Orders may be left at Will Bros., or at the St. Charles hotel', 'When Albany has a transcontinental Eastern railroad, the Oregon Pacific completed, the route to San Francisco via Yaquina on the south and the road to Astoria on the north, this city will in truth be the railroad and business center of the great Willamette Valley, and indications are most promising for the consummation of just these things', 'Phil Cohen, who sometimes buys hides in connection with his general merchandise business, has received a letter from an eastern firm in which it is stated that bear skins are worth from \$3 to \$4 more if taken off entire, head, claws and all. Those who have been cutting off the scalp for the \$2.50 bounty offered by the county should make a note of this', 'The Astoria Pioneer says a large redwood log came ashore near Smith's point a few days ago. It was about twenty feet long and nearly three feet thick. The nearest place that such a log would be likely to come from is Humboldt bay, about 600 miles down the coast. If this stranger came from there it would be interesting to know just how long it has been on the way, and where it went before coming clear up to the Columbia and in over the bar', 'French keeps railroad time.

THE OREGON LEGISLATURE.

The Solons Wending Their Way to the Capital—Prospective Laws.

From all portions of the state the members of the fifteenth biennial session of the Oregon legislature are wending their way toward the state capital. Senators S. A. Dawson and R. A. Irvine, of Linn county will go to Salem Friday, and the representative will probably be assembled in the capital city by Saturday night. Senator A. C. Stanly and Representative W. K. Price, of Jackson county, are in the city on their way to Salem. The state house, it is said, now presents a busy scene. Governor Penoyer is busily engaged preparing his message to the legislature, which he expects to make as concise as possible; the different officers and their assistants are busily engaged on their reports, which will be very minute and exhaustive; numerous hands are engaged making everything clean, neat and orderly for the advent of the lawmakers; these solons are beginning to come in, and are to be seen looking over the scene of their labors and picking out seats. Expectant pages, clerks and other anxious ones pace the corridors, watching for an opportunity to button-hole the "country member," and all its bustling activity. Among the bills to be introduced early in the session are the following: Creating a registry law. Creating the office of state attorney-general. Creating a mining bureau and the office of state mineralogist. Protecting trees against insects. Prohibiting killing deer for their hides. Relating to the disposition of dead women's property. Amending the mechanics' lien law. Exempting homesteads from execution. Making a record of the redemption of property sold at tax sales. Making the index a part of the record of deeds and mortgages. Discharging a mortgage on filing of an affidavit by the mortgagee. Making judges of the state circuit court magistrates. Making it discretionary with a court as to how jurors shall be drawn. Giving the state jurisdiction over crimes committed on the Snake and Columbia rivers. Making an appropriation of \$14,000 to equip the Portland light battery. Giving the Boys' and Girls' Aid Society additional power. It is probable that a small portion of the time of the session will be consumed by the election of U. S. senators. The legislature stands 72 republicans and 18 democrats.

The Albany and Astoria Railway.

The people of Astoria are in earnest about co-operating with Albany in the construction of the proposed railway between the two cities. The Astoria Pioneer republishes the article which appeared in the HERALD on the 6th inst. concerning the road, and says: 'With the above article the Albany Herald publishes a handsome view of Astoria, which reflects great credit upon the enterprise of that paper. Astoria and Albany are directly interested and will be equally benefited in the building of the road. Neither city can expect any assistance from Portland, and in fact they will be better off without it. They have grown without our assistance, and will continue to do so, if the citizens will recognize the fact, and push, instead of pull back.', 'Where Was the Trouble? Messrs. Jacobs & Nougass desire us to state that the 130 Chinamen sent from Albany to San Francisco were not brought up from Frisco by them but by Searles & Deane and were afterwards turned over to them, also that the Chinese contractor under whom they worked had been paid for all work and over \$300 in excess. The query will naturally arise what did the Chinamen do with the money and why were they destitute, or did the Chinese contractor get all the money.', 'Probably a Mistake. It was reported in this city yesterday that the farm house of Elias Keeney, at Halsey, was burned early yesterday morning with all the contents. In response to an inquiry a dispatch from Halsey was received at this office last night stating that it was probably a mistake, as no information of such a fire had been received at that place.', 'Death of Charlotte Monteith. Mrs. Charlotte Monteith, widow of George Monteith, died at her home in Corvallis yesterday, aged about 60. She was a sister-in-law of Thos. and Mrs. Walter Monteith of this city, and formerly resided in Albany, being one of the pioneer women of the state. By her death an estimable woman has passed over to join the dear ones gone on before. The funeral will occur from the First Presbyterian church at 11:15 to-day.', 'CARD OF THANKS. To the many friends who kindly tendered their aid and sympathy during the illness and burial of John Saltmarsh and to Albany Engine Co. No. 1, we desire to express our heartfelt thanks, and the same is hereby tendered.', 'THE FAMILY. ATTENTION CHURCHES. An adjourned meeting of McPherson Post G. A. R. will be held at their hall on Friday evening, Jan. 11, 1889. A full attendance is desired. By order of E. F. SOX, Post Commander. B. F. TABLER, Adjutant.

