Officers Elected. The regular meeting of the Y. W. C. T. U. last evening was an interesting one. The following officers were elected for the ensuing year: President, Miss Margery Brink; recording secretary, Miss Berntha Martin; corresponding secretary, Mrs. Henrietta Brown; treasurer, Miss Clara Blain. Vice presidents were elected from each of the churches represented in the society, as follows: Baptist, Miss Rose Trumbull; United Presbyterian, Miss Rhoda Hill; Presbyterian, Miss Sarah Wheeler; Methodist, Miss Amanda Kiteout; Southern Methodist, Miss Maggie Barker; Congregational, Miss Clara Read. All are cordially invited to attend these meetings.

Judgment on the Verdict. Judgment was granted yesterday to G. W. Hunt on the recent verdict of the jury in the Oregon Pacific damage suit, in the sum of \$76,243.56 as awarded to Mr. Hunt by the jury. This sum includes the Oregon Pacific's estimates of the work done, of \$75,443.56, and \$800 damages. It is likely that the suit of G. W. Hunt against the Oregon Pacific in the U. S. court in Portland will be dismissed.

Hunt's Suit vs. the Oregon Pacific.

In the case of G. W. Hunt against the Oregon Pacific railroad company in the U. S. circuit court, Monday Judge Brady allowed the motion of the plaintiff to strike out two of the claims for damages in the counter claim of the defendant, and disallowed the motion as to the third. He held that the company ought to be allowed to show, if they could to the satisfaction of the jury, what damages they sustained by losing the use and operation of the road on account of the failure of plaintiff to construct it within the time agreed upon; and that the plaintiff was not liable to the company for the \$50,000 damages which it alleges it sustained by the reason of the failure of the plaintiff to construct the road in time, whereby it was unable to carry \$50,000 worth of freight, which it alleges it had bargained to carry to and from the eastern end of its road to Yaquina bay—because that was a loss sustained upon a collateral contract with a third person, and not within the contemplation of the parties to the contract concerning the construction of the road; nor should the plaintiff be liable to the defendant for \$100,000 damages as claimed by the defendant on account of the greater sum it would cost to construct the road, over the contract price, because it is uncertain what the cost of construction would be until it is done, as the price of labor and material fluctuates, and it might be built cheaper than the contract price—the damages are to uncertain and further, it is contingent, as the company may never construct the road, and until it is constructed it cannot be told with any certainty how much more than the contract price it will cost, or what the loss of the company may be. Mr. Hunt secured a judgment against the O. P. Co. in the circuit court in this city last Friday. If he has his case tried in the U. S. court he can take whichever judgment is the largest.

More smallpox. Miss Baker, the smallpox patient at the place of F. X. Matthien, at Butteville, is reported as improving. Her attack was light at first, and the careful nursing she received has brought her through the crisis and she is now out of danger. A gentleman who spent Sunday in Gervais informs this paper that while there he heard of several new cases of the disease that had broken out in and about Champco. One of the victims of the dread disease is a Chinaman who belongs to a gang of grubbers working at Yeger's place two miles from Champco. Another case reported is that of an old Frenchman who was taken down with the disease in its most malignant form at Menig's place near Champco on Wednesday. The old gentleman, whose name could not be learned, had been wandering around the country, and on the Saturday night before the disease broke out on him he slept at Hon. E. J. Harding's place in an out-building where about 20 men, who were working there with a straw-baler, also lodged. When these men heard that their late visitor had contracted the smallpox they were all immediately vaccinated, and but little fear is entertained of the disease taking hold of any of them.—Salem Statesman.

The First Boat. The first boat which has reached this city since last July was the O. R. & N. boat Occident, which came up the river yesterday morning. She took on 134 cases of canned goods from the Willamette Packing Co.'s cannery and returned to Portland. The Oregon Pacific draw bridge, although it has not been in use during the summer, swung around with its accustomed ease, allowing the boat to pass through.

A Novel Thermometer. Judge Boise was presented yesterday by Phil Cohen, of this city, with a novel thermometer, it being a genuine case of corn with a small thermometer set in the cob. Mr. Cohen calls it a "Granger thermometer." It is a neat contrivance. He received a few of them from one of the eastern corn growing states, and also presented this office with one.

Five Horses for Sale. We have just brought from Eastern Oregon a fine lot of work horses which we will sell on terms to suit the times. Among them is some promising young drivers from Oregon, Mason Chief, and Edward Everett. Also some choice heavy mares. Anyone wishing a horse will do well to look them over and we will take pleasure in showing them to all intending purchasers. McKnight Bros., Tallman, Or.

Pomona Grange Meeting. Marion county pomona grange will hold a special meeting in Salem on Saturday, Nov. 17th, and the regular meeting will be held at Woodburn on Thursday, December 13th. All patrons invited.

Not a California Bear. Anybody can catch cold this kind of weather. The trouble is to let go like the man who caught the bear. We advise our readers to purchase of Foslay and Mason, a bottle of Santa Abie, the California King of Consumption, Asthma, Bronchitis, Coughs and Croup Cures, and keep it handy. It is pleasing to the taste and death to the above complaints. Sold at \$1 a bottle or \$3 for \$2.50. California Cat-R-Cure gives immediate relief. The Catarrhal virus is soon displaced by its healing and penetrating nature. Give it a trial. Six months treatment \$1. sent by mail \$1.10.

