Have you a cold in the head which does not get better? Have you an excessive secretion of mucus in the nasal passages which either must be blown from the nose or drop back behind the palate, or passed out of the nostrils? Are you troubled by hoarseness, sore throat, weak and inflamed eyes, frequent sneezing of the throat, itching or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dizziness or heaviness of the head, nervousness or heat of face? Have you just all these symptoms? Have you a hacking cough? Have you dyspepsia? Is your breath foul? If so you need the CATARRH. Some have all these symptoms, others only a part. The leading symptom of ordinary catarrh is increased secretion of mucus of yellow or greenish color matter. Foul breath is caused by the decomposing secretions exhaled from festering sores far back in the throat, sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are inordinately difficult to cure, as they are corroding sores.

As every breath drawn into the lungs must pass over and leave a portion of the relief given in the nasal passages, it must necessarily pass over the CATARRH. The CATARRH gradually takes place, while the mucus matter that is exhaled from the throat passes into the stomach, causes indigestion, and often produces symptoms of dyspepsia, nervousness and constipation.

DO NOT PROCRASTINATE.

If you have experienced any of the above named symptoms, get CATARRH at once. We positively warrant each box application, relief and a thorough treatment to cure. Six months treatment for \$1.00 sent by mail.

PALACE MEAT MARKET
LONDON, Aug. 15.—A crisis is reported in Turkey due to the refusal of Sultan to sanction Grand Vizier's proposal to borrow £1,500,000 to pay the overdue wages of soldiers and sailors. It is rumored that the said Pasha minister of foreign affairs, will succeed Kiamil Pasha as Grand Vizier and Godban Pasha be sent to London on a secret mission.

American Party Convention.
WASHINGTON, Aug. 15.—At the second day's session of the national convention of the American party, temporary officers were made permanent. The committee on platform made a majority report. Both were received with great applause and finally recommended with instructions to report this afternoon.

Cigar Making Investigated.
NEW YORK, Aug. 15.—The committee investigating the evil of immigration to-day examined David Harris, president of the local cigar makers international union. He said American workmen have been almost driven out of business by foreign laborers. In 1864 good cigar makers could earn \$50 per week; now \$12 was a fair week's wages. Many manufacturers have imported all their own labor.

More Earthquakes.
WINTHROP, Aug. 15.—One of the most severe earthquakes ever felt in this vicinity occurred at 8:20 last evening, continuing thirty seconds. The earth shook violently, swinging buildings and rattling dishes and furniture. The sea and shock was felt about midnight. It was somewhat lighter and about the same duration.

GENERAL NEWS.

Yellow Fever Very Prevalent in Cuba.

DEATH ON A NEW YORK STEAMER

Fever Still Raging in Florida—Murder and Lynching in Arizona—Connecticut Republican State Ticket.

The Herald's Special Dispatches.
New York, Aug. 15.—Advices from St. Jago, Cuba, say there were twenty deaths from yellow fever in that city up to the 15th of July, largely among the military. New food was furnished for the disease by a lot of freshly arrived Spaniards and the weather being favorable for yellow fever. Reports from the interior say that many children and natives are dying of yellow fever at Santa Espirite. Twenty-four children were swept away in a single day.

DEATH ON A STEAMER.
The steamer City of Baltimore cleared from this port four days ago for Philadelphia. When six hours out the chief officer died of yellow fever. The steamer came back and reported his death from apoplexy. Dr. Caminero of the United States Marine Hospital, was lied to by the ship's owners, and obstructed in his duty by the agents.

MURDER IN ARIZONA.
Two Prominent Men Killed by Outlaws.
HOLBROOK (Arizona), Aug. 15.—Information has reached here of the murder of James Scott and Jeff Wilson by outlaws, in the southern part of the county. The affair grew out of the recent war in Tonto Basin, between the sheep and cattle ranchers. Warrants were issued and arrests made by interested persons, and the prisoners were taken across the mountains into Yavapai county, where they were met by a prepared mob of outlaws and hanged.

