SOUND PRINCIPLES. The republican platform adopted at Chicago enunciates more sound principles of government than any public document which has been paragraph for the convenience of readers: "We are uncompromby the president and his party. They serve the interests of Europe. America. We accept the issue and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general disaster to all interests except those of the usurer and the sheriff. We denounce the Mills bill as destructously to any part of the city. The argument is already being pressed that the St. Louis platform does not mean free trade, nothing like free trade, but merely such an adjustment of present duties as Notice is HEREBY GIVEN THAT THE shall be just sufficient to carry on the government economically administered, and generally to that is added, "anything beyond this is robbery, for it is a tax upon the many for the benefit of the few." We do not believe either statement because, first, the platform in- Albany, June 29, 1888, dorses the president's last winter's message and the Mills bill. Later, a careful analysis of that message latter place will be given, and such an analysis will show exactly what it means.

This was a close following of the English rule; it meant the beginning of free trade, the placing of American laborers on a level with peons, or the driving them into other employments.
