INDIGNATION AT SCIO.

The Narrow Gauge Switch Building Stopped and Receiver Not Hung in Effigy. SCIO, August 10, 1888. TO THE EDITOR OF THE HERALD: The citizens of Scio thought that they would have a railroad in the near future, but alas for poor humanity when they depend on a narrow gauge, especially when managed by a receiver. Our citizens had agreed to furnish the right of way, do the grading and trestle work, also furnish the ties for a switch to run from or near the old warehouse to the scio flouring mills, if the N. G. would place the ties furnished and lay the iron and operate the road, which was agreed to on the part of the road. We started in the work of grading Tuesday, the 7th inst, the contract having been let to A. Brink. On the 9th inst, Mr. C. N. Scott, receiver of the N. G., sent a telegram stating that if Mr. Edward Goins did not take the West scio warehouse that he would have nothing to do with the switch. Then a reaction took place and our people were as eager to fill up the grade as they had been to have the switch. Last evening we had a citizens' meeting, and a unanimous one it was on one proposition, and that was that N. G. might mean narrow gauge and it might mean no good or most anything else. Quite a number of our business men thought that they could dispense with the N. G. as a common carrier and never patronize the C. N. Scott road unless an absolute necessity. Then the boys took the matter up and Mr. C. N. Scott was hung in effigy. OREGON PACIFIC NOTES. Work will commence on the road Monday. Orders have been given for the iron and material for bridges and gangs of bridge carpenters are now proceeding to the front and going to work. Jim Westfall, the well-known Chinese contractor, of Albany, passed down the road yesterday to Portland to secure two hundred Chinamen to work on the line of the Oregon Pacific. There is a demand for hewers, tie makers, etc., now on the Oregon Pacific. All practical workmen can find employment on application. The force at the Oregon Pacific machine shops at Yaquina have been largely increased and are busily engaged in getting out material to be used in the extension of the road. The steamer Willamette Valley, due at Yaquina this week, will bring up a full cargo of steel rails and other material for the Oregon Pacific to be taken to the front immediately. Two large saw mills are to be built immediately at points on the Santiam, along the line of the Oregon Pacific, to furnish ties, bridge timbers, etc., to be used in the construction of the road. Accidental Shooting. Last Tuesday afternoon a party of Corvallis nimrods went out to John Smith's place to kill some grouse. Among them was Mr. Peter Beason, of Omaha, who had heard a great deal of our grouse shooting, but had never seen a bird of that species. Immediately after getting out of the buggy Mr. Beason crossed the branch to the east of the house and seeing a band of pullets he thought they were the birds he was after, he fired and killed eight. Mrs. Smith was justly indignant, and had it not been for the timely arrival of friends and the pleading of Nick, Mr. Beason never would have lived to tell his experience about grouse hunting.—Benton Leader. Seriously Injured. On Tuesday afternoon Richard Irvine, Sr., was coming down the hill just this side of Gleason's saw mills, about sixteen miles southwest of Corvallis, when his team ran away and turned the wagon and its load of 1000 feet of lumber over onto him. He was taken out from underneath the lumber by the hired man, and it was found that he had received several severe wounds. He was badly out about the head and face, his right leg was cut clear off, and he was seriously injured in the chest. Mr. Irvine is about 75 years of age and his recovery is doubtful.—Gazette. Sent to the Asylum. On last Friday Mrs. Nellie Holmes, daughter of the late J. T. Wolfe, was examined before Judge Holgate, and upon due proof of her insanity, she was committed to the asylum for the insane. Ill health and grief are the causes of the affliction. We trust that time and careful treatment will effect her cure. This is the same lady who was examined before the county court of Linn county and was pronounced not insane by the board of examining physicians. His Picture Printed. Governor Penoyer says that he may never be vice-president of the United States, or even a United States senator; but imperishable fame is his, all the same. An enterprising firm of cigarette manufacturers in the East has adopted the novel scheme of printing pictures of the rulers, potentates and great men of earth, upon the folders which come around the cigarettes, and Gov. Penoyer's picture is among them. An Absolute Cure. The Original Abolition Ointment is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands and all skin eruptions. Will positively cure all kinds of piles. Ask for the Original Abolition Ointment, Sold by Foslay & Mason at 25 cents per box—by mail 30 cents.

Mr. J. P. Galbraith, who has just returned from a trip to Brownsville, states that some misapprehension has grown out of the report that the Brownsville woolen mills are going to be removed from that place. They will not be moved away. They will simply be shut down for a time while the company make a second round up. There will probably be some change in the company, as Mr. Thos. Kay desires to withdraw and establish a four set mill in this city, and will do so if he receives the proper encouragement. But those remaining in the company, Mr. Galbraith thinks, will continue the mills at Brownsville. It is to be hoped that Mr. Kay will be successful in the undertaking of establishing the much desired mills in Albany. Look Here. You can get nice fresh boiling beef for 5 cents per pound at M.
