WILL BE HOISED TO-DAY.

The Programme for the Firemen's Exercises This Afternoon.

The committee on general arrangements appointed by Albany Engine Company No. 1 to arrange for the housing of the new steamer have prepared the following programme for the exercises this afternoon:

It was decided that the company meet in uniform and form in procession at their hall at 1 o'clock, and march to the hall of Linn Engine Co. No. 2. There the engine will be received from the city. A short address will be delivered by Mayor Cowan, which will be responded to by Hon. W. H. Blyden on the part of the company, and by Joseph Webber, chief engineer.

The Albany fire department, headed by Engine Co. No. 1, with the new steamer, will then march up First street to No. 1's hall, where the engine will be formally hoisted, after which it will be given a trial on the street.

A committee on reception, consisting of C. W. Watts, W. H. Warner and Charles Crowder, was appointed to look after the entertainment of the firemen from abroad. The affair promises to be an interesting one, and the occasion of the housing of the new steamer will be a gala day for the Albany firemen.

WILL BE TRIED TO-DAY.

H. P. McGuire, of Portland, Arrested and Brought to This City.

Constable C. G. Burkhardt returned to this city last night, having in custody H. P. McGuire, charged with being the Portland Siftings man, which has through its Albany correspondent been publishing shameful charges against several young people of Albany. He was arrested on a charge of criminal libel preferred by C. Casey.

He was arraigned in Justice Humphrey's court and was held in \$250 bonds for his appearance for trial at 8 o'clock this morning. He stated that he was not the editor of the Siftings and gave cash bail for his appearance. He stopped at the Revere house.

There is just indignation at the scurrilous items that have appeared recently in that paper, and the public demands that a stop be put to the same.

Mr. McGuire states that he came into possession of the stock in the Siftings on a security debt, and has no further connection with the paper. Mr. McGuire is proprietor of the East Portland water works.

Returned from the Mountains. W. F. Read returned yesterday from the mines on the Santiam owned by Messrs. Read, Woodin & Co. He brought back some fine specimens of silver and galena ore taken from their ledge. They have run in one tunnel, striking the ledge at a depth of fifty feet, and are now engaged in running in another which will strike it at a depth of 100 feet. These mines promise to become valuable. Chas. Brush, who, with A. B. Paxton, has recently purchased an extension on the above claim, and W. H. Houston and M. Cowan, who are interested in the mines of that district also returned yesterday from a several days trip in the same locality.

PORTLAND, Sept. 13.—At noon to-day the body of Jacob Nelson, a Scandinavian, 45 years old, was found hanging by the neck to a nail in a room at the corner of Mead and Second streets. It is supposed the body had been hanging for several weeks. One of Nelson's neighbors stated the deceased had sold a farm for \$800 about a month since, but no money was found in the house excepting \$1 in the suicide's trousers pocket.

The engineer and fireman escaped. No cars were derailed.

RIVER AND HARBOR WORK. Government Funds Arrived and the Good Work to Go Bravely On at Once.

There has been so much said about delay in beginning the work of river and harbor improvements in this state because the appropriation was not available, that every one will be pleased to learn that a slice of that same appropriation has safely arrived and is in the bank.

There is \$20,000 for the improvement of the lower Willamette and Columbia, which is the amount estimated as necessary to meet the expenses of the operation during the present month. The sum of \$10,000 for work for the month at Yaquina bay has also arrived, and there is more where this came from.

The work at Yaquina has already commenced and will be prosecuted both on the north and south beach jetties.

Returned from the Mountains. W. F. Read returned yesterday from the mines on the Santiam owned by Messrs. Read, Woodin & Co. He brought back some fine specimens of silver and galena ore taken from their ledge. They have run in one tunnel, striking the ledge at a depth of fifty feet, and are now engaged in running in another which will strike it at a depth of 100 feet. These mines promise to become valuable. Chas. Brush, who, with A. B. Paxton, has recently purchased an extension on the above claim, and W. H. Houston and M. WATERWAY CONVENTION.

Secretary Brewster Issues a Circular Calling for a Meeting.

