GENERAL NEWS.

Chicago Anarchists Make a Full Confession.

SMUGGLER'S SENSATIONAL ESCAPE

Fallen Carriage a Four Hour Speech—Fatal Theater Fire—Edison's Phonograph Sale—Other News.

HERALD Special Dispatches.
Chicago, July 19.—Frank Chebowa, one of the three anarchists, arrested by Inspector Bonfield for conspiracy, made a full and formal confession last night. The confession was to the effect, that Kronck had unfolded to Chebowa, plans for revenge on the death of Spies and the other haymarket defendants, and had told of a boom, that he, Kronck, had invented. It was no larger than a baseball and was to be loaded with dynamite and broken glass. It was denied by Chebowa that there was a plot to murder the judges and inspector, that is, he had heard of no such demit scheme. They were talked of, as was Capt. Schaack, and he understood that he was to pay more attention to the captain than to any one else. There was no arranged plan of action, but it was agreed that when all the preparations were made, he and two others were to be informed by Kronck just what they were about to do. About July 1st, he was visited by Kronck, who brought him two bombs of broken glass, and two sticks of dynamite, from which he was to make bombs of gas pipe after the usual pattern. The other two men, were also supplied with the stuff and dynamite. He had the bomb in his house for about a week, and then he got so afraid that it would be discovered that he threw it in the privy vault. This was the substance of his confession, which Inspector Bonfield will use in court. The confession is much more in detail, and covers about thirty closely printed pages. By his confession, it is understood that Chebowa has virtually secured immunity from prison. He is in reality much less guilty than either Hoff, Kronck, Chepak, or one of the men not yet arrested. He has agreed to give his testimony in open court, where it will be corroborated by the other evidence secured by the inspector against the conspirators. Two other men are still at large, but may be arrested at any time.

OPHUM SMUGGLERS.

Principal Witness Escapes Instead of Turning State's Evidence.

PORT HURO, (Mich.), July 19.—A sensational incident occurred last night. Following the examination of Fred and Charles Saunders, who were arrested on June 9th for smuggling opium, Charles Label, of Indianapolis, was brought here to testify in the case. It was understood that he had turned state's evidence and testified to several piano boxes of opium that had been shipped to him at Fort Wayne and Indianapolis and re-shipped by him to San Francisco. The Saunders brothers were held for trial and their bail was fixed at \$500. District Attorney Black and Deputy United States Marshal Hein left for Detroit on the evening train with Label. They had him handcuffed and intended to hold him until trial. When the train was four miles west of this city Label jumped up, ran to the door of the coach and made his escape. The train was stopped, but too late to be of any service, as there was a buggy standing near by into which he jumped and drove away at a rapid speed. He drove direct to Saunders, three miles below here on the bank of the St. Clair river, where a boat was waiting for him. He is now in Canada and out of reach of the United States authorities. He was the only witness against the Saunders brothers, and it will be a hard matter to convict them.

FATAL FIRE IN A THEATRE.

Two Men Burned and Several Others Injured.

ST. LOUIS, July 19.—A peculiar accident occurred at the standard theatre last night, resulting in the probably fatal burning of Ed. Hill and M. Dwyer, aged 19 and 21 years respectively, and the severe injury of several other attaches of the theatre. The men were engaged in fumigating the theatre with sulphuric acid, which Hill and Dwyer were pouring from stone jugs. Both jugs exploded at once, scattering the acid in every direction, saturating the clothing of both young men and bespattering those standing near. Hill and Dwyer were nearly crazed with pain and ran through the streets followed by a crowd until caught by a policeman and taken to the city dispensary, where their wounds were dressed. In their flight they had torn almost all their burning clothing off and reached the dispensary nearly nude. The other wounded men were able to go to the dispensary without assistance, but they are severely injured.

Species vs. Continuation

WASHINGTON, July 19.—The nomination of Matthew W. Fuller to be chief justice of the supreme court of the United States was

taken up by the senate this afternoon in secret session. Senator Edmunds was given the floor and began a speech which it was understood would occupy about two hours.

A DEAR WHISTLE.

Edison's Phonograph Brings a Million.

NEW YORK, July 19.—The reported sale of Edison's phonograph has been confirmed, but the statement that it had been sold to an English syndicate was an error. The Edison Phonograph Co., which owns all of Edison's patents for recording, perpetuating and reproducing articulate speech, in the United States and Canada, has been sold to Jesse H. Lippincott, of this city and Pittsburgh, for about \$1,000,000. The purchase includes all the improvements to the phonograph that will be made by Edison during the next 15 years. Lippincott has also acquired a license to run for fifteen years the graphophone, the invention of Messrs. Painter & Bell, of Washington. The inventors retain all of their foreign rights.

Toll the Bells.

DUBLIN, July 19.—The work of the bailiffs engaged in making the evictions at Killrush, county Clare, is being obstructed by the population who have cut all the bridges between Killrush and Killee, and taken other measures to delay the progress of eviction. The chapel bells are tolling to warn the people of the approach of the officers. The same plan of campaign has been adopted by the tenants on the Murphy estates at Tralee, county Kerry.

A Royal Salute.

CROSTADT, July 19.—This afternoon the imperial yacht Hohenzollern, Wilhelmio William on board, entered the roads here amid volleys of salutes from warships and forts. The Hohenzollern was received by the Russian imperial yacht, Djerava, on board of which was the czar.

