THE CITY'S FINANCES

The Treasury Is Empty and Will Remain So for Some Time.

For several days City Treasurer F. L. Kenton has been endorsing all city orders presented for payment "Not paid for want of funds," which means that the city's treasury is empty. This condition of things is likely to continue until about January next, when some money will be received from licensees. The trouble is not likely to be entirely relieved, however, until the next tax levy. In the meantime a considerable amount is being expended in sewers, and there is a new fire engine to pay for. The city is likely to have to figure pretty closely to prevent a greater amount of indebtedness than can be paid by the amount received from the next tax levy.

Hop Picking in Lane County

Eugene City Register: Hop picking has begun in many of the yards of Lane county, and others will soon follow. Growers are many of them contracting their hops at 12 1/2 cents per pound, which enable them to realize a fair profit on the year's work, if the crop can be gathered at a price for picking, which will afford good wages for all engaged. There are about 1000 acres of hops in Lane county that will yield 1,000,000 pounds, which will bring \$125,000 into the county. There is no other industry of considerable importance at the present time that distributes the income so perfectly. The whole of it remains among our citizens instead of being sent away for expensive machinery. The labor of picking is pleasant and healthful, and every family in the county that can spare any of its members should engage in it and obtain a part in the distribution. It is within the power of our own citizens to gather the entire crop, and if they fail they can have no cause for complaint if the labor is imported and the wages carried away from the county. Neither will the improvident have cause to complain if the merchants decline to trust all those who allow a time of good wages to pass unimproved. The busy bees will always obtain the honey.

From the Santiam

Mr. Angell, who has charge of the work on the Capital mine, came down from the Santiam yesterday after an additional force of men and a pump to lift the water out of the shaft which is being sunk in the main tunnel. The shaft is now about twelve feet deep and being near the Santiam and below the level of the river, fills with water, and pumping out is necessary to allow the continuance of work. The quality of the rock now being taken out of the shaft becomes harder and harder, which is considered an encouraging sign. Mr. Angell says they have already taken out a large quantity of quartz. He is awaiting the return of President Wright from Astoria so as to secure the pump and men—Salem Statesman.

A Queer Hunt

A queer catch from Yaquina was unloaded at the depot yesterday yesterday—billed to parties in Salem. It consisted of a sea serpent, a devil fish, a cuttle fish and some other curiosities of the briny deep. The thing called a sea serpent when stretched out was about six or eight feet long and resembled a snake or lizard except its head, which looked more like that of a seal. They were caught by fishermen at Yaquina and will be taken to Salem and will probably be placed on exhibition at the state fair. The serpent was an ugly looking fellow calculated to produce a shudder on the part of those who saw it, and to produce bad dreams for a week.

Drowned in Youngs River

Sunday night at 6 o'clock, J. A. Chamberlain with four others was coming down Youngs river in a small boat. He was in the bow and stood up when he fell over in the water. His comrades tried to save him, but before he could be taken out, he was dead. He has a sister that is married and living in Portland. He was working for J. H. Smith & Co. in a logging camp and was well liked by all.

French keeps railroad time.

A CLOSE CALL

The Steamer Willamette Valley Narrowly Escapes a Collision at Sea.

The steamer Willamette Valley from Yaquina bay, when thirty-five miles northwest of Point Reyes Monday morning, was going ahead at a moderate rate of speed, during a thick fog, when those on board observed a vessel ahead. The fog was so thick that they were unable to see any more than half a mile ahead. The captain at once ordered the helm put to starboard, and the two vessels passed. The steamer just grazed the port bumpkin with her starboard quarter bulwarks. Capt. Telle of the steamer ordered the steamer back to the vessel, which proved to be a bark. Those on the latter vessel announced that the vessel was not damaged, and the steamer proceeded to port.

Political History of Oregon

J. Henry Brown, of Portland, is in the city collecting data for a book of Oregon political statistics, which he is preparing to publish, to be entitled, "Brown's Political History of Oregon." Preparation of the book is far advanced, and Mr. Brown expects to publish it during the coming winter. It will be a volume of about 800 pages, and will contain a great amount of valuable matter, such as all of the party platforms in different years, complete election statistics, the different party issues, etc. It will be a valuable work.

