NOTICES ABOUT TOWN.

Arthur Brandenburg, of Harrisburg, is in the city. Miss Amelia May, of Harrisburg, is visiting friends in this city.

Fresh sweet potatoes received every day at F. L. Kenton's. G. W. Brandenburg, of Harrisburg, was in the city yesterday.

Dr. W. F. Mendenhall and Dr. W. H. Davis, of Harrisburg, are in this city. J. G. Sanders and family and Dan McGlain, of Harrisburg, were in the city yesterday.

Joseph Sage, of Brownsville, was in the city yesterday on business matters. Geo. W. Smith's young daughter has been very sick for a few days, but is convalescing.

J. G. Reed and family and Joseph Nixon, of Lebanon, were in the city yesterday. The dinner given by the ladies of the W. C. T. U. yesterday, was well patronized.

Patronize home industry and try some of J. Joseph's Havana filled 5c. cigars, the first of his own manufacture. Mrs. Callahan's cow suddenly dropped dead in the streets Saturday evening, probably caused by being poisoned.

A special train over the O. P. railroad yesterday brought quite a number down to attend the circus from Stayton and Scio. The circus has come and gone and Linn county is several thousand dollars poorer, but everybody no doubt got their money's worth.

R. H. Longhead, representing the Sanborn Map Co., of San Francisco, is engaged in collecting data for making a new fire insurance map of this city. Levi West came down from the logging camp yesterday. He reports Wm. Deyoe and family and all others as enjoying a pleasant time. They have so far captured two deer and many trout.

Mr. Job C. Smith, of East Portland, celebrated his 63d birthday last Saturday by leaving his business long enough to take a run up to this city and spend Sunday with his son, Geo. W. Smith, our popular stove and tinware man. Near Ellensburg Saturday thirteen tramps attempted to board Conductor Mansfield's train. One of them drew a revolver on Mansfield, who took it away from him and struck him over the shoulder. The pistol went off, killing the tramp. The conductor, when the train arrived at Ellensburg, was placed under arrest.

A very pleasant party was given Saturday evening at the residence of Mr. Enoch Sloan, who about twenty firemen dropped in and surprised Burr Sloan by giving him a pleasant reminder of his 21st birthday. The evening was pleasantly spent, during which a most elegant repast was served, Mrs. Merrill and Mr. Johnson acting as managers of that department. After lunch Burr was presented with a gold headed cane as present from a number of the hose boys.

Severely Hurt. Dr. E. A. McAlister was more severely hurt in the recent accident on Elsworth street than was at first supposed. On Sunday he became much worse and Dr. Woodward and Dr. Ellis both attended him. It was found that a severe internal injury had been received, from which for some time his life was despaired of. His son in Portland and wife, who was visiting at Yaquina, were summoned by telegrams, and are now at his bedside. Yesterday he was somewhat improved, but his recovery will be slow.

Columbia Waterway Association. At the third annual session of the Columbia Waterway Association, held in Astoria on the 30th of August, 1887, it was on motion decided that the fourth annual session of the association should convene in Portland on the first Tuesday after the opening of the Mechanics Fair in that city in 1888. As the fair opens on Thursday, October 4th, the date of the meeting of this year's session of the association is set for Tuesday, October 9, 1888.—Astorian.

Deputy Master. A. B. Woodin of this city has received his commission from Grand Master Workman, E. N. Smith, as Deputy Grand Master of the A. O. U. W. for Linn county, and duties upon the discharge of his duty.

Fly nets at Thompson & Overman's.

ALBANY COLLEGE.

Some Facts Concerning the School Obtained from the Catalogue Just Issued.

The catalogue for the twenty-second year of the Albany Collegiate Institute has just been issued from the job printing office of Messrs. Burkhardt & Royce.

The Albany Collegiate Institute was founded by the presbytery of Oregon in the fall of 1866. Seven acres of land, within the limits of the city of Albany, were donated by Thomas Monteith and his wife; and steps were immediately taken for the erection of a building suitable for the work.

In the fall of 1867, the institution was formally opened under the presidency of Rev. William J. Monteith. A building had been completed at a cost of \$8000.

The faculty for the ensuing year is as follows: Rev. Elbert N. Condit, A. M., president, professor of mathematical, ethical and natural science; Wallace H. Lee, A. M., professor of greek and latin; Rev. J. B. Braun, A. M., professor of modern languages; Miss O. S. Pollock, professor of psychology, literature and elocution; Miss Mary A. Irvine, instructor of preparatory department. Tutors: Miss Dorena Marshall and Miss Linnie C. Ramsey.