The Pope Will Not Leave Rome.

ROME, July 19.—The pope in a conversation stated that he did not intend to leave Rome. He expressed regret that his last note to the Irish clergy in regard to political situations should have been misinterpreted.

Appropriation Bill.

WASHINGTON, July 19.—The president has approved of the agricultural district of Columbia appropriation bill.

MUSIC AS THE FUTURE CHURCH.

ITS POWER TO CARRY HUMAN EMOTION TOWARD THE INFINITE.

Lippincott's Magazine.
It has been shown that we can only think toward the infinite; it may be that our love can reach nearer its objects. As a philosopher truth, music does carry our emotion toward the infinite. No man will doubt this who reflects for a moment on the rise of music in the church.

I remember when the most flourishing church of our town regarded with intense horror a proposition to buy an organ, considering it an insidious project of the devil to undermine religion. The same church has now the largest organ in the city, with a paid organist and choir. Scarcely any person who has lived in the smaller towns of the United States but will recall similar instances. At present the organ, the song, are in all the growing churches. What would be Mr. Moody without Mr. Sankey, or Mr. Whittle without Mr. Bliss?

And not only does music win its way into the church, but it gradually takes on more and more importance in the service of worship. How many are there in these days to whom the finest preaching comes from the organ loft! Greater and greater every year grow the multitudes of those who declare that no sermons, no words, no forms of any sort, avail to carry them in the way toward the desired sacred goal as do the tones of Palestrina, of Bach, of Beethoven, when these are given forth by any organist of even moderate accomplishment. Everywhere one finds increasing the number of fervent souls who fare easily by this road to the Lord. From the negro swaying to and fro with the weird rhythms of "Swing Low, Sweet Chariot," from the Georgia Cracker yelling the "Old Ship of Zion" to the heavensthrump of the logs of the pine-woods church, to the intense devotee rapt away into the infinite upon a mass of Palestrina, there comes one testimony to the substantial efficacy of music in this matter of helping the emotion of men across the immensity of the known into the boundery of the unknown. Nay, there are those who go further than this; there are those who declare that music is to be the Church of the future, wherein all creeds will unite like the tones in a chord.

Words cannot express the gratitude which people feel for the benefit done them by the use of Ayer's Sarsaparilla. Long-standing cases of rheumatism yield to this remedy, when all others fail to give relief. This medicine thoroughly expels the poison from the blood.

The price of wheat remains unchanged at 59 to 62 cents.

NATURE'S FONT.

Children Baptized Under Yosemite Falls.

San Francisco Chronicle.
The saying of the royal sage that "there's nothing new under the sun" received a setback in the Yosemite valley on July 4th, when a novel scene was witnessed by a party of Californians beneath the Bridal Veil falls. This was the baptism of three children in the fleecy spray of the famous falls, and surrounded on all sides by nature's grandest handwork. The time honored custom of baptizing infants in church or in the family circle has been for ages past respected by our sires, but like all earthly things, if the Yosemite incident is modeled after by romantic minds, the old custom will undergo material change.

The occasion referred to was the baptism of Leland Stanford Barton, the youngest son of Robert Barton of the famous Fresno vineyard. Mr. Barton has been a constant visitor to the valley, and his proud wish was to have his child baptized under the Bridal Veil falls on the boy's birthday, July 4th. Some time ago he completed arrangements for that event, and secured the promise of Rev. B. C. Foute, rector of Grace Church of this city, to perform the ceremony as desired. Shortly before the appointed hour, 5 P. M., a party of twenty-five all friends of the family, left the Stockman House for the falls. Arriving at the bridge the party dismounted and began their laborious ascent to the foot of the falls. This was accomplished in thirty minutes, and after a brief rest preparations for the solemn service were made. The spot chosen as the most suitable for the service was a lovely turf-covered rock which juts out over the stream at an elevation of 400 feet above the valley. The rock was immediately under the falls, and upon a raised portion of it the minister took his stand, the other members of the party forming a semicircle in front.

The scene was one of beauty and power—one long to be remembered by all who witnessed it. The minister robed in his surplice of spotless white; the reverent spectators with bare heads and hushed lips; the last rays of the setting sun flooding the lovely picture with golden brilliancy, like a halo of celestial glory; the delicate lace-like sheets of spray swaying in the gentle evening breeze—all combined to form a scene of wondrous beauty. The baptismal service conducted with the most impressive solemnity was beautiful, and as the familiar words of the baptismal office were spoken, and the solemn invocation, "Sanctify this water to the mystical washing away of sin," was expressed, a brilliant rainbow, harbinger of peace, encircled the little group. After this service had been completed the two children of Mrs. Wright, daughter of Manager Cook of the Coleman House, were baptized in turn, and when the benediction had been pronounced the sun had disappeared behind a mountain top.

A photograph of the scene was taken by a gentleman who accompanied the party, and the rock was by unanimous consent named "The Sanctuary." By a singular coincidence it is located almost directly beneath the "cathedral spires," which is above the falls on the opposite side.

The question asked by one of the spectators is unanswerable save in the negative: "Was there ever a baptismal font like the falls of the Bridal Veil, or an imposing temple like the giant walls of the Yosemite?"

Great English Remedy.

Murray's Specific
