ABOUT MINING.

The search for gold is one of the most alluring occupations that men engage in, and it finds an increasing number of votaries in ratio to the success that attends the efforts of the searchers.

A significant fact is reported in the action of fishermen from Swampscott, Mass., who have been removed with their fishing schooners to Puget Sound, Washington Territory.

The latest from the Panama Canal is by a Nicaragua Canal Company's engineer, who says he has investigated the Panama work, and that it is only a question of enough money to finish the canal, and that it will be finished.

Wanted. SEALED PROPOSALS FOR 100 CORDS of body or wood delivered at the Albany Electric Light works will be received on or before May 25.

Keep Out the Flies. BY USING SCREENS & CURS AND WINDOW SHOPS on corner of Second and Ellsworth Sts.

Removal. JOSEPH WEBBER ANNOUNCES TO HIS patrons and friends that he can be found on Lyon street, between Engine Co. No. 2 and First street, until the new rooms in Pugh & Mason's brick are ready.

EDITORIAL NOTES.

Geo. Potts, of Georgia, who wished to head off the internal revenue officers disappeared, leaving a note stating that he had drowned himself in the river. Search found a trail to the river, and in the stream below his coat. He now turns up alive, but his friends say that he is dead, and that the man claiming to be Potts is an impostor. Evidently he made his sham death too genuine in appearance.

Matters of justice seem to be progressing in New York. A married woman, whose drunken husband had procured an injunction to restrain her from selling a piece of real estate that belonged to her, and which through his dissipating habits had become the only means of support she had, has succeeded in getting the injunction dissolved, and the sanction of the court to manage her own business to suit herself.

FAME brings innumerable emoluments, sometimes, at least so Miss Minnie Freeman, the Nebraska school teacher, who so nobly saved her pupils during the last winter's blizzard, has reason to think. She has received at least fifty offers of marriage, \$2000 in coin from the state, besides several medals. She is now at the home of her father in California.

A significant fact is reported in the action of fishermen from Swampscott, Mass., who have been removed with their fishing schooners to Puget Sound, Washington Territory. The advent of a few of them in Puget Sound is said to be the advance guard of a large number who will shortly follow, if the report from the first ones sent out is satisfactory.

The latest from the Panama Canal is by a Nicaragua Canal Company's engineer, who says he has investigated the Panama work, and that it is only a question of enough money to finish the canal, and that it will be finished.

Newton Self-Wringing Floor Cleaner! THE OLD WAY THE NEW WAY

Every housekeeper knows from experience the hard labor required to wash floors and wring the cloths by hand. By using the Newton self-wringing floor cleaner, wringing the cloth by hand is avoided, the hard labor is thereby lessened; the hands do not come in contact with the water, whereby you can use boiling and ammonia water. The Newton self-wringing floor cleaner is light, durable and simple in construction, and well merits the claim of being the best invented.