The course of study extend through four academic years. It embraces philosophy, history, language, literature and science. Each study is pursued comprehensively and at the same time with sufficient minuteness to develop accuracy in mental operation, and prepare the student for the highest usefulness in life, by his own independent thought and action.

For various reasons, many students cannot pursue the full college course of instruction. To such an English course is offered as well adapted to a practical business life, or as a good preparation for the teacher's calling.

With permission of the faculty, a selected course may be pursued by students whose circumstances prevent them from completing a regular course.

Two literary societies, the Erodelphian (for ladies), and the A. C. L. S. (for gentlemen), offer advantages to students, in the drill of select speaking, essay writing, debate, criticism, extempore speaking, and the forms of parliamentary usage.

All those who have taste and talent for vocal music will have an opportunity for regular drill in the Albany college choral society. Prof. Wallace H. Lee has been elected musical director.

The moral and religious tone of the school is of a high order. A constant watchfulness on the part of the instructors seeks to promote manliness and a high sense of honor and truthfulness, and to inspire a genuine respect for all that is sacred. At the same time the youthful nature is shielded from cant and unnatural growth of religious life in this responsive period.

The school will open on Tuesday, September 11, 1888. The college numbers about 100 students and will open under favorable auspices for a prosperous school year.

OUR NEIGHBOR. The Lebanon Telegraph Line and Water Ditch.

We are informed that the contract has been let to the Rice Bros. for putting up the poles and wire for the telegraph line between this city and Lebanon. The work is to be completed within twenty days; so in a short time Albany and Lebanon can shake hands by telegraph, a condition that will be of business importance to both.

Favorable news has also been received in regard to the project of putting in a water ditch to supply hat city with water power.

The A. O. U. W. From the report of J. F. Brown, Grand Recorder of the A. O. U. W., it is learned that there was but one death in this jurisdiction during August. This was Mr. C. M. Chambers, of Victoria Lodge No. 19, Victoria, B. C., who died August 3, of bronchial phthisis. There is no assessment for this month. There is a balance of \$3215 70 in the treasury. In the eighty-nine lodges in the jurisdiction there are 4242 members. Of this number 4062 are in good standing, while 180 are suspended for non payment of dues, etc.

Back in Salem. Miss Laura Goltra returned to Salem yesterday from a visit to her parents in Albany, and is for the present the guest of Mrs. J. H. Strickler. Miss Goltra has about completed her arrangements for beginning instructions to her classes in piano, organ and harmony. Miss Goltra's qualifications as a teacher of music are well known, and she will doubtless have a large number of pupils.—Salem Statesman.

An Original Story. In the HERALD on Sunday, Sept. 24, and the HERALD-DISSEMINATOR for September 7th, we shall commence the publication of an original story, written by a talented Oregon lady, and continue it each week until it is completed. The story is interesting and will command the attention of all who delight in first-class romances.

Fell Down a Stairway. E. B. Davidson while attempting to go down the stairway of the G. A. R. hall early Sunday morning in some manner fell and rolled to the bottom of the stairs. A couple of ribs were fractured and other injuries received. Dr. Ellis was called and rendered medical attendance. His injuries will not prove serious.

Corner Stone Excursion. Grand Secretary Babcock is sending out notices of a special communication of the grand lodge A. F. & A. M., at Pendleton on the 2d day of September, to lay the corner stone of the new court house for Unatilla county.

A fine line of imported cigars is available at Brownell & Stanard's.

THE CIRCUS.

It is One of the Best Shows That Ever Visited Albany—Its Features.

The exhibition of Seils Bros. big circus yesterday was in a general way satisfactory, and was attended by a large concourse of people, both at the afternoon and evening performances.

At 10 a. m. everybody was out to see the parade, and the display was most brilliant.

The menagerie is one of unusual interest, its main feature being a monster pair of hippopotami. It is probably the most complete collection of rare animals ever brought to the coast.

The performance does not contain a dull act from the beginning to the end. The bareback riding, tumbling, trapeze and tight rope performance was daring and interesting. The wonderful shooting of Capt. Bozardus and sons is a display that is claimed for it, and their display of marksmanship was fine.

The Melrose family in their bicycle riding exhibited some astonishing feats, while the riding and driving of twenty-three horses by C. W. O'Dell was equally wonderful.

The aerial performance, the rollicking elephant clown, the hippodrome races and countless number of first-class acts combined to make a good show. The clowns consumed no time in stale jokes, being conspicuous by their quietness, and probably suited the audience better by not doing so.

