WASHINGTON, Nov. 20.—The president goes to Oakview to-day to begin preparations for his message to congress, where he will remain until it is completed.

**DAN TO BE HONORED.**  
He is to be Made Judge Advocate in the U. S. Army.

WASHINGTON, Nov. 20.—The rumor is gaining currency that Cleveland contemplates appointing Private Secretary Lamont judge advocate general of the U. S. Army, in the place of General Swain, now under superintendent.

**Will Form a Union.**  
PITTSBURGH, Nov. 20.—The convention of boiler inspectors, for the purpose of forming a national organization, met here to-day. Delegates from nearly every state in the Union were present. The principal objects are to adopt a uniform system of boiler inspection and to prevent the employment of incompetent engineers.

**Duel Between Frenchmen.**  
PARIS, Nov. 20.—A duel between Andreux and Guyst, resulting from a charge made by the latter that the Times trial was the outcome of a collusion between Uma Gilly and Andreux, was fought this morning. Swords were used. Andreux received a slight wound in the chest.

**Base Ball League.**  
NEW YORK, Nov. 20.—The National base ball league meets here to-day in extra session. A joint committee of the league and the American Association on Rules are now in session.

**Keely Released.**  
PHILADELPHIA, Nov. 20.—Keely, of motor fame, was released to-day on bail, pending the hearing of his appeal from commitment for contempt of court for not producing a model of his machine.

**In the Name of the British.**  
LONDON, Nov. 20.—The British cruiser Hyacinth has taken possession of Cookes Island in the name of the British government.

**29,591 for Harrison in Pennsylvania.**  
HARRISBURG (Pa.), Nov. 20.—The official returns show that Harrison's plurality in the late election in this state was 79,591.

**U. S. Senator Elected.**  
ATLANTA (Ga.), Nov. 20.—A. H. Colquitt was to-day re-elected United States Senator. Grady, of the Constitution, refused to run.

**BIG FARM IN DAKOTA.**  
Thirteen thousand acres under successful cultivation.

The big Grandin wheat farm in Dakota contains about 40,000 acres, of which 13,000 are under cultivation, 11,000 acres being sown to wheat. There are used on the farm for five gang plows, two plows in gang, each cutting from fourteen to fifteen inches. There are forty-five gang harrows. These are six feet square, but are arranged together side by side to work twenty-four feet wide. One long evener draws the four with a span of mules near each end. One man drives both teams. The advantage of this system is worthy of notice by other farmers. It reduces the number of men required by half. There are forty-four broadcast sowers, each sowing eight feet, but two of these are attached end to end with a span of mules to each, and one man drives both spans, thus saving another half the man power. There are sixty-five self-binding harvesters employed on the place. Modern improvements have so perfected these that only one expert is required for the whole, especially since the experienced workmen on the machine are kept from year to year and they are able to attend to any little repairs. The harvesters are drawn by three mules, and one and a half to two men are required to shock the bundles from each machine. The threshers, of which there are six, are quite extensive affairs compared with those of former times or with those of the falls of animals on the threshing floor of our boyhood. Each one of these machines, driven by steam power, threshes out from 1900 to 2000 bushels a day. They are set down in the center of a hundred acres of shocks, and when those are threshed are moved to the center of another hundred acres. The working force on a single threshing firm is quite a little army. Thus, there is, first, the general superintendent, eight bundle teams to haul the shocks, with eight drivers and eight other men, part in the field and part at the machine as pitchers and unloaders. At the machine two men are required simply to cut the bands. There are three feeders, two at work and an alternate. Then there are the engine, the fireman, the waterman, the "straw bucket," who with two mules and a pole removes the straw accumulating before the machine, a barn man to care for the animals and the cock and his assist ant. The wheat is received into wooden tanks holding 100 bushels each, and four men with four wagons drawn by four mules each, take the wheat to the elevators. This saves bags and bagging. It will thus be seen that a force of thirty men is employed to run a single machine.

No Chinese employed.

## THE PARNELL COMMISSION.

**Some Interesting Developments Made in the Trial of the Case.**

LONDON, Nov. 20.—The Parnell commission is sitting. Attorney General Webster, counsel for the Times, complained of the difficulty experienced in bringing witnesses from county Kerry. He called the attention of the judge to an article in the Kerry Sentinel (Edward Harrington's paper) which stated: "The judges, composing the Parnell commission, are showing signs of measles now, although at the opening of the inquiry they appeared to be spotless. The judges were creatures of a conspiracy entered into by the government and the Times, and were manifestly united in their prejudices." The attorney general appealed to the court to take action in the matter, as such publication tended to defeat justice and amounted to gross contempt. Reed, in behalf of Harrington, complained that no notice of charge of this character having been given, it was absolutely impossible to make an answer at present. He asked that the matter be adjourned until to-morrow.

