NOTICES ABOUT TOWN.

Ice cream at the city restaurant today. W. E. Yates, mayor of Independence, is in the city.

Boys go to F. M. Frye's and get a gold-headed cane. Very cheap.

Holman's electric light works in Salem, it is understood, will at once be re-established.

The ladies society of the Presbyterian church will meet this afternoon with Mrs. J. L. Cowan.

Your school tax is now due and unless paid very soon will become delinquent. Pay the same before costs of collection are added.

Examine the list of men who carry accident policies in the Travelers and you will find they are for-seeing, careful men. C. B. Winn, agent.

Curran & Monteith sold yesterday to August Pegencamp, 100 acres of land in Benton county, belonging to Louis Kerchoff of Astoria; consideration, \$1200.

The Ladies Aid Society have decided to adjourn for their summer vacation, so there will be no meeting next month. Due notice will be given for the next meeting.

A. Senders has started 31 head of horses to Albany. He is vet-in the horse business, and will buy well-broken horses weighing from 1650 to 2000 pounds. He will only remain here until about the 23rd.—Ochoco Review.

Frank Fosfinder was arrested yesterday on a charge of being drunk and disorderly and was lodged in the city jail. He had been put out of Burkhardt's printing office and the Russ House for abusive language while drunk.

\$75,000 FIRE AT SALEM.

Yesterday morning a little before 1 o'clock the night workmen employed at Thomas Holman's electric light plant and agricultural works in Salem discovered a fire in the dry house in the rear of the building. He instantly gave the alarm, and a fire department quickly responded. Water was obtained from the mill race directed at the flames.

The fire, however, soon penetrated the main building, and, notwithstanding the strong endeavors of the firemen, entirely gutted it. The building and contents are a complete ruin. The loss, as near as can be ascertained, will probably reach \$75,000, divided as follows: Buildings, \$25,000; city electric light plant, \$15,000; machinery and material of fanning mill and grain cleaners, \$8000; stock, etc., \$8000. This all belonged to Thos. Holman. The cash and door factory of Churchill & Cook, located in the building, is also a complete loss, probably \$20,000. Insurance on Holman's property, \$2000. It is not known whether or not there was any insurance on the cash and door factory.

The Santiam.

Mention was made a few days ago that the Gama Mining and Milling company of Portland, had recently been incorporated to work the silver lead mines of this district, which, under the company's energetic management, are showing up in excellent form. The company, among other things, have lately cut a good bridge over the mines at a cost of \$1000, and on its completion Mr. McLean, Jr., accompanied by Mr. Legh Harnett, leave town in a few days to give the mines under the control of the company a thorough and critical examination. The mines in question, character not being understood and appreciated, were subsequently abandoned, and have only recently fallen into the possession of the present company. As the district contains the white Sulphur mine, on which over \$300,000 has been spent and large returns received, and other goldmines, Harnett anticipates a pleasant and profitable trip. The Santiam mines assume importance from being the nearest to Portland, only about 120 miles distant, and it is three the merits of the district were fully and officially brought before the people of Portland.—Oregonian.

THE RAILROAD COMMISSION.

The Regular Monthly Session—Letters Being Sent Out—Annual Statements.

The railroad commission met at the state capitol Wednesday and transacted its regular monthly business. The following circular letter was drawn up, and will be sent out over the state.

Mr. Sir—You are requested to furnish the board of railroad commissioners for the state of Oregon with any reliable information as to whether the railroad companies in your vicinity furnish facilities sufficient to transport grain and other products to market within a reasonable time, and without unnecessary or damaging delays. Also, if there is any discrimination within your knowledge made between shippers by under-weighing or underbilling of freight, or otherwise discriminating by any other methods.

Clerk Bell is now engaged in sending out to the different railroad companies in Oregon the blank statements of the companies' business, which must be furnished the commission each year before September 1st.

There are also being sent to the different railroad companies of the state letters asking for a "descriptive statement of freight" carried by the company so that the commission can make a full and complete report to the legislature at the next session.

Clerk Bell will in a few days go to Portland and make the rounds of the railroad offices, and obtain from them a statement of the casualties that have occurred on the respective lines during the fifteen months beginning April 1st, 1887, and ending June 30, 1888. This is the time during which the commission has had supervision of the railroad affairs of Oregon.

The commission will have a good deal of business during the next few months.

Work For the Boys.

Indications now are that our boys, if they go to Seattle, will have to do some fast stepping if they expect to bring back any laurels. It was expected that only teams from Oregon and Washington would take part in the tournament but C. W. Watts received word last evening that the crack team from Vancouver, New Westminster, Nanaimo and Vancouver, B. C. would also be there and endeavor to win their share of the laurels.

Half a Crop In Ochoco.

The Ochoco Review says: The first rain of any consequence that has fallen in this section since February 6th was Wednesday, and several showers have visited us since. Prior to these rains, prospects for this country looked most gloomy, as grass and grain were suffering for moisture and there was little hope of any feed being raised, but since these rains, at least a half crop is insured and farmers and stockmen feel that the county is saved.

PICNIC AT TANGENT.

The Rain Falls to Dampen the Ardor of the Large Attendance of People.

Yesterday, the appointed time for the grand picnic, at Bievius' bridge, under the auspices of the Tangent grange, though very damp from the rain of the previous day, and lowering in appearance, witnessed a goodly attendance of people bent on having a day of pleasure and recreation.

