A new line of carpets, clothing, boots and shoes is offered at A. B. McIlwain at prices that cannot be undersold in the city. The superiority of their goods, together with the very low prices, make them very desirable. Call and see them.

James F. Powell wishes us to say that the party who went through his bicycle while it was standing on the street, removing the wrench and other parts, is known. If the parts taken are returned in good condition all well and good, if not measures will be instituted to cause their return.

THE YAQUINA JETTIES.

What Captain Willard Young Says About the Government Work. Capt. Willard Young, who has returned from an inspection of the improvements in progress at Yaquina, reports everything in excellent condition, and about one-third of the 600 feet of the tramway washed away from the top of the jetty replaced.

"There will be no extensions of the jetty made this year," said he to a reporter, "and all that will be done will be in the way of strengthening what has already been put in."

"The work of placing the stone has already begun, and right near is located as fine a stone quarry as anyone could wish for. The men who have the contract for transporting it are doing good work and are getting along faster than could well be expected."

The jetty is built out about 3000 feet, and Capt. Young expects to have it completed by next fall. He has recommended the building of a jetty on the north side of the entrance to Yaquina bay, but has not yet heard anything from Washington concerning it.

Returned from Yaquina. Frank Wood, who returned from Yaquina yesterday, states that the bay presents a lively appearance now. The company of soldiers have been amusing the people over there by some neat target shooting with a couple of improved Hotchkiss guns. Hon. Geo. H. Williams delivered a rousing oration at Newport Monday night. There is a sad lack of transportation for freight between Yaquina City and Newport, and freight often has to lay on the wharf for several days.

Double Wedding. Quite a novel wedding took place in Salem yesterday, it being the double marriage of the Misses Riely, sisters of Mrs. Thomas Hopkins, of this city. The contracting parties were Mr. Arthur S. Brasfield, formerly of Newport, now of Portland, and Miss Lissie Riely, and Mr. George Pierce, of Salem, and Miss Nellie Riely. Mr. and Mrs. Thomas Hopkins, of this city, were in Salem to attend the wedding.

Skeleton Found. One of the members of the life saving crew at Fort Canby, while out hunting Tuesday, discovered the skeleton of a man, near McKenzie's head. It is believed that the man was outside in a small boat which was swamped, and that he tried to reach the shore but was soon exhausted and died. The indications are that the man was drowned about four months ago. He was buried on the beach without inquest.—Astoria Pioneer.

About Wheat. The wheat market, which has been somewhat weak lately, has again begun to advance. Wheat is now worth 72 cents in this city, and there is a strong upward tone to the market. Wheat is quoted at \$1 per bushel in New York and Chicago. With a good price for her enormous wheat crop, Oregon ought to have one of the most prosperous seasons in her history.

Bad for Peck. Walter Smith (republican) and Will A. Peck (democrat), have entered into a novel agreement for the settlement of a presidential bet. The loser is to carry the winner from the hotel to the Oregon Pacific depot, the winner to wear an enormous pair of spurs, and to have the privilege of using them vigorously during the prolonged trip.—Yaquina Post.

Will All Vote for Harrison. Robt. Conn, of this city, is another of the long list who voted for Gen. Ben Harrison's grandfathers, and will vote for Harrison and Morton in November. He voted for the elder Harrison twice and will be at the polls, with six sons, each of whom will vote for protection.

Robert Nourse's Lecture. The lecture to be given by this eminent speaker next Friday night promises to be one of the most interesting ever delivered in this city. It is not a temperance lecture and the speaker, who is cordially endorsed by many of the ablest men of the country, will touch upon the live topics of the times. He should receive a large audience.

BORN. HYDE.—In this city on Wednesday, Sept. 25, to the wife of M. Hyde, a son.

COAST NOTES.

As given by the secretary, the receipts of the state fair will foot up nearly \$15,000. Diphtheria is reported at Oregon City, and several deaths are reported among the children.

Oregon City is to be lighted by electricity within thirty days. The poles are all up and nicely painted. The tenderfoot, at first, in speaking the name "Willamette" is sure to lam the word in the wrong place.

The Baker City and Pendleton papers are quarreling about the size and prosperity of their respective towns. At the Clackamas hatchery, the fishing season is at its height, no less than 30 men being employed in picking over eggs.

The body of a young man named Ed. Young was found in a Chinese dug-out at Walla Walla on the 17th inst., stowed away under a board. Canyon City News: Walter Sage, who owned a blacksmith shop at Hamilton, was kicked by a horse last Sunday and killed. His remains were taken to Prairie City, at which place the funeral occurred Monday.

Victoria, infant daughter of J. Sweetman, of Seattle, toddled to the supper table on Saturday night and pulled a cup of hot coffee from the table into her face, from the effects of which the little thing suffered till noon Monday when she died.

A republican and a democrat in Jackson county recently made a novel election bet. The former selects the latter a band of 1200 sheep for a dollar a head if Cleveland is elected, and two dollars a head if Harrison wins. They both agree that this is at out a fair thing all around.

A prize fight to take place at Antelope on Thanksgiving day promises to draw a large crowd. The combatants will be Kenneth McDonald, a native of "the land of cakes," and Jim McCrimmon, from the Emerald Isle. They will fight in a 24-foot ring for a prize of \$500, to be paid by the defeated party.