POST OFFICE ROBBERY.
A Million Dollars of Property Recovered in Chicago.
CHICAGO, Aug. 15.—The postoffice authorities having in charge a box robbery affair have completed a partial list of sheets, drafts, money orders, and other negotiable papers found in Oberkamp's rooms. So far it foots up over \$250,000. The inspector is satisfied that the aggregate value of the stolen documents recovered will be fully one million dollars.

Yellow Jack in Jacksonville.
JACKSONVILLE, Aug. 15.—An official bulletin to-day shows three new cases of yellow fever. No deaths, and twenty-three are under treatment. There have been twenty-eight cases here to date, and four deaths, one suspicious case and one death at Tampa. The weather is damp and sultry, excellent for the spread of the fever. The city is being put in a thorough sanitary condition.

Connecticut Republican Convention.
HARTFORD, Aug. 15.—The republican state convention elected John W. Hall permanent chairman. After speeches and preliminary routine Morgan F. Buckley was nominated for governor; Gen. S. E. Merin, for lieutenant governor and R. J. Walsh for secretary of state by acclamation; E. S. Henry was nominated for treasurer and John B. Wright for comptroller.

Turkish Affairs.
LONDON, Aug. 15.—A crisis is reported in Turkey due to the refusal of Sultan to sanction Grand Vizier's proposal to borrow £1,500,000 to pay the overdue wages of soldiers and sailors. It is rumored that the said Pasha minister of foreign affairs, will succeed Kiamil Pasha as Grand Vizier and Godban Pasha be sent to London on a secret mission.

WOMAN SUFFRAGE.

The Superior Court of W. T. Declares It Unconstitutional.

OLYMPIA, Aug. 14.—In the supreme court to-day a decision was rendered in the case of Nevada, M. Bloomer vs. John Todd and others, the suffrage test case. The court affirms the decision of Judge Nash declaring the woman suffrage act unconstitutional. As stated previously, to the plaintiff, a female citizen, was debarred from voting at an election held at Spokane Falls, April 3, of this year, and for this she asked damages in the sum of \$5000. The demurrer filed by defendants, the judges of election, alleges that the complaint discloses no state facts sufficient to constitute a cause of action. The district court sustained the demurrer, and judgment was entered thereon, from which judgment this appeal was taken.

The only question before the district court was as to the validity of the legislative act of January, 1888, conferring the privilege of voting upon women, and this was the only question in the case submitted to the supreme court. The question of this interpretation of chapter 51 of the laws of 1888 is dwelt upon largely by the court, which adopts as a rule that the construction and interpretation of laws arise after enactment.

If the interpretation given by the court to a certain law is unsatisfactory, it is in the power of the people to obviate the difficulty by an amendment thereto, or by changing the statute. It is for this purpose that constitutions are made—that there may be stability in the government which furnishes the fundamental law, and that the varying moods of public opinion, the clamor of the populace or even the public sentiment shall not effect the fundamental law of the land, and thus leave us without any stable and unchanging guide, when the public passions or the resentment of the populace might carry the state out upon a sea of revolution, with only passion or a guide.

Should the constitution and the laws change as rapidly as public opinion, they would both be liable to become oppressive and unendurable.

It is the duty of the court to construe rules, to give effect to the intent of the legislature, though a seeming violence is done to some of the words employed. The intent of congress in using the word "citizen" as found in the organic act, is considered by the court as pertaining wholly to persons of the masculine gender, the object being to exclude aliens from voting the elective franchise, and not extending any particular powers to women. It never was intended that women should be admitted as a delegate to the house of representatives in congress. The form of every word in the constitution of the United States goes to show that the offices provided for therein shall be males. The form of every word in that relation is masculine. For thirty years congress has understood the meaning of the word "citizen," as far as the privilege of voting was concerned, to mean males only.

Blaine for Portland.
AUGUSTA, (Maine), Aug. 15.—Blaine, accompanied by his son Walker and a large gathering of politicians, left here at 11 o'clock for Portland, where he will be tendered a reception this afternoon. The speakers besides Blaine will include Warner, Miller and Nelson Dingley.

