CALIFORNIA CURE
THE ONLY GUARANTEED CURE FOR CATARRH OF THE BLADDER
ABIE-TINE MED. CO. OROVILLE, CAL.

Have you a cold in the head which does not get better? Have you an excessive secretion of mucus or matter in the nasal passages which either must be blown from the nose or drop back behind the palate, or hawked or sniffed backward to the throat? Are you troubled by hacking, sputtering, weak and inflamed eyes, frequent soreness of the throat, itching or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dullness or heaviness of the head, dizziness or heat of nose? Have you lost all sense of smell? Have you a hacking cough? Have you dyspepsia? Is your breath foul? If so you have the CATARRH. Some have all these symptoms, others only a part. The leading symptoms of ordinary catarrh is increased secretion of mucus or matter from the head, sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are in need of objects of pity, as stomach from corroding sores reveal the corruption within.

As every breath drawn into the lungs must pass over and become polluted by the mucus in the nasal passages, it must necessarily follow that breathing of the mucus gradually takes place, while the mucus matter that is swallowed enters the stomach, enters the system, and other poisons (syphilis, etc.) finally increases its nervousness and concentration.

DO NOT PROCRASTINATE.
If you have experienced any of the above symptoms do not delay, but try CALIFORNIA CATARRH CURE at once. We positively warrant relief and a thorough treatment in one week. Six months treatment for \$1.00; sent by mail.

Blaines' Appointments. Changed to Accommodate Eastern States.

COMMITTEE MEETING.

The Finance Bill Nearly Ready for Report.
WASHINGTON, Oct. 1.—There was a full meeting of the finance committee this morning, at which three or four points left open in the senate tariff bill were considered and disposed of. The bill is now complete and will be reported as soon as the minority finish their work.

Snow in London. LONDON, Oct. 1.—Snow fell throughout England to-day. Mortimer Sockville West, first baron of Sockville, is dead, in his sixtieth year.

A Dramatic Festival. On Saturday evening next Chas. C. Maubury and Miss Nellie Boyd will produce for the first time in this city the powerful and wonderfully realistic melodrama "Her Natural Life," which has had such a phenomenal success at San Francisco. The play is unanimously voted the success of the season by all the "Frisco" papers. It embraces all the requirements for refined melodrama, its tone is pure, its sentiment refined, while there is a most liberal admixture of sensation and comedy there is within it every element that goes to make up the real as well as the mimic world, and in its general gripping of all those chords which flutter about the best as well as the worst in human nature, "His Natural Life" is simply a masterpiece of ingenuity. The press endorse it most highly as the representative drama of humanity, and predict for it a universal success. To give this great play effect, the managers have surrounded it with an elaborate amount of scenery, in fact more than is carried by any traveling company in America, and what is more to the point, guarantee to produce every scene on our stage the same as at San Francisco. Owing to the enormous expense attached to this production they play in only a few towns between Frisco and Portland, from which place they direct to New York City in their special train for an indefinite period. The citizens of Albany should feel honored at being selected as one of the limited number of stopping places by this truly meritorious company, and the managers and stockholders of the opera house should be congratulated on their enterprise in securing them, and our citizens should show their appreciation by bestowing a liberal patronage.

Mr. Chas. Maubury is one of our greatest American actors possessing a manly form, a handsome face and a spirited style of acting, also possessing the pleasant, romantic style of Frank May and coupled with the great force that characterized the late John McCullough, he has been honored by the entire New York and San Francisco papers who have adjudged him the apotheosis of actors.

Miss Nellie Boyd is too well known here to need comment. She is always as welcome as the flowers as spring, as we remember how on former visits we were led unconsciously by the hand of this accomplished and clever lady through the part essays and how she made us laugh or cry at will. Never have the citizens of Albany entertained such friendship for an actress as they do for pretty Nellie Boyd. Notwithstanding the great expense attached to this great production, the price will be 50 and 75 cents.

A Rotori. It was a neat somewhat caustic reply that young Nevins gave to the cad who attempted to take a lordly tone with him at the club the other day. Since Nevins was employed to paint the portrait of the beautiful Countess of Dash last Summer, he has been somewhat the fashion; but he is far too clever and well-balanced to lose his head on that account. The man who questioned him was Grayman, whose escapades have been the scandal of his enemies and perplexity of his family for this five years. Grayman was angry because at a ball last week, Nevins received in the german favors which he would have had far hands bestow upon himself. He took revenge by insolently asking the artist at the club in presence of half a dozen men: "I say, Nevins, what will you do when society puts you down as quickly as it took you up?" Nevins looked at the speaker in perfect coldness.

