WILLAMETTE PACKING COMPANY.

Preparations for an Active Season's Canning by this Enterprising Company.

A HERALD reporter visited the fruit cannery of the Willamette Packing Company, which is just now starting up for the coming season in their new quarters adjoining Hackleman's third addition to this city.

They have erected a large building for this purpose and have put in machinery for engaging in the business on a much more extensive scale than last year. They have stacked up fifteen tons of tin, at which a dozen hands are now engaged in making cans. They will give employment during the canning season to about 40 hands. The establishment is provided with a 14-horse power engine and machinery that will afford a capacity of 150 cases of fruit per day. The pack of the season will reach about 10,000 dozen cans, or 5,000 cases. This will offer a good market for fruits and vegetables. Many gardeners have planted several acres to vegetables and small fruits, which they are growing under contract for the cannery.

Last season the managers of the cannery state they experienced no difficulty in finding a market for these goods, although there was less sold in Albany than in any other of the Willamette valley towns. This year they have engaged nearly their entire pack to Portland merchants.

This company has opened a deservng business, which will give employment to a considerable number of persons and enlarge our markets, and have done so without asking the assistance of anyone. For their enterprise these gentlemen deserve much credit.

FIREMEN'S TOURNAMENT RACES.

Programme Adopted for the Tournament to be Held at Portland June 21, 22, 23.

Special to the Herald.

ASTORIA, April 9.—At a meeting of the board of fire delegates of the Northwestern Firemen's Association held here to-day the date of the tournament for 1888 was fixed to be held at Portland on June 21, 22 and 23, and the following races were adopted:

Championship race, run 150 yards to hydrant, attach, lay 350 feet of hose, put on pipe, get water, take length from cart, replace second length from hydrant, get water, time to be called when water passes pipe second time; cut to carry 450 feet of hose with all couplings made. In this race it is supposed that the second length from the hydrant burst and it was necessary to shut off water and replace it with a sound length.

Wet test, distance 700 feet in all, 500 feet to hydrant, lay 200 feet hose, uncoil, screw on pipe, hose cart to carry not less than 300 feet hose; time taken when water leaves pipe.

National hose test, distance 600 feet in all, 400 feet to hydrant, make light coupling, lay 250 feet hose, break light coupling, screw on pipe three full threads, carts to carry not less than 250 feet hose, time to be taken when pipe is on.

Speed race, distance 700 feet, carts to carry not less than 250 feet hose, time to be taken when center reel hose cart crosses score.

Hook and ladder contest, hook and ladder teams of not more than thirty men shall run 60 feet, put up 30 foot ladder in the street, have man ascend to top in any manner that may be selected, time to be called when he grasp the top rung, which must be held until time is called.

Tender contest, engine tender companies of 12 boys, 16 years or under, to run 200 yards and carry 200 pounds of coal.

New Oregon Postoffices.

In Oregon new postoffices have been established as follows: Deschutes, Wasco county, Rosa Burnett, postmistress; Bonanza, Umatilla county, J. W. Dooman, postmaster; Ferry, Curry county, Sarah E. Hooley, postmistress; McKee, Marion county, D. A. McKee, postmaster; Starvout, Douglas county, H. L. Miser, postmaster.

Place Filled.

The vacancy in the faculty of the state university at Eugene, caused by the resignation of Mrs. Spiller, has been filled by the appointment of Miss Ella C. Sabin. Miss Sabin was formerly a teacher in the Eugene public school, and of late has been principal of one of the Portland public schools. The appointment is said to give good satisfaction.

Removed.

The book and job printing office of J. H. Burkhardt has been moved to the new First National Bank building, and is now ready for business. Those who have not seen a neat, clean, first-class office should call and see the best office in the state, and the place where the best work is done for less money than the same work can be had at any other office in Oregon.

Gold Watch Given Away.

Francis Pfeiffer has placed in his show case at the Albany soda and candy works a \$50 gold watch, which will be given away to the customer who purchases of him the most cigars. Every person who buys a cigar will receive a ticket. At the end of ninety days the one holding the largest number of tickets will receive the watch. It is warranted to be a genuine gold watch worth \$50. His cigars are the best in the market. This is a rare chance to get a gold watch free.

The Albany Shoe Store.

Is now ready for business. We make boots and shoes a specialty. Consequently we can sell you first class goods at reasonable figures. All goods warranted to give satisfaction. Repairing neatly done. Krauss & Klein, Flinn Block.

OREGON APPROPRIATIONS.

The State Banks Second or Third in the Order of its Allowance.

Hon. Binger Hermann writes as follows to a friend on matters of interest to Oregon people: "For one, I am very much delighted," he says, "with the allowances made to Oregon for river and harbor improvements. At no time in our history as a state have we ever been so highly favored. These items in the bill amount to over \$750,000, and the senate will add enough to swell the allowance to over \$1,000,000.

