

Celluloid Sheathing for Ships.

[illegible] Industries.

Among the various uses of celluloid it would appear to be a suitable sheathing for ships in place of copper. A French company now undertakes to supply the substances for this at nine francs per surface meter and per millimeter of thickness. In experiments by M. Buraine, plates of celluloid applied to various vessels in January, 1887, were removed five or six months after and found quite intact and free from marine vegetation, which was abundant on parts uncovered. The color of the substance is indestructible; the thickness may be reduced to 0.003 meter and the qualities of elasticity solidity, impermeablity, resistance to chemical action, etc., are all in favor of the use of celluloid.

Boil fish in salt water. A good way is to wrap the fish in a napkin. Salmon and all dark-flesh fish require more cooking than lighter-flesh fish. Salmon requires ten minutes to the pound, while cod only requires three minutes.

GENERAL NEWS.

Filibustering in Congress over the Direct Tax Bill.

A PASSENGERS TRAIN WRECKED

Four Thousand Irish Immigrants Leave for America.—Republican Majority in Rhode Island Swelled to Nearly 2,000.

The HERALD'S Special Dispatches.

WASHINGTON, April 5.—The house to-day resumed filibustering over the direct tax bill which consumed all of the time from noon yestering until 2 o'clock this morning. Speaker Carlisle ruled to-day that he had no power to put an end to filibustering, as there are just enough members opposed to the bill to make dilatory motions and prevent the majority from passing it.

A FRIGHTFUL WRECK.

A Passenger Train Dashed to Pieces With Fatal Results

CHICAGO, April 5.—A terrible disaster occurred seven miles west of New Hampton, Iowa, this morning, whereby the passenger coaches on the west bound Milwaukee and St. Paul train were precipitated into the Wapsie river. It was caused by the giving way of a bridge. The engineer and two passengers are known to have been drowned, and it is supposed the same fate has befallen the balance of the passengers. Local officers of the St. Paul road in Chicago know nothing concerning the accident. St. Paul officials have received a dispatch saying that only two lives were lost.

The Rhode Island Election.

PROVIDENCE (R. I.), April 6.—Full returns of yesterday's election show that Tait, the republican candidate for governor, has a majority of 1944, and Latham, republican candidate for lieutenant-governor, 1755. The suffrage amendment has 573 over the necessary three-fifths vote. The senate stands, republicans 25, democrats 6, no election 5; house, republicans 54, democrats 10, prohibition 1, no election 1.

Rathbone's Nomination.

WASHINGTON, April 5.—Senator Morgan appeared before the senate commerce committee this morning and vigorously opposed the nomination of Jared L. Rathbone as consul general at Paris. Eleven of the thirteen members composing the committee were present, and after Morgan's argument a vote was taken and nine senators voted for a favorable report on the nomination and two adversely.

Placed on the Retired List.

WASHINGTON, April 5.—General Terry was placed on the retired list of the army to-day. This is in accordance with the report of the army retiring board, of which Gen. Schofield is president. The report was submitted by the secretary of war to the president to-day and was immediately announced.

American Minister Coming Home.

LONDON, April 6.—Phelps, American minister, left to-day for Southampton to embark on the steamer [illegible] for New York. White, first secretary of the American legation, Waller, American consul general at London, and many other Americans were at the station to see the minister off.

Prince Bismarck Will Resign.

BERLIN, April 6.—A report is current that Prince Bismarck has asked the emperor to relieve him of his post. The alleged cause is the precarious state of Bismarck's health.

Jacob Sharp Dying.

NEW YORK, April 6.—At 1:30 P. M. to-day Jacob Sharp was unconscious, and his family do not expect that he will live more than two hours at the farthest.

Wholesale Immigration to America.

LONDON, April 6.—Four thousand Irish emigrants sailed from Queenstown to-day for America.

Housekeeper at Hampton Court.

London World.

The office of housekeeper at Hampton Court Palace, which is one of the most desirable of the minor places in the royal household, recently became vacant by the death of Mrs. Heaton, who was formerly appointed through the interest of the late Dean Wellesly. The Queen herself appoints to places of this kind although they are nominally in the gift of the Lord Chamberlain, and her Majesty is said to have received twenty applications in two days from various relatives and dependents, but Miss Mager, a niece of Mrs. Heaton, obtained the place on the recommendation of Princess Frederica of Hanover. The salary is about £120 a year, with apartments in the palace and numerous perquisites.

A good relish for supper may be made in this fashion: Put chipped beef, smoked or dried, on the stove in a frying-pan with cold water and let it boil. Then thicken it with flour to the consistency of gravy and add pepper and butter. This makes a delicious dish and uses up the remants of dried beef at the same time.