Fined Five Dollars. Frank Jones, who led Policemen McClain such a desperate race Monday evening, was arraigned before Recorder Henton yesterday. He was fined \$5 and costs. He paid for the window he had broken and departed a sadder and perhaps wiser young man.

Verieck's baths. A new invoice of British trimmings at Read's.

The Road Now Being Pushed Toward an Eastern Connection.

A NEW SEAPORT IN OREGON.

Arrangements in Contemplation to Ship Wheat Direct to Europe—Promising Facilities of Harbor.

The New York Sun of a late issue had the following: YACQUINA, Sept. 27.—My summer in Oregon has been delightfully spent, mostly among the lovely farms of the Willamette Valley, and at what is now getting to be one of the famous seaside resorts in this part of the country, Yaquina bay. It is really surprising to see the success which has crowned the efforts of the United States government in developing the entrance of the harbor at this place. It has really opened to commerce what is now the finest harbor on the Pacific coast, north of San Francisco. This is notably true for the city of Portland is 110 miles from the ocean, and Tacoma and Seattle, the ports of shipment of the Northern Pacific railroad, have to traverse Puget sound and the straits about 180 miles before the ship arrives at the ocean, while it takes only a few minutes to cross the bar at Yaquina bay, when the ocean is reached and the ship is at sea. The breakwater is already constructed, the deepening of the water at the bar almost completed, and I am told that the appropriation made by congress this year will render this great harbor safe at all seasons, as the water on the bar at low tide at the present time is almost sufficient for vessels of the largest size. Arrangements are now in contemplation for the shipment of grain direct to Europe by the Oregon Pacific railroad from Yaquina bay; and the facilities of this harbor are so promising that it has already attracted a large intelligent population. In my judgment nothing can prevent Yaquina from being one of the largest cities on the Pacific coast. This is likely to be the case in the near future, for with such depth, such ample room for anchorage and handling the largest vessels, the port proves its capacity for the accommodation of a vast amount of shipping. With the development of the country and the facilities for transportation furnished by the railroad having its terminus at this place, a large shipping business is already commenced, and the facilities both of shipping and railroad are not at all commensurate with the freight which presses forward. The delicious climate and the lay of the land make this a most attractive place of residence; and even now property has enormously increased in value. It is already a considerable summer resort, and the Yaquina house, built on a delightful elevation, affords a superb view of the bay and the ocean. Here are found in large quantities, imbedded in the rocks along the shore of the bay, the rock oyster, or, as people call it, the date fish. It has a shell something like a mussel, and is so succulent and fills up the shell so completely, that, once taken from it, it is found impossible to return it again. It is said here that, when very young, these creatures suspend themselves to the rocks, which, after while, they perforate; and, as they increase in size, they enlarge their prison, receiving nourishment through the opening by which they entered. On close examination of the shell it shows beautiful tints of color. It is eaten here by the inhabitants as we eat the ordinary mussel, but it is more delicate in its flavor, and it seems wonderful how it is little shell fish bores these chambers in the rocks, always the same size and shape as the shell itself. A charming scene it is to see the inhabitants, including many Indians, who live in the neighborhood, fishing on the placid waters of the bay, their boats dotting the waters here and there. Then the bolder and more hardy of the inhabitants crossing the bar find in the deep sea fishing of the ocean beyond a sport both exciting and profitable, cod, salmon and other fish being taken in great quantities. The ease of getting in and out of the harbor here is remarkable. I saw a steam tug to-day bring a large three-masted schooner over the bar in about five minutes. With the improvements of the bar half an hour suffices to tug the arriving vessel from the deep Pacific to her station alongside the wharf, and the same time will despatch her, fully loaded, on her outward voyage. Little towage is required here, and with light harbor charges this is the least expensive port on the Pacific coast. The steamships of the Oregon Development Company are running regularly between here and San Francisco, and new steamships of large tonnage are to be put on at once. The Oregon Pacific railroad is now pushing its extension rapidly toward Boise City, Idaho, and upon its completion there and its connection with the transcontinental lines now rapidly building to meet it, this important harbor will develop an enormous business. This is a great country, full of possibilities, none of them realized or even considered by me until my journey here. For sport, of which there is plenty, both hunting and fishing, and business which promises great things, this is the spot for youth, energy or capital.

Guard Against the Strike. And always have a bottle of Acker's English Remedy in the house. You cannot tell how soon Cramp may strike your little one, or a cold or cough may fasten itself upon you. One dose is a preventive and a few doses a positive cure. All Throat and Lung troubles yield to its treatment. The Remedy guaranteed by Foslay & Mason.

Pimples on the Face. Detoxify an impure state of the blood and are looked upon by many with suspicion. Acker's Blood Purifier will remove all impurities and leave the complexion smooth and clear. There is nothing that will so thoroughly build up the constitution, purify and strengthen the whole system. Sold and guaranteed by Foslay & Mason.

A Warning. The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat, and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness, allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

Window shades. I have received a new line in staple and fancy colors and will in the future carry a much larger assortment than formerly and sell them cheaper. SAMUEL E. YOUNG.