"The sum for the Columbia river jetty is such as will extend the work far into the sea, and with a senate increase will enable the engineer corps to construct a railway down the coast eleven miles, which will facilitate the procuring and hauling of a superior rock.

"Assuming that \$50,000 more will be added in the senate to the item for the Cascades canal and locks, we have the opening of navigation at this point with another equal appropriation, and do the finishing up in subsequent allowances. The sum for the Yaquina jetty, in view of the limited estimate, is even more than was anticipated.

"If one looks over the bill, compares the aggregate allowances to Oregon with those of any other state, I think he will find it to rank second or third in the order of its amount. Our people have but a few public works for waterways and they can concentrate, whereas we in Oregon have many. When they all appear in the bill they attract attention, and comment and envy follow.

Many members of the house express surprise that a state so remote and with a population only equaling some counties of the East should demand a share of the surplus revenue so large in proportion to the states along the Atlantic seaboard. We have the Columbia at its mouth, the Cascade locks, the bar below Portland, the Willamette river, Yaquina bay, Umpqua river, Coos bay, Coquille river (this at two points) the upper Columbia; and rapidly coming to notice as competitors on the same list for improvement, we have Siuslaw, Tillamook and Nehalem bays.

"In the line of large appropriations I have on the way the new custom house at Portland, and have for it a committee allowance recommended of \$350,000. It is now on the calendar, to be called up as the first business when the committee on public buildings has its day. Then I have the light-house bill for the Umpqua, which is recommended for \$80,000, and which building will be one of the finest structures on the coast. The committee on commerce shudder to report this, as they aver it is larger in amount than any yet reported this session. They will most likely, however, report it.

"Looking at the subject," he says, "I think it must be conceded that Oregon fares magnificently among the states. For what we do get we labor hard and continuously. When the river and harbor bill reaches the senate it goes to a committee where Oregon is represented by a vigilant senator, and on the floor that senator will have our two senators, who will see that Oregon shall not suffer.

"The house committee greatly appreciated the Oregon exhibits of lumber, wheat, salmon, coal and wool, which I had on hand as I addressed myself to the respective portions of the state where these productions are the leading industries and exports."

W. O. Tuggle, LaGrange Ga., writing about Darby's Proprietary Fluid, says: "It is a priceless jewel as a disinfectant and deodorizer. My wife states for the benefit of young mothers that it is a valuable adjunct to the nursery. It is equally so to parents traveling with children. Not only is the Fluid invaluable as a deodorizer, but a few drops added to the water in bathing will remove all eruptions from the skin, chafing, etc., and greatly refresh and soothe."

Good quality in coffee is more to be desired than in any other article. Kenton & Chase, offer the best quality at the lowest prices, and that is why so many people buy their coffee there.

A GHASTLY FIND.

At about 2 o'clock Sunday afternoon Capt. C. A. Carey, master of the steamer Topsy, while coming up the river discovered the body of a man on a shoal at Kaiser's rapid, two and a half miles below Salem.

From papers and memoranda found on the body it was learned that the man's name was Robert W. Jones, and that he had a brother named J. W. Jones, in St. Paul, Minnesota. The only valuables found on the person were an old English lever silver watch, 65 cents in U. S. silver and a few pence in Canadian coppers. There was also a N. P. R. ticket from Tacoma to San Francisco, but it lapsed before the 17th of March. The person appeared to be a newcomer in the country. W. A. Matthews, a boarding house keeper on Liberty street, recognized the body as that of a man who stopped with him early in March. He appeared to be a religious person, but a little inclined toward insanity. Mrs. Matthews thought he had considerable money with him. When he left the house he spoke of going to Yaquina to work, and that is the last they heard of him. Dr. Smith testified at the inquest that the man's throat was cut and that the artery on the right side was cut, and though not immediately fatal, was sufficient to produce death; that the cut was clean and made with a sharp or edged instrument.

Wm. Suroder, a saloon keeper, testified that he recognized the body as that of a man who called at his saloon, and asked for a glass of beer, saying that he had no money, and that it was to be his last drink. He said that the man had a wife and two children somewhere below Woodburn, and that he was a school teacher. This was on the 17th of March, the day a man was reported to have jumped off the Salem bridge and about 3 p. m. This is about all the evidence there was before the coroner's jury, except that the boys who said they saw a man jump from the bridge did not recognize the body as the man. The jury found a verdict to the effect that the man's name was Robert W. Ross, a native of Wales, aged about 40; that he came to his death by either a cut in the throat or drowning, and that the jury was unable to tell whether the deed was by his own hands or whether he was murdered and thrown into the river.