The exercises were enlivened by excellent music, furnished by Tangent Brass Band, J. H. Scott, master of Tangent grange, presided and announced the opening of the meeting by prayer by Rev. McFarland.

Mr. John Simpson, lecturer of the state grange, was introduced, and spoke in a fluent manner, giving the work of the grange, its influence for good, and its availability for bettering the condition of the husbandman.

Mr. David Brewer, a totally blind man, sang in a beautiful manner a religious song, which was listened to with the closest attention.

H. E. Hayes, master of the state state grange, was introduced, and spoke at length upon the historical part of the Patrons of Husbandry, showing its rise and progress. He showed that the principles of the grange intended to forward the true interests of the entire community, without regard to class or occupation; that the prosperity of all classes depends entirely upon the prosperity of the tillers of the soil.

The influence of the grange in directing legislation had already been of great benefit, in the regulation of railroad fares, in directing legislation that reduces the burden of taxation to producers, in pointing to congress that has caused the reduction of postage on seeds, books, etc., in passing through the mails. While still speaking, a heavy rain came on, and in consequence an intermission was taken, and dinner served in the usual picnic provision, seasoned with an occasional raindrop.

Afterwards a song by a special choir was rendered and Mr. Hayes finished his discussion, bringing many additional strong points in favor of the workings of the grange.

Hon. K. A. Irvine was introduced and gave the workings and influence of Linn County Business Council, as a factor in the grange, showing the history of the mortgage tax and other laws and measures that had directly originated in the council. He was listened to attentively and fully sustained his subject.

The prospect of more rain induced a retreat of your correspondent, but a large number of people were met on their way to the grounds, and undoubtedly other speakers addressed the audience during afternoon, for there seemed to be no disposition to leave even if the gentle rain did continue to descend.

THE SALEM FIRE.

Additional Particulars of the Conflagration—Three Men Arrested for Murder.

SPECIAL TO THE HERALD. SALEM, JUNE 7.—The fire department did not leave the scene of this morning's fire till about 4 o'clock. The fire was one of the hottest and most serious ever known in Salem. At one time adjoining residences were in great danger, and it was only by dint of hard effort that they were saved. The night was fortunately wet or other buildings must surely have caught and burned.

The loss is a most serious one, not only to the owners but to the public at large. The building was known as the old agricultural works and was erected 18 years ago by A. Myers at a cost of \$80,000. He started in it a large manufactory of agricultural implements, but breaking up the property passed into other hands. It has been involved in endless litigation and was finally bought by Mr. Holman a few years ago at a greatly reduced figure. It is likely that he will rebuild, though being almost wrecked financially, he cannot state positively. The loss is \$75,000, as telegraphed this morning. The city's streets are now in darkness and business houses are lighted by oil.

THE ROCK CREEK AFFAIR.

Tuesday a warrant was served out before Justice Lyons of Fox Valley in Linn county, charging Mart Smith, his brother and another man whose name could not be ascertained, with the attempted murder of Chas. Thomas, two weeks since. They are now in custody, and will probably be examined on Saturday. District Attorney Bell has been sent for and will go up to Fox Valley to-morrow. The Smiths are nephews of the Thomases and are supposed to be leaders of the vigilante committee sworn to exterminate them or make them leave the country.

Annual M. E. C. Conference.

Rev. H. P. Webb, pastor of the M. E. church in this city, states that the annual conference of the M. E. church will be held at Eugene City on August 30. Bishop W. X. Ninde, of Topeka, Kansas, will preside. At the session of the general conference just closed in New York, Mr. Webb states, the following new bishops were re-elected: John H. Vincent, J. N. Fitzgerald, I. W. Joyce, J. P. Newman, and D. A. Goodsell; also J. M. Thornburn missionary bishop of India. The Puget Sound conference will be held at Seattle Sept. 6, the Columbia River conference at Moscow, Idaho, Sept. 23 and the Idaho conference at Hailey on Sept. 27.

THE OFFICIAL COUNT.

Blackburn Elected by Three Majority—A Surprise on Surveyor.

The official canvass of the vote of Linn county was made last night, and was completed a little before midnight, and the complete vote is published elsewhere. It showed an error in the vote of Santiam precinct on county judge of six votes in favor of D. K. N. Blackburn, which gives the election to the latter by three majority.

On the vote for surveyor a queer situation was discovered. The clerks of Santiam and Franklin Butte precincts neglected to record the vote for O'Conner and the returns were sent in with that vote blank. This gives Fisher a majority of 145. It is quite certain that O'Conner received enough votes to elect him by a majority of over 50, but the board could not go behind the returns, and the vote will stand with a majority of 145 in favor of Fisher, unless a contest is made on the election.

Oregon's Population.

Year by year there is a steady and heavy gain in the population of the state. This is apparent in the vote cast at successive general elections. In June 1886, the total vote was 52,654. It will now exceed 60,000. Multnomah county alone increases her vote about 1500 in two years. It is apparent that throughout the state the increasing vote is proportionately republican. In 1880 the total vote of Oregon was 40,816. The census of that year made the population 114,768. The ratio would indicate a present population of 204,000 (nearly the number of samples in proportion of votes) and steadily increasing, and adds the population of Oregon may now be 275,000.

We are just in receipt of the best line of corsets ever brought to Albany, and cannot wear them away a fine piece of instrumental or vocal music with each corset while they last. Something new.