Presiding Justice Hanmon and the attorney general agreed to this and the matter stood over. The examination of witnesses was then resumed.

Farmer Culloty, of Castle Island, county of Kerry, testified that because he served notices on tenants in 1882 two men visited him, and one of them struck him with a spade, and the other shot him in the leg. The leg had to be amputated. He was afterwards boycotted. On cross-examination he said that the quarters of the nearest branch of the league was six miles distant from his farm. He considered rents throughout Kerry too high. He denied that the two men who attacked him were relatives of a servant girl whom he had wronged.

## LABOR QUESTION.

**Effect of the Scott Exclusion Act on the Labor Market.**

**CHINESE LABORERS ARE SCARCE.**  
The Prospects for Whites Finding Employment in California Better Than Ever Before—Some Figures.

Alta California.

The action of the recent measure in stopping the influx of Chinese laborers to this coast has already begun to bear fruit. The demand for labor has increased to such an extent that the wily managers of Chinese laborers in this State are taking advantage of the fact to seek a higher rate of wages for those in their care. The reason given for the action of the Chinese managers is that, owing to the exclusion act, the source of supply has been cut off and that laborers are scarce. There is no scarcity of white laborers in this State, as the employment offices are crowded with applicants, ready and willing to take the place of the Chinese if they can command fair living wages. Several hundred men recently left this city for the northwest to perform railroad work.

Manager Brown, of the State Board of Trade, says that if he were given two days' notice he could get 500 men and boys to go to work anywhere in the country. Recently, when the board had orders for boys to go into the country to harvest the vintage, the headquarters were filled daily with applicants for work. After all orders had been filled, the applicants still continued to come to the board for employment. The names and addresses of 500 applicants were taken for future reference, and still such large numbers applied that the registering had to be given up. Of all the help sent out there have been no complaints to speak of, all of them giving entire satisfaction, and performing the work much more expeditiously and better than the Chinese whose places they had taken.

There is a good demand for white help in Redding, Wasia county, where the people some time since discovered that they could get along better without the Chinese than with them, and have since employed nothing but white labor. White help is also needed at Eureka.

Formerly the reason given by farmers and orchardists for favoring Chinese was on account of their cheapness. The present time is a good opportunity to show their sincerity and preference for white labor, as the demands made by Chinese laborers have placed the matter of expense nearly on an even footing. No industry would suffer by a sudden and general discharge of Chinese help throughout the country, as their places could be immediately filled by whites.

**A Speculator Suicides.**  
CHICAGO, Nov. 20.—Geo. Foebel, a board of trade man, who lost \$40,000 on September wheat and corn, suicided by shooting this morning.

**Coming to the Pacific Coast.**  
CHICAGO, Nov. 20.—The Korean minister and two other members of the legation here, are on their way from Washington to the Pacific coast.

**Which Was It? Bacon or Shakespear**  
The authorship of the dramatic productions contributed to the last of the above named is agitating literary circles to the very center but affects the practical masses far less than the momentous question, how to regain or preserve health, that essential of bodily and mental activity, business success and the "pursuit of happiness." We can throw far more light on this subject than the most profound shakespearean can on the question propounded. If the system is depleted, the nerves shaky, if indigestion or constipation bothers one at times, or constantly, if the skin is yellow and tongue furred as in biliousness; if there are premonitory twinges of oncoming rheumatism or neuralgia; if the kidneys are inactive—use Hostetter's Stomach Bitters; the finest recuperant of an age prolific in beneficial and successful remedies. Remember if malaria threatens or afflicts, that it neutralizes the poison and fortifies the system.

**Personal.**  
Mr. N. H. Frohlichstein, of Mobile Ala., says: I take great pleasure in recommending Dr. King's New Discovery for consumption, having used it for a severe attack of Bronchitis and catarrh. It gave me instant relief and entirely cured me and I have not been afflicted since. I also beg to state that I have tried other medicines with no good result. Have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend.

**Dr. King's New Discovery for Consumption, Coughs and Colds, is sold no a positive guarantee. Trial bottles free at Foshay & Mason.**

**Given Away.**  
W. F. Reed proposes to give away a fine gold watch with his gold and silver prize shirt, the very best fitting and best made white shirt in the market. The price is as low or lower than any equally as good shirt in the market.

Dr. J. V. Gaff, physician and Surgeon, Shedd Oregon.
