Children Cry for Pitcher's Castoria

A Warning.
The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue they pass on to the lungs producing consumption and to the head causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness, allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or chest, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.