CHARLES CROCKER DEAD.
Another Millionaire Railroad Man Succumbs to Death.
The telegraph brings the news of the death of Charles Crocker, president of the Southern Pacific railroad. The cause of his death is given in the following dispatch: SAN FRANCISCO, Aug. 14.—Chas. Crocker, whose death occurred at Monterey this afternoon, received internal injuries by being thrown from a carriage in New York two years ago, from which he never completely recovered, and a few months ago his condition became so bad he was forced to abandon his business entirely. Since the 1st of July he has been at Monterey suffering with an attack of diabetes. His condition did not improve, and during the last few days it was known he could not survive long. Mrs. Crocker is now on her way from New York, having started on receipt of the news of her husband's serious illness. Col. Fred Crocker and William Crocker were with their father at the time of his death. Deceased leaves one other son, George, who lives in Nevada, and a daughter, Mrs. Charles A. Alexander, who is now in Europe.

Charles Crocker came to California from the state of New York in 1849, and afterward became associated with Leland Stanford, C. P. Huntington and Mark Hopkins in the construction of the Central Pacific railroad. He was afterwards a leading spirit in the construction of the Southern Pacific, and at the time of his death was vice-president of the Southern Pacific company of Kentucky and president of the Southern Pacific railroad company. He was 69 years of age. His wealth is estimated at about \$20,000,000.

CUT AND DRIED REVOLUTIONS.

The Frequent Revolutions in Ecuador a Mere Matter of Routine.
American magazine.
Revolutions in Ecuador are frequent; they usually begin by an attempt to assassinate the President. The plan of procedure is usually for the discontented political faction to create a mutiny in the army, either by bribes to the officers or promises of promotion. As the private soldiers always obey their officers like so many automations, and are willing to fight on one side as the other, to secure the officers is to secure the army. The next step is to seize the barracks and arsenal, put the President to death, proclaim some one else provisional dictator, and then call a junta, or convention, to nominate a constitutional executive. Senor Caamano seems to bear a charmed life; as for three years, while he has been President, he has numerous remarkable escapes. The last attempt to assassinate him was in January, 1886, while he was going from Guayaquil to Quito. He was riding as a traveler usually do, by night, to escape the heat of the sun, when his small escort was attacked by a band of mountaineers and led, leaving the President to look out for himself. He jumped from his horse, ran into the forest which encloses the road, and creeping through the trees to the river, swam to the other side, and made his way thirty miles on foot to the hacienda of a friend, where he found refuge. For two days and nights he was in the forest without food, and when he finally reached a haven he was totally exhausted. For a week or ten days he lay ill with a fever, but couriers were sent to Guayaquil and Quito, and arriving before the reports of his assassination, assured the Government officials of his safety.

A Wonderful Working Stone.
Imagine a stone, in size containing about 500 cubic feet, in shape nearly as round as an orange, in weight not less than 80,000 pounds or forty tons, and so nicely balanced upon a table of rock that a child ten years of age by pushing against either the north or south side, can rock it back and forth; yet the strength of a hundred men, without levers or other appliances, would be insufficient to dislodge it from its position. Such is the celebrated rocking stone on the farm of Mr. J. McLaughlin, two miles south west of Monticello. This is one of the greatest natural curiosities in our whole country. What sculptor could chisel out a piece of marble of its size, and then pose it so nicely that it would vibrate under so light a touch? But its shape, size and position are not the most wonderful things about it. Its body is composed of a somewhat loose and soft sandstone in which are imbedded numberless round and flinty pebbles of diamond like hardness. In all the valley where it is situated it is the solitary specimen of its class. Around it under the rocks are of a totally different structure. The table on which it rests is a hard stone, nearly as firm and close-grained as the blue stone of our quarries. Whence came this wanderer and how?

Senator Corbett as a Farmer.
The News says: Hon. W. Corbett returned yesterday from a visit to his 600 acre farm on the Columbia river, where he has been rusticated since Friday last. This place is devoted principally to stock raising. The Senator feels proud over the fact that from five to six ton of hay per acre was cut from his meadows this year, and says the hay and grain crop this year is phenomenal.

One Way of Getting to the Circus.
The Star of Idaho says: We know of a man who wanted to take his wife to the circus and not having the money, he bought four dollars worth of groceries at one store and sold them to another for \$2 cash, thus getting the price of admittance. Its a cold day when a Moscow man gets left.