On Monday about noon a difficulty occurred between Arthur Hallam and Bud Douglas at Cracker City, Oregon, and resulted in Hallam shooting Douglas twice, once through the neck and once through the body. Hallam gave himself up. Douglas was alive at last accounts. The men came from Montana during the summer.

Commutation of Sentence. Governor Penoyer has commuted the sentence of John T. Davidson, who was sentenced to the penitentiary from Benton county, April 5, 1887, to serve a term of two years for the crime of larceny. Davidson, who is a half-witted boy of about 19, was a very untractable prisoner, and the authorities were compelled to work him at the smoky wheel, as he would not attend to his duty when given work of a less laborious and unpleasant character. His health broke down at this work and some time ago he was removed to the hospital, where his disease developed into quick consumption. Some time ago it became evident that he could not live out his term so Dr. Byrd, the prison physician, asked Governor Penoyer to commute his sentence that he might be taken home to die. His father came after him and conveyed him home.

Linn County Trotters. Dick Flaherty, Eugene LaForest's fleet trotter, was brought back to this city yesterday, where he will be trained this winter. Oneco, McKnight Bros. well known flyer, who did so well in the state fair races, has been sent to Portland, from which place he will go to Colfax, The Dalles and Walla Walla to take part in the races.

J. A. Archibald and family, lately of Topeka, Kansas, have settled in this city. Mr. Archibald has received the appointment of agent for the Singer sewing machine and will shortly assume charge of that business. On arriving here he found among our most influential citizens families bearing the same name as himself, and on investigation ascertained that they were brothers of his father, whose whereabouts had been unknown to his people for years. The discovery was a most pleasant surprise to him.

The Astoria Pioneer pathetically tells the story of how a restauranter in that city lately accepted a ten dollar confederate bill, giving therefore a 25 cent dinner and \$9.75 in coin, and when a later examination proclaimed its character proceeded to make the atmosphere blue in that immediate vicinity. Well, who wouldn't?

STATE DISPATCHES.

News Items from Portland—A Sensational Case—Burglars at Work, Etc. Special to the Herald. PORTLAND, Sept. 25.—The city seems to be infested with burglars. The lodging houses as a general rule are the places entered.

A DECIDED SENSATION. A case of a very unusual character went to trial before Judge Stearns this morning, namely that of the State of Oregon vs. John Lewis and Ella Lewis, jointly indicted for alleged criminal associations at the Merchant hotel, in this city on the 12th of July. The female defendant is a daughter of Rev. S. M. Driver, of Walla Walla. The defendant is a brother of the woman's husband. The case was given to the jury before noon, and that body took one ballot and then found John Lewis guilty. His counsel gave notice that they would move for a new trial.

A SERIOUS ACCIDENT. This morning at 11:30 Dennis Dooley, farmer, was driving up Sixth street when his team grew frightened and ran away at the corner of A street. The wagon collided with an electric light mast and was turned over, throwing the man out upon the sidewalk, breaking his left shoulder blade and producing quite an ugly scalp wound. He was picked up in an insensible condition and taken to the St. Vincent Hospital, where his injuries were treated.

Forest Fires. Great damage is constantly occurring during the dry season to the lumber and other interests by the fires that are wantonly or carelessly started. Quite an extensive fire has recently been raging on the North Santiam, in this county, above Rock Creek, though no extensive damage has yet occurred, as it was expending its fury on the burned timber limits. On Monday evening the smoldering embers that the rain had failed to put out were fanned into activity, and commenced raging with considerable intensity three or four miles above Rock Creek. The crash of the falling trees could be heard all night at the railroad camp on the opposite side of the river.

Injury to the Trail. Last Saturday on the trail between the front of wagon road supplies, on the Oregon Pacific, and the Brighton bush and extreme front of the work, a forest fire burned off an old tree, which in falling carried away several feet of the trail, causing several hours delay to the pack trains, which are kept constantly busy packing in supplies for the large force of men at work upon the railroad extension.

Dr. Robert Nourse. This eminent speaker addressed a large audience at the Tabernacle in Portland on Tuesday evening. The Oregonian says: "There was a large audience present, and the address was listened to with close attention. The lecture was interspersed with numerous anecdotes and witticisms. Frequent applause showed with what appreciation the discourse was received. The audience, too, was larger than it has been on any previous night, and all went away well satisfied with the intellectual treat enjoyed."

Tickets are on sale at Blackman's and Foshay & Mason's drug stores; also at Wallace & Thompson's, S. E. Young's and L. E. Blain's. Reserved seats 50 cents. If Dr. Nourse can fill the Tabernacle in Portland, he certainly should have a full house in Albany. Let our people show their appreciation of intellect by coming out. His lecture here, "John and Jonathan," abounds in wit and humor, and is the very best of his course.

The Small-pox at McMinnville. It is stated that a new case of small-pox had developed on Zack Hall, a farmer near Sheridan, Yamhill county, and it is stated also that a man named Manning, near Wheatland, has been seized with the epidemic.

An Explanation.

What is this "nervous trouble" with which so many are now afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvellous.

A WARNING. The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle germs into the system, and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.