W. H. Brewster, secretary of the Waterway convention, has issued the following circular to the several boards of trade, etc., in Oregon, Washington and Idaho, which are entitled to representation in that body:

Dear Sir: Pursuant to instruction from the executive committee, and in accordance with a resolution passed on August 4, 1887, I beg to state that the fourth annual session will be held on the 9th day of October next at the Portland Board of Trade rooms, situated in New Market block, First street, opposite Vine, commencing at 10 A. M.

It is the desire of the executive committee and officers that the respective bodies composing the association send delegates, so as to fully represent their interests, also to act upon such new matter as may be brought before it.

The object of the Columbia Waterway convention is an open river. The meeting of the association in Astoria in 1887, was a notable one. There were present ten United States senators, a congressman, two ex-United States senators, the railroad commissioners, and many of the representative men from the Columbia river basin. That this meeting was productive of satisfactory results can be seen in the appropriation of \$500,000 for the Columbia bar, \$350,000 for the locks, and a proportionate sum for the middle Columbia and lower Willamette.

What the association has accomplished in the past, is nothing to what it may do in the future. All that is needful is that a proper amount of interest be shown, and that a full representation be on hand when the convention meets.

COAST NOTES. The hop fields of the Willamette valley present a lively appearance now.

The strike among the fishermen at Yaquina still continues and few fish are being caught.

The contracts have been signed for the brick, iron, stone and carpenter work on the Villard hotel in Portland, and the work commenced. It will be pushed rapidly forward to completion.

The Douglas county fair opened Tuesday morning and will run during the week. There are many more exhibits this year than ever before. On Friday G. Penney will deliver the annual address.

Wm. Long, the postmaster of Sandy, who was committed to jail in default of \$300 bail, upon a charge of illegal traffic in postage stamps, had his bail reduced from \$300 to \$200 by Commissioner Deady Wednesday in Portland, and on putting up that amount he was released from custody. E. H. Ingraham is surety on the bond.

A gentleman over from McMinnville states that the small-pox scare, which kicked up such a furor over there, has subsided, and the patient, Charly Bynum, is convalescent. His wife, who had varioloid, is also nearly well. The quarantine has been removed from the street upon which they lived.

W. H. Flannigan, administrator of the estate of Wm. Garvin, the Silverton carpenter who was crushed to death by a locomotive in Albina last spring, filed a petition in the Multnomah county court asking permission to compromise the damage suit begun against the O. R. & N. Co. He recites that negotiations looking toward a compromise have been pending for some time and that the O. R. & N. Co. has offered to pay \$1000 to the estate. Administrator Flannigan thinks a compromise would be to the interest of the estate, and Judge Catlin has authorized him to accept the offer.

Darkey Musicians. A party of four young negro musicians are doing the city. They are from Illinois, and have traveled together for nine years. They gave a first-class vocal and instrumental free concert on the street last evening, which brought them a perfect shower of nickels and dimes when the hat was passed among the crowd.

LAST NIGHT'S READINGS.

Geo. W. Cable Both Delights and Instructs His Audience.

The appearance of Geo. W. Cable, the talented author and eloquent, at the opera house last night was greeted by a large audience.

Mr. Cable is a small gentleman of very quiet demeanor, and possesses the power to sway his audience at will, at the same time delighting and entertaining them in his changes from the most impressive pathos to a flow of clean, keen wit, or to joyous and intense description. He has a wonderful power of characterization, and is one of the best elocutionists who has appeared before an Albany audience.

I have tried many remedies for coughs and colds, but this is superior to anything I have ever tried. Prof. J. M. Mohan, Capital City Commercial College, Des Moines, Iowa. Sold by Foshay & Mason.

They are supplying large quantities of fruit to the railroad contractors. They have received at their store on Second street a large invoice of fresh groceries, hams, bacon, etc. Their fruit pack is unexcelled, and is much preferred by dealers to the California product.

When the disease affects the head and assumes the form of Catarrh, nothing is so effective as California Cat-R-Cure. These preparations are without equal as a household remedies.

An Explanation. What is this "nervous trouble" with which so many are now afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the liver which in performing its unobscured function does not dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

Military Ball Supper. The supper for the military ball to be given by F. Co., on the dedication of their armory on Friday evening, will be furnished by the ladies of the Women's Relief Corps at the W. C. T. U. hall.
