AT WASHINGTON.

Notes and Comments by the "Herald's" Correspondent.

THE SILVER QUESTION DISCUSSED.

A New Tariff Bill to Substitute Mill's Bill—The Chinese Treaty—A Session in the House.

Special Correspondence.]

WASHINGTON, May 7.—Senator Ingalls of Kansas has been tendered a public reception by the republican national league of this city. It is in recognition of the service to the republican party which he performed last Tuesday in the Senate Chamber by showing up the hypocrisy of such copperheads as Senator Voorhees of Indiana, who during the rebellion devoted all their energies to putting obstacles in the way of the government.

So well did the Kansas Senator do his work that Mr. Voorhees completely disgraced himself in the eyes of all respectable people by using language unbecoming to a gentleman, such as liar, scoundrel, dirty dog, etc. Truth very often hurts, but Senator Ingalls has the courage to tell it when occasion demands it, no matter who it hurts thereby.

F. E. Nash, general superintendent of the railway mail service has tendered his resignation, to take effect upon the appointment of his successor. He was one of Mr. Vial's appointments.

A delegation representing the maimed soldier's league was before the House committee on pensions Friday to urge the early consideration of the bills making an increase in the pensions now paid to persons who lost an eye or leg in the service. Another delegation favored the pending pension bill.

The Senate committee on labor have made a favorable report on the House bill to prohibit the employment of alien labor on public works.

The silver men in Congress are complaining bitterly against the unjust manner in which the administration is treating their interests.

Senator Stewart of Nevada, has introduced a bill in the Senate which requires the secretary of the Treasury to purchase and coin not less than \$40,000,000 worth of silver bullion every month. The Senator stated this bill involved no new question, but was only intended to compel the administration to carry out laws already upon our statute books, which have been openly disregarded by the secretary of the Treasury, until the currency of the country had become contracted to such an extent that it was seriously felt in all branches of trade and industry. Eng and was reaping the benefit of the present un-American financial policy of this government, and he hoped sometime to see an American, who would put the interests of his own country at the head of all those directing the affairs of the United States.

The House was the scene of a disgraceful squabble on Saturday last. Mr. Woodburn had just finished his tariff speech in which he taxed the democrats with being members of the Cobden Club, and stated that the resolution introduced in the interest of American citizens confined in British jails had been suppressed by Mr. Hewitt in the forty eighth Congress, and that Mr. Hewitt had gone to the British Minister and apologized for the resolution.

When Mr. Woodburn concluded Mr. Bryce, of New York got up and said the statement was false.

This caused some excitement and brought a dozen republican members to their feet, and every one of them reaffirmed Mr. Woodburn's statement.

Mr. Linn, of Pa., the author of the resolution referred to, reasserted Mr. Woodburn's statement and asked that Messrs. Buman and Bryce utter a falsehood if he denied it. Then threatening manner, each giving the other the lie, while the chairman had difficulty in securing order.

Two such scenes as this week in our national legislature is entirely beyond all question. If the first had not occurred in the Senate in the case of Mr. Voorhees, the chances are that this would not have taken place in the House.

Our lower House of lawmakers is much too easily infected by the example of the upper for the latter to be careless regarding parliamentary rules.

Senator Stewart has introduced a bill to carry out the provisions of the Chinese treaty.

The nomination of Melville Weston Fuller, of Chicago as Chief Justice, has been very well received by the republicans, but as much can not be truthfully said of the democrats. Mr. Fuller was born and educated in Maine, but has been a resident of Chicago for about thirty years. He is in no sense a man of national reputation, but all that is known of him is good. It is said that both the republican Senators from Illinois

are heartily in favor of Mr. Fuller. He has not yet accepted but he will.

Two new pension bills were introduced last week, one by Mr. Edmunds in the Senate, to increase the pensions paid persons who contracted heart disease in the service, and one by Mr. Burrows in the House, to pension all persons who served 90 days or longer in the army or navy, at the rate of one cent per month for each day of actual service.

Representative McKinley, of Ohio, is understood to be at work on a tariff bill which will represent the views of the republicans. It will be offered as a substitute for the Mill's tariff bill.

FLAG PRESENTATION.

Linn County Complimented Election of Officers of the W. C. T. U.

One of the pleasing features of the harmonious and fully attended session of the W. C. T. U., which closed at Eugene Saturday, was the presentation of a flag to Linn county, as the banner county, of the state in the prohibitory amendment vote. The presentation speech was made by Rev. M. C. Wire of the Eugene M. E. Church, and responded to by Mrs. T. J. Wilson of Halsey. Mrs. Wilson's speech was loudly applauded and was replete with eloquent truths. We quote a few: It was my fortune last fall to be present at the national convention in Nashville, Tenn., when the beautiful banners were presented to the states who had made the largest per cent, in increase of membership during the year, and as the ladies were called forward almost without a moment's warning to present and receive the beautiful gifts in the presence of an immense audience, I blessed my lucky star that Oregon would receive no such recognition, and last summer and fall we so earnestly longed for the success of the amendment that we honestly hoped some other county would receive this beautiful gift. But since it has fallen to us, it is with pride and pleasure I received it from you in the name of dear old Linn. When the men and women of Oregon have the Christ spirit they will organize and pray and sing and talk; they will stand for an honor and privilege to stand for prohibition, and since prohibition would not have this beautiful gift and last year we got it, and since by the skin of our teeth we got ahead of Crook, I accept this flag from the Woman's Christian Temperance Union in behalf of our county, with an honest pride in the manhood of old Linn, who polled so good a vote last November, and in their name I pledge you a better vote next time. And while the demoralization of defeat is hardly overcome, it takes no prophetic sword of vision to see in the not distant future such an arousing of the conscience and righteous wrath of Oregon's manhood against the law-defying traffic that men who last fall were so poor shall go down in their pockets for more than a nickel; the conservation of much of the womanhood of our state will be well made up in their fervor; politicians will make haste to show their colors, or, mayhap, it will be a white ribbon; and, altogether, such a current of sentiment shall be set in motion all over our own state that even Multnomah's editorial sanctimonies shall hear the rush and feel the swell, and God's banner over us shall be the closing up work of the convention, which was pleasing and successful throughout its entire session, was the election of officers: Mr. A. R. Riggs was again elected president without one dissenting voice; Mrs. Henrietta Brown, corresponding secretary; Mrs. A. R. Robb, recording secretary; Miss Elizabeth E. Irvine, treasurer.

