May Davis, resp. vs., S. P. Sladden, app., appeal from Linn county, argued and submitted.

State of Oregon upon relation of P. A. Davis, et. al., resp., vs. Adolph Wolf, et. at., apps., appeal from Marion county; judgement of the court below affirmed, opinion by Strahan, j. This decides the Silverton city election contest. At the city election held in Silverton last May the prohibitionists used ballot paper which had been left over from that purchased from the secretary of state for the use of the general election of 1886 and was tinted. The citizen's ticket was printed upon white paper furnished by the secretary of state. The canvassing board refused to count the ballots printed on tinted paper, thus electing the citizen's ticket entire, although several of the prohibition candidates had a majority of the votes cast. An action was commenced in the circuit court to have these ballots counted and Judge Boise held that the ballots were legal and should have been counted. The case was then appealed to the higher court which affirmed the decision of the lower court. The effect of the decision is that paper once purchased of the secretary of state can be used at subsequent elections. Following is the syllabus: The ballot paper duty of the secretary of state, section 2507, Hill's code, has shifted the duty of the selection of suitable ballot paper from the individual voter to the secretary of state. Ballot paper, use of surplus at succeeding election, under section 2507 supra, a political committee may purchase of the secretary of state "such quantity or amount of paper as may be necessary or convenient" and its use is not limited to a pending election or the next ensuing; the surplus, if any, may be used at any subsequent election. If tinted paper be selected by the secretary of state and furnished for ballot paper, ballots printed on it are lawful and must be counted.

The Astoria Railroad.

The Astorian of a recent date says: Mr. Henry B. Thielson, chief engineer of the Astoria and South Coast Railway company, with his staff of surveyors, has been engaged during the past week in taking soundings across Young's Bay, on the line of the proposed trestle work and drawbridge for the A. & S. C. railroad, and also at the mouths of Young's and Lewis and Clarke rivers. Another day will finish the work, then the map the law requires to be furnished the secretary of war before an act of congress granting the right of way and authority to construct a drawbridge can be passed, will be prepared and forwarded to the war department. But few people are aware of the amount of preliminary work that of necessity is connected with, and has to be performed, before more active operations can be commenced, and contracts for grading, etc., entered into on a newly projected railroad, but all interested rest assured that the directors of the Astoria and South Coast road are pushing forward as fast as possible.

Attempted Train Wreck.

An attempt was made Tuesday morning to wreck the Oregon express. At a point near the American river bridge two ties were found on the track by the engineer of a freight train. An examination showed that the spikes had been removed from the rail and the ties so arranged as to derail the train. The obstruction, no doubt, was intended to throw the express off the track for the purpose of robbery. The train usually runs at a high rate of speed at this point, and would have gone over an embankment had an accident occurred. It is suspected that Black Bart figured in the dastardly attempt to wreck the train.

Death of Clara Awbrey.

Died, in Waterville, on Nov. 20, 1888, of typho-malarial fever, Clara Awbrey, aged 22 years. With all the heart aches that have been occasioned by the epidemic that has visited the Big Bend the past few weeks, there is none that has caused a more general sadness than the subject of this notice. Miss Clara came to Waterville but a few weeks ago from Oregon, where she was born and raised. She was possessed of all the graces that is admired of woman, together with that greatest of blessings, good health. Her amiable manners at once won her many friends, and when she was prostrated with the fever that has been so fatal a unanimous hope was expressed that she might be spared. During the days she patiently struggled with the changes of the fever, her loving mother and sister never tired of ministeringto her comfort. Friends offered their assistance—nothing was ommitted that was thought would contribute to her recovery or comfort. But "He who holdeth our crowns in His hands" claimed her and to him should the sorrowing mother morther, father, brothers and sisters look for strength and comfort.—Waterville, W. T., Empire.

Resigns.

Mr. E. L. Thompson desires us to announce that he most respectfully declines the nomination for assistant chief engineer, tendered him by No. 2's on last Monday night. Business interests will prevent Mr. Thompson from devoting as much time to the office as he thinks would be necessary, hence his resignation.

THE CHINESE SHOOTING.

Result of the Inquest Over the Dead Chinamen in Portland.

The coroner's jury over the bodies of the two dead Chinamen, victims of the quarrel between the Chinamen at the corner of Second and Alder streets in Portland on Sunday where a lively battle and a perfect fusilade of bullets pervaded for awhile, was that the men were killed by Chinese shooters unknown to the police, one of the shooters being Wong Sing. Two more of the wounded Chinamen are likely to die of the wounds inflicted. The results of the fray will be that the better class of the Chinese residents of Portland will join with the mayor of the city and the police in endeavoring to entirely break up the highbinder Chinese societies, which are said to be the cause of the riot.

HAVE YOU A COLD in the head which does not get better? Have you an excessive secretion of mucus or matter in the nasal passages which either must be blown from nose or drop back behind the palate, or hawked or snuffed backward to the throat? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent soreness of the throat, ringing or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dullness or dizziness of the head, dryness or heat of nose? Have you lost all sense of smell? Have you a hacking cough? Have you dyspepsia? Is your breath foul? IF SO YOU HAVE THE CATARRH. Some have all these symptoms, others only a part. The leading symptom of ordinary catarrh is increased secretion of mucus of yellow or greenish colored matter.

Foul breath is caused by the decomposing secretions exuded from festering ulcers far back in the head; sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are indeed objects of pity, as stench from corroding sores reveals the corruption within.

As every breath drawn into the lungs must pass over and become polluted by the relics in the nasal passages, it must necessarily follow that poisoning of the whole secretion gradually takes place, while the morbid matter that is swallowed during the sleep stems into the stomach, enfeebles digestion, and often produces dyspepsia, and finally great anxiety, nervousness and consumption.

DO NOT PROCRASTINATE.

If you have experienced any of the above symptoms do not delay, but try CALIFORNIA CAT-R-CURE at once. We positively guarantee a few applications to relieve and a thorough treatment to cure. Six months treatment for $1.00; sent by mail