Saw Mill

Messrs. Moyer, Dillon and Hyatt has secured a contract from the officials of the Oregon Pacific railroad, and will put in a steam saw mill on the Lien county side of the Santiam, near Menama, to make lumber to be used upon the construction of the railroad. They are a strong and experienced firm in the lumber business and will make a success of the undertaking.

School House Dedication

The new school house at Halsey will be dedicated on Friday evening, Sept. 21st. State Supt. E. B. McElroy and several other distinguished educators will be present. Refreshments will be served by the Y. W. C. T. U., and a very large attendance, and a grand occasion for the people of Halsey is promised. The new school building is a neat structure and a valuable adjunct to the town.

Preparing Reports

The railroad companies all over the country are busily engaged preparing the first annual statement to the interstate commerce commission. This voluminous statement has to be handed to the commission by the fifteenth of this month, and involves considerable work.

W. C. T. U. Convention

The district convention of the W. C. T. U. will be held at Lebanon on Wednesday and Thursday of this week, in the Presbyterian church. Several interesting papers may be expected, and Wednesday evening an address will be delivered by J. W. Webb, of Salem.

In the Lien county hop yards along the North Santiam, picking commenced last week. The prospects are that the yield will be good and quality fine.

BROWNSVILLE NOTES

BROWNSVILLE, Sept. 9.

Mr. Joseph Hume departed for Olympia yesterday morning, having received word that his mother was lying very low.

W. D. Washburn departed for San Francisco last Friday, via Yaquina, taking down with him a fine mare he had sold to parties in the Bay city.

We hear much complaint about the lateness of the mails here the past two weeks. We never got yesterday's mail until this morning.

Rev. E. Gittens of the M. E. church preached his farewell sermon this evening and soon departs for Roseburg. Mr. G. has many friends here, who wish him success.

There is some talk of a telephone line here to connect both sides of the creek. The cost would not be much and it would be a great convenience.

Mr. F. McCrea has bought the meat market here, and takes possession this week. This is the third time this property has changed hands in a few months.

Work has just been commenced on the narrow gauge road here the past week—fixing up the bridges and trestles along the line and putting the road in good order for the fall trade. Much wheat is being stored along this road and business will be good this season.

Friday evening the young people of this city gave an ice cream festival at the city hall for the benefit of foreign missions, but it was not as well attended as was expected. All who attended enjoyed themselves. The net receipts were about \$12.

The past week nearly all the farmers around here finished threshing, and a finer season never could be harvesting. Hop pickers are in full blast, but they all complain of the scarcity of pickers, although Templeton Bros. have quite a crowd of Warm Spring Indians.

To-day Rev. C. Speery preached his farewell sermon at the Baptist church here, and himself and wife depart for McMinnville, Hillsboro and Portland to visit their children the coming week, and on Monday the 17th inst, they will leave Portland for a two-months' trip to Iowa. Their many friends here wish them a pleasant trip and a safe return. Mr. and Mrs. S. have not been East for thirty-five years.

Monorably Acquitted

Isaac Porter and Wm. Burr, arrested and examined before a justice at Shedd for a charge of robbing an old gentleman named Baldwin of \$140 near Peoria last Saturday, were acquitted, there being no evidence showing that they committed the robbery. Baldwin had drawn the money from the First National Bank in this city, and while in Peoria indulged in a drunken spree. When he came to himself his money was gone, some one having robbed him.

Mammoth Peach

Mr. Earl Race exhibited to a Herald reporter yesterday a peach which measured just 11 1/2 inches around the waist, and weighed an even pound. It was raised at his residence in this city. If any peach grower can beat this record let him come forward.

Fine Horses for Sale

We have just brought from Eastern Oregon a fine lot of work horses which we will sell on terms to suit the times. Among them is some promising young drivers from Oneco, Mason Chief, and Edward Everett. Also some choice heavy mares. Anyone wishing a horse will do well to look them over and we will take pleasure in showing them to all intending purchasers.

McKIGHT BROS., Tallman, Or.

A Child Killed

Another child killed by the use of opiates given in the form of soothing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Acker's Baby Soother. It contains no opium or morphine. Sold by Foshay & Mason.

A Warning

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boecher's German Syrup. It will give you immediate relief.
