DEEP SEA FISHING.

Project to Build a Schooner to Fish off the Mouth of the Yaquina Bay.

Yaquin Post.]

There is a scheme on foot to build a steam schooner for outside, or deep sea fishing. It has been clearly demonstrated that just off the mouth of the Yaquina bay there is a bank which extends along the whole coast, where the best varieties of food fish can be obtained in unlimited quanitites. Recently the finest halibut, weighing, we are assured, in the neighborhood of 100 pounds, has been taken, while sea bass, rock cod and other varities of fish are abundant. With a properly equipped vessel, tons of fish could be secured and shipped to the Oregon Pacific cars to valley points every morning, reaching consumers a few hours after being taken from their watery homes. Properly conducted and equpped a steam schooner would enable those engaged in deep sea fishing to gather in large returns in coin, as the best varities of fish can be taken in any quantity and, as indicated above, can be delivered absolutely fresh in all the valley towns from Portland to Ashland at least one day before they can be obtained from the lower Columbia. The demand for these fish is growing right along, and the industry will prove more and more profitable from year to year.

Fatal Accident on the Railroad at Portland—I. O. O. F. Celebration.

[Special to the HERALD.]

PORTLAND, April 26.—To-day another accident occurred on the railroad, the injured victim being John Doherty, 35 years of age and married. A scantling falling struck him on the head, lacerating his ear, fracturing the base of the skull and producing concussion of brain. He was taken to St. Vincent hospital, where he now lies in a very critical condition. It is thought he cannot possibly recover.

ODD FELLOWS CELEBRATION.

The sixty-ninth anniversary of the organization of Odd Fellows in this city was celebrated here to-day in a grand manner. Orations and musical and literary exercises were held at the tabernacle in the presence of a very large audience. A grand ball to-night will conclude the celebration.

THE OREGON PACIFIC.

TO THE EDITOR OF THE HERALD:

In a recent issue I note that you quote Mr. G. W. Hunt as saying that he had paid out $200,000 on his contract with this company, and that the company owes him $500,000. We are aware that you gave this statement as from Mr. Hunt and made no editorial endorsement, and we know that you, like the majority of the human race, do not like to be imposed on by fish stories, therefore we give you the exact figures:

The engineer's final estimate shows that Mr. G. W. Hunt had done on both contracts up to the time of abandoning his work work amounting to $50,643.56. These figures are correct, and the company expects and intends to prove them in court. Whether Mr. Hunt's magnificent figures mentioned above are the result of a brilliant imagination, or whether your compositor slipped in the extra ciphers without his knowledge we leave you to judge. In his complaint filed with the court he claims larger profit on his contract than the whole amount of work done. To make the profit more than the whole price of work done seems to us too great a strain for even a brilliant imagination. The amounts of work done by Mr. Bennett have been equally overstated by him. It seems to be a fling of these contractors to look at work done by them through magnifying glasses. We have said very little through the press, because we consider it an insult to court and jury to endeavor to prejudice a pending case by newspaper discussion.

ONE WHO KNOWS.

LEBANON NOTES.

LEBANON, April 25.

Dr. J. H. P. Hope is seriously sick, and doubts are expressed as to his recovery.

Mumps and measles have been going around pretty generally, with no serious results so far.

Gov. Pennoyer has signified his willingness to address the democratic club sometime during the campaign.

The W. R. C. and G. A. R. post will give an entertainment next Friday evening, which promises to be very entertaining and successful.

An effort has been made to have a joint discussion between the democratic and republican clubs, but no definite arrangements so far.

There is a general feeling of satisfaction as to our present mail facilities—two mails a day—and the credit is largely attributed to Hon. Binger Hermann.

Hon. John Slater, a former resident of Lebanon, and now judge of Stephens county, W. T., has been spending several days visiting old acquaintances and friends.

Farmers are pretty well through with their seeding, and grain generally looks well. A good rain would be very acceptable, as the ground is getting considerably hardened.

Free wool and taxed woolens need some explanation with some of the voters, also the duty on sugar. It may be that all will be made plain, but the chances are largely that some will have their own opinion in the matter and cast their vote accordingly.

We Apologize.

For not following the example of one of our illustrious competitors in displaying a caricture of ourselves in our show window, having a large run of custom we find no time for such attractions, preferring to utilize it in studying the wants of our many customers. Yours for business,

Brownell & Stanard.

Roasted Coffee!

We invite consumers to try our roasted coffee. We have reason to believe they are as fine as any offered in this market, and some good judges pronounce our standard Java and Moco the best. We have confidence in these goods, and therefore warrant them.

KENTON & CHASE.

The exhausted and drowsy feelings, common to spring time indicate an impure and sluggish condition of the blood, which may be remedied by the use of Ayer's Sarsaparilla. It is the most powerful, and, at the same time, most economical blood purifier known.

Julius Gradwohl desires to call the attention of the ladies of Albany to his line of parasol top baby carriages, which he is selling at eastern prices; also to his fine line of new patent steel wheel carriages, which he is selling at prices lower than ever before offered in this market.

TO ADVERTISE THE STATE.

Every Section of the Commonwealth Asked to Be Represented.

TO THE EDITOR OF THE HERALD:

The Oregon immigration board, of Portland, Oregon, of which the undersigned are the duly appointed commissioners, are beginning active and systematic work, looking to the thorough advertising of the state of Oregon and the city of Portland—their resources, opportunities for investment, and general advantages as fields for immigration.

The board have now funds subscribed by the business men of Portland to the amount of about $2,000 per month, covering a period of one year, from April 1, 1888. New subscriptions are constantly being made, and it is expected the fund will reach from $30,000 to $40,000 to expend during the year by Portland alone. The board has appointed four agents to be stationed, one each, in southern California, Puget sound, St. Paul and Chicago, whose duties it will be to distribute vast quantities of folders posters, pamphlets, and other printed information furnished from time to time by the board. These men will begin work at once.

In addition to the printed matter already provided for, the board have in view the publication of a complete pamphlet setting forth in detail the resources of the state at large, which pamphlets will be placed before the general public through the medium of the systematic plan of distribution at our command. The amount thus far subscribed will not enable us to compile, print and circulate as full a descriptive pamphlet of the state at large as might be desired; but by every county in the state contributing, say in the aggregate the sum of $20,000, we would be enabled to fully advertise every section of the commonwealth fully and fairly.

Thinking, that the citizens of your locality will be interested in this work, and perhaps willing to assist financially in this accomplishment, we take the liberty of addressing you and asking you personally to bring the matter before your fellow citizens with a view of their co-operation.

We can spend to advantage ten times the present fund at our disposal, and therefore respectfully ask you to urge upon your fellow citizens the advisability of a liberal contribution. You will at once perceive the very great advantage to be secured by concentration of effort with us, securing, as you will thereby, not only the benefit of your own money, but of the funds already in our hands to be expended, and all other money which may be placed with us.

Your community may forward its subscription either in monthly installments, or in one sum as you may deem most expedient.

Awaiting your early reply, we are, very truly your obedient servants,

H. W. CORBETT,

ELLIS G. HUGHES,

Abraham Hare, druggist, Bellville, Ohio, writes: 'The best selling medicine I have ever handled in my 20 years of experience, is Electric Bitters.' Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease.
