FOR A PUBLIC BUILDING.

A Matter for the Board of Trade to Consider and Urge. A Bill Before Congress Which May Give Albany a Postoffice Building. There is a measure now before congress in which the citizens of Albany are directly interested. Senator Paddock's bill, providing for the erection of a public building in every town at which the gross postal revenues have been \$3,000 a year for the last three years, has been favorably reported by the Senate committee on post-offices and is very likely to be passed by the Senate at an early day. The receipts of the Albany post-office for the past three years has been as follows: 1885, \$350 00; 1886, 404 00; 1887, 426 00. This shows the growing importance of this city and the rapidly increasing business of its post-office which justly entitles Albany to the claim for a postoffice building. The postmaster general has recommended, in connection with the bill above referred to, that a board of architects be appointed for the purpose of arranging plans and providing for the construction of such buildings, the same to conform to the size and importance of the city in which it is built. It is to be hoped the measure will pass. This city is especially interested, as the growing postoffice business demands a larger and more commodious building. This would be a very proper subject for the board of trade to look after, and urge upon our representatives at Washington the passage of the measure and Albany's need in connection with it.

STATE DISPATCHES.

D'Arcy, secretary of the democratic state central committee, stated to your correspondent to-day that the report that "though Col. Irish had been announced for a number of political speeches in Oregon, it was doubtful if he filled his engagements," is unfounded. Irish has engaged positively to stump Oregon, and will appear as advertised.

NATIONAL TEACHERS' ASSOCIATION.

Supt. of Public Instruction McElroy has just issued a circular letter to teachers and others relative to the national teachers' association to be held in San Francisco on July 16, 17, 18, 19 and 20. He earnestly requests that all educational institutions in Oregon, public and private, be represented at the association. A round trip rate to San Francisco via the O. R. & N. for \$25 has been obtained, and via the Yaquina route for \$14 from Albany or Corvallis. Negotiations are now pending with the Oregon & California relative to reduced rates. The circular says further: "It is expected to establish headquarters for Oregon) at the Baldwin hotel, Market street, San Francisco. These headquarters will be maintained during the association, and will include a bureau of information (relative to Oregon) for the thousands of visiting teachers from the East. It is suggested that each county send as many representatives as possible, and that they be supplied with such pamphlets, circulars and other county immigration literature as may be desirable for circulation. With this in view, it is suggested that you confer with your county board of immigration (if one has been established) relative to such aid as they may be able to give you in carrying out the above plan."

FURTHER PARTICULARS.

From W. M. Toner, Wells, Fargo & Co's express agent on the Oregon Pacific train, the following additional particulars of the grounding of the "Favorite" at Yaquina are learned: The tug "Favorite," from Astoria to Siuslaw, attempted to enter the bay over the north beach, about 350 feet north of the north side of the main channel, where at present there is 14 feet of water at low tide. She ran upon the north beach and her signals of distress were heard at south beach, and Capt's Tracy and Zena, Davis and Divine went to their assistance in a skiff and successfully took them off and brought her in safely. But for their timely assistance, the boat would have been a total loss. The "Favorite" sailed yesterday for Siuslaw.

A DIFFERENT VIEW OF IT.

A. J. Miller, father of the youth at Yaquina who stabbed and killed Elmer Wright in a quarrel after Sunday school, is in the city. He gives a different version of the crime, and says that young Wright struck Miller several times before the latter finally drew a knife and killed the other. At any rate the murder was a most inexcusable one.

LOGS TO CORVALLIS.

Mr. Max Friendly, of the Corvallis saw mills, put a force of men at work on the upper McKenzie the first of the week getting out logs to ship to Corvallis. He has a contract to furnish one million feet of lumber. The logs are to be floated down the McKenzie and it will take about ninety days to make the trip from where they are cut to the mills. Fir, cedar and ash, are the principal kinds wanted.