The show is in the whole in every way a meritorious one. The management is gentlemanly and every effort is made to give the public their money's worth.

TRAIN DELAYED. The Long Bridge at Alta Destroyed by Fire.

The News says that train No. 15, which came north on Friday night, set fire to the curved bridge at Alta. This bridge is 500 feet long, and was totally destroyed. The Alta bridge was located midway between Grants Pass and Glendale.

The south bound train on Saturday discovered that the bridge had been burned, and it was 10 o'clock on Saturday night before the transfer of passengers was made. This accident delayed yesterday's O. & C. train nearly four hours. It will take some time to rebuild the bridge. In the meantime passengers, baggage and mail will have to be transferred, and this takes two or three hours, and this calyon at Alta is a deep one.

ANOTHER NEW STEAMSHIP. Col. T. E. Hogg Purchases It, but the Owners Change Their Minds.

A dispatch from New York to the Sunday Oregonian says: T. Egerston Hogg, president of the Oregon Pacific railroad, has entered into a contract with the Atlantic & Caribbean Steam Navigation Company of Wellington, Del., on Thursday to purchase for \$155,000 the steamer Caracac. After the contract was signed Hogg claims that the steamship company had another offer for the steamer and wanted to cancel the bargain with him. He offered \$175,000 cash, but was refused. To-day Hogg filed a libel with the clerk of the United States district court, and the steamer was seized by the U. S. marshal.

FISH AND FISHING. The Spring Pack—Strike Among Tillamook Fishermen.

The News gathers the following fish items. Fish Commissioner Thompson has a corrected list of the Spring salmon pack on the Columbia river. It foots up a total of 368,000 cases. Of this number 328,000 cases were of Chinook salmon, and the remaining 40,000 cases were filled with steelhead salmon.

Commissioner Thompson reports that there is a strike at Tillamook among the salmon fishermen. The latter wish from 40 to 60 cents per fish, while the cannerymen only wish to pay from 20 to 30 cents.

Fish Commissioner Campbell is in the vicinity of Columbia City endeavoring to trap certain fishermen who are breaking the law.

The run of salmon has not yet fairly commenced at Yaquina bay, though considerable numbers have been taken and the canneries have been in operation a portion of the time. It is expected that during the approaching dark nights large hauls will be made.

ABOUT GAS WORKS. ALBANY, August 25, 1888. To the Editor of the Herald: I have been informed that an Eastern company has signified its willingness to erect gas works in Albany just as soon as the city council grants it the privilege of laying mains and pipes through the streets; but it seems there exists a division in the council as to granting that favor. This it seems to me should not be. No legitimate business that will tend to or assist in the rapid development of our city should be refused admittance or even hampered. We undoubtedly have the best electric light plant on the coast, but that will not suffice as some prefer gas and their wishes should be recognized. Both are needed in any city. Every Eastern city has both, and \$10,000 expended in the erection of gas works cannot but prove advantageous to the city's interests. CITIZEN.

Well Boring. E. B. Davidson has sent for a man, called for boring wells and in a few days will be ready to bore wells anywhere in the city, from two to fourteen inches in diameter, any depth.

For your fine imported and Ke... West cigars, go to M. Baumgart... cigars store, one door east of Black... man's drug store.

Six shaves for a dollar at T. Jones's.

ALBANY REAL ESTATE.

Desirable Lots in Hackleman's Third Addition.

NOW IS THE TIME TO INVEST.

Now that Albany is the center of extensive railroad building and fast adding to the many enterprises becoming the chief business city of the Willamette Valley, the shrewd man with an eye on the main chance, will invest in real estate in this city. Many are daily doing so, and the land bought invariably advances in price and makes money for the purchaser while he is asleep.

One of the most desirable locations to purchase lots, which are yet offered at very low figures, is in Hackleman's Third Addition to Albany, recently laid out, and in the hands of Messrs. Curran & Monteith for sale. These lots lie adjoining a very desirable portion of the city, and new residences and improvements are daily being made in that locality. Some of the choicest lots in this addition are now offered for sale at prices within the reach of those of limited means. A home can be procured here for what would be paid for rents in a short time, while the purchaser reaps the benefit of the advance in the property.

Hackleman's third addition is located in one of the most picturesque portions of the city, and is very desirable for residences. Many men are investing these lots, thereby securing the best bargains in choice city property ever offered in the Willamette Valley.

This firm also have a large list of country and city property for sale in quantities to suit the purchaser. They are a live real estate firm, and, having the largest quantity of lands for sale, are prepared to offer the biggest bargains and best inducements to those desiring to purchase any kind of real estate.