"If I for an instant acknowledged," he said, "that I was the sort of a man who can be 'taken up' as you put it I should be put down so low in my own estimation as almost to feel myself at your level."

There was an instant of utter stillness, while Grayman recovered his breath, and then before he could speak one of the men jumped up and shook the artist by the hand.

"What will you have to drink?" he said.

Whereat it became evident to Grayman that further rejoinder was useless.—Boston Courier.

IT IS CLOVER.

The End of Chicago's Big September Wheat Deal.
CHICAGO, Sept. 30.—The great September wheat squeeze is at an end, and B. P. Hutchinson has cleared up his various investments at a profit of one and a half to three million dollars.

The scene "on change" yesterday was even more animated and excited than yesterday. "Old Hutch" came early, and the close of the session of the most sensational character.

In the last few minutes of the session December wheat touched \$1.05. At the same time "Hutch's" backers stood on the edge of the pit facing the cash wheat crowd and created surprise by bidding \$2 per bushel September wheat. About this time Hutchinson left his post by entrance and moved around the wheat to where the cash traders were gathered. He was surrounded by several hundred, who surged back and refused to let him escape. He shook his head and his fist in anger, but still the crowd pressed around him. There was jelling and barking by the younger member and the clerks and others climbed on the steps, chairs and benches to see the fun. About one minute before the bell tapped "Hutch" offered \$2 for dollar wheat and four cents were sold to him at that price. How much he sold at that price during the day only himself and the "shorts" who were obliged to buy, knew.

When the closing bell struck the floor crowded as it was by the usual number of members, clerks and favored outsiders, together with the over packed stairways and gallery, presented a scene more resembling an excited political mob than assembly of cool headed business men.

It was fifteen minutes before the floor and galleries were emptied of excited crowds, and thus ended the big September wheat deal.

HEAVY FAILURE'S PREDICTED. CHICAGO, Sept. 29.—December wheat, under the heavy demand by Hutchinson, advanced to 104 1/2 today. Some heavy failures are predicted for Monday.

ONE FIRM SITTLES. NEW YORK, Sept. 29.—Wm. Black & Co., who suspended yesterday, made a settlement in the cotton and produce exchanges to-day.

The Horse That Sells for the Best. The horse that sells for the best average price is the heavy draft horse. The fast horse may sell for more money if he is fast enough, but take altogether the average price of the heavy draft horse is above that of the other. There is a constant demand for such animals, a demand that is increasing faster than the supply. The demand is not only from this country but from Europe, and even from Russia. There is no longer a ready sale for the light horses that were used not many years ago. They find buyers, it is true, but at prices that hardly pay for raising them. A farmer that raises horses at all knows this to be true, as they are often brought to a realizing sense of the fact when on taking horses to the buyers they are met with the statement that they are too small. Large horses are wanted.

In the great cities, railroad centers, factories, foundries, mills, machine shops, quarries, and in the lumber woods, thousands more are now annually purchased than were needed years ago. The American farmers are also beginning to find deep tillage and a more systematic and economical method of cultivation necessary, in which a large class of horses is indispensable. Thus, on every side we see the plane of usefulness of the large, strong work-horse extending while that of the small family horse is becoming narrower. The demand that is thus opened will never be supplied. The price of such horse is increasing.—Farmer's Magazine.

ALASKA. How Mining is Carried On Along the Yukon.

The Alaska Times says: A part of an interview with D. H. McNeill, one of the party who left with William Ogilvie to survey the northern country on behalf of the Dominion Government, says that mining carried on along the Yukon is done in this wise: The river freezes to a great depth, and on the banks and bars the ice is generally solid to the bottom. The miners cut away the ice and then dig up the gravel; which is also frozen, and carry it to the banks. This process is continued till the river breaks up, for a couple of months, when the dirt is carried back again and washed for gold. In this way, says the informant, one man took out \$1000, but it is hard work. The gold is principally coarse, the largest nugget being valued at \$40. This nugget, it may be stated, was lost, the owner being drowned a short time after he found it. His name was Michael Sufferin, a native of New Brunswick or Ontario. Mr. McNeill has samples of the Yukon gold with him. Provisions are pretty dear. Flour is \$17.50 per 50 lb. barrel in 40 cents per pound, beans 30 cents, sugar 30 cents; dried apples 30 cents, of all of which there is a fair supply. During the winter there were thirty-six cases of scurvy among the miners, and three deaths occurred. The Indians on the Yukon are peaceable and willing to work.