A full corps of superintendents were nominated and elected. It will be seen that Albany secures full recognition in the corps of officers.

A Series of Accidents.

The Pendleton East Oregonian says: Mrs. Major Brockenbrough and daughter left Pendleton last Saturday for Washington via the Northern Pacific railroad. Major Brockenbrough received a letter from his wife stating that owing to a freight train's smash up her train was detained at Heron Siding, and possibly would remain there twenty-four hours. The next day another letter came stating that the train had succeeded in getting around the wreck within twelve hours, but another more serious accident has just happened on this side of Bozeman, Montana. A freight train collided with their train on Monday morning early, throwing the passengers from their berths and injuring some of them severely. Mrs. Brockenbrough writes that she received a painful and severe cut on the forehead, about an inch and a half long and to the bone, though it was not serious. Some of the passengers were worse injured. The little daughter escaped without any injuries at all. The Major is in receipt of another letter from Mrs. Brockenbrough saying still another accident had happened. A land slide had just occurred a head of their train, which would detain them some time. Here is a series of accidents that seldom happens to one train. It is hoped that the rest of Mrs. Brockenbrough's trip will be serene.

Cold Prize shirt.

GENERAL NEWS.

Scenes of Terror Occasioned by a Great Oil Fire.

MORE RAVAGES OF THE FLOOD.

Many Passengers Killed and Wounded in a Railway Horror on the Santa Fe Road—The Day in Congress.

The Herald's Special Dispatches.]

Out City, Pa., May 14.—A disastrous oil fire, which has been raging during the past twelve hours, is now believed to be under control. The great overflow, which has been watched so much terror, occurred shortly before 2 o'clock this morning. The tank vomited forth its flames and contents, and huge islands of burning oil, some of them one hundred feet in diameter, flowed down the creek. Booms proved useless, and the firm mass of fire swept on, burning several dwellings, the Western New York and Pennsylvania railroad bridge and a large barrel factory. The loss is estimated at \$250,000. Very little sleep was had in the city last night, as it was feared the whole town would be destroyed. The fire has burned itself out and all danger is passed. The first reports were greatly exaggerated and the loss will not exceed \$100,000.

THE GREAT FLOOD.

It Increases in Fury and Threatens Millions of Property.

St. Louis, May 14.—The river is steadily rising here and the inhabitants on the American bottoms are moving all of their portable property back to high lands. Reports from the north are alarming, and if Say leave on Madison lake breaks loose the damage will be in the millions. A regular exodus has taken place from Say bottom. The entire town of Alexandria, Missouri, is inundated with five feet of water, and the damage is very heavy. People are being taken as far as possible to the high lands, a couple of miles back of the town. Say leave is now being patrolled for miles by sentries, whose duty it is to summon assistance when any weak spot is observed.

DISASTROUS COLLISION.

Two Trains Dash Into Each Other and Kill Many Passengers.

Denver, Col., May 14.—News reached here this morning that the thunderbolt train of the Santa Fe railroad collided with a freight train near Fountain at 6 o'clock this morning. A car of powder on the freight train exploded, completely wrecking both trains and instantly killing ten persons and wounding many more. No particulars yet.

THE DAY IN CONGRESS.

No Action Taken on the Nomination of the New Chief Justice.

WASHINGTON, May 14.—The senate committee on judiciary did nothing today on the nomination of Melville W. Fuller except to postpone action upon it until next Monday. The report that it was last week referred to the subcommittee was premature. The method of reference was made last Monday by Senator Ingalls, but desultory discussion followed, during which the hour for the assembling of the senate arrived, and the committee adjourned without action, some members of the committee being under the impression that it had been referred to the subcommittee.

Supreme Court Decision.

WASHINGTON, May 14.—The supreme court to-day denied the application for rehearing the telephone case. This application is made by the People's and Overland telephone companies, who claim that Drawbaugh, and not Bell, was the first inventor of the telephone.

Notable Dead.

LONDON, May 14.—Admiral Sir Wm. Hewitt, commander of the ocean fleet, died at Portsmouth last night, aged fifty-four.

Patents Granted.

The following patents have been granted to citizens of the Pacific States during the past week, and reported for the Herald by C. A. Snow & Co. patent lawyers, Washington, D. C.: J. E. Bingham, Walla Walla, W. T. horse shoe; G. A. Cavalli, San Francisco, shoe nail; G. Cumming, San Francisco, pipe rivet; M. C. Harris, San Jose, printer's rule case; W. J. Howard, Mariposa, traces; J. Randall, San Francisco, fire kindler; M. J. Whelan, Sacramento, street and station indicator.

Oregon Bred Trotters.

Bornicks spirit of the times of San Francisco says: In the last year or two the breeders of fine horses in Oregon, have come to the conclusion that there is money in breeding the right sort. The State is peculiarly adapted to stock breeding of all sorts, and the sale of Jane L. for \$6,000, Mollie Bawn \$1,500, and Decoration Day, \$1,400 made by Mr. L. B. Lindsey during the past few months, has done much to attract attention towards Oregon as a trotting horse State. And these sales have also done much to stimulate breeders here.