STATE WEATHER BUREAU.

A Bill That Will be Introduced at the Coming Session of the Legislature.

In view of the fact that the climatology of the state has never been observed and recorded in three-quarters of the state as is necessary for the best promotion of the various industries, and the further fact that Oregon possesses within its borders all the varieties of climate, and these varieties are but dimly understood by the citizens of our own state, and to the outside world they are almost unknown, the following bill has been prepared to be presented to the coming session of the legislature: SECTION I.—That there shall be and hereby is established in the state of Oregon, a weather service, which shall consist of a director and an assistant director, and one or more meteorological observers in every county in the state. SEC. II.—That the governor be and is hereby authorized and directed to name and appoint a director of the state weather service, who shall hold office during the pleasure of the governor and who shall be duly qualified as like officers of the state. SEC. III.—That the chief signal officer of the United States army shall appoint the assistant director. SEC. IV.—That on the recommendation of the director and his assistant, the secretary of state be and is hereby authorized and directed to name and appoint one or more competent meteorological observers in each county of the state for the purpose of recording and transmitting meteorological observations to the central office. SEC. V.—That the secretary of state be and is hereby authorized and directed to purchase and furnish to each of said observers such standard meteorological instruments as are used by the United States signal service, and such flags and other necessary equipments as be designated and approved by the director and his assistants. SEC. VI.—That the central office of the Oregon state weather service shall be located in the city of Portland, Oregon, and to which the state weather service observers shall send their reports. SEC. VII.—That the director and his assistant shall receive all reports and reduce them to tabular and other forms, and shall disseminate results of the same by all available means, and make a monthly report to the state printer for publication as "Oregon State Weather Service Report," co-operating with the United States signal service. And to make an annual report to the governor, detailing the operations of the service during the year. SEC. VIII.—That the state printer be authorized and is hereby directed to print such blanks, circulars and other forms as may be required by the director or his assistants, and to print all reports, not less than 2000 copies each, of the Oregon state weather service submitted by the director or his assistant. SEC. IX.—That the services of said director, his assistant, and of the observers of the Oregon state weather service shall be without compensation or expense to the state of Oregon. SEC. X.—That the sum of two thousand (\$2000) dollars be and the same is hereby appropriated out of any money in the treasury not otherwise appropriated for the purpose of carrying into effect the provisions of this act. SEC. XI.—That there shall at no time be paid to any one any compensation whatever out of the money hereby appropriated except such sum, not to exceed twenty (\$20) dollars a month, as shall be decided upon by the director and his assistant for the pay of clerical hire. SEC. XII.—This act shall take effect from and after its passage and approval by the governor.

The Widow Gets a Verdict.

The case of Elva Christian against C. N. Scott, receiver of the Oregonian Railway for \$5000 damages on account of the death of Wm. Christian, her husband, at Brownsville, has been decided. The jury returned a verdict for the plaintiff for \$3000. Counsel for the defense talk about having another trial, but have not yet decided the matter. Attention Sir Knights. A stated convocation of Temple Commandery No. 3 will be held at their assembly (Thursday) evening at 7:30 o'clock. Business of importance to come before the meeting. All members are notified to be present. Visiting Sir Knights cordially invited. By order of the E. C. GEO. E. CHAMBERLAIN, Rec.

An Incompetent Pilot Discharged.

A dispatch from Yaquina states that William Kelley, agent of the Oregon Development Company at that place, and bar pilot, who had charge of the steamship Yaquina Bay when she was wrecked inside the harbor, has been discharged from the services of the company. C. J. Stuart, traveling agent of the Oregon Pacific, has been appointed temporary agent. No bar pilot has yet been appointed. A Child Killed. Another child killed by the use of opiates given in the form of a cooling syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Acker's Baby Soother. It contains no opium or morphine. Sold by Foshay & Mason. If you want a clean and fine smoke ask for J. Joseph's home made white labor cigars. For sale by most cigar dealers and at J. Joseph's factory. A fine line of solid gold watches at Will & Stark's.

SCHOOL BOOK CHANGES.

The Monopolies Accomplish Their Work as Predicted Some Time Ago.

State Superintendent McElroy has finished canvassing the votes of the several county superintendents upon the question of text books in the public schools of Oregon for the four years beginning October 1, 1889, and has issued a circular letter to inform teachers and all others interested as to the result. From this it appears that the changes sought by the school book monopoly have been secured, the great fight made being for the introduction of the National series of readers and Fish's arithmetics. There is to be a free exchange of all readers, to continue in force long enough to permit all the schools in the state to be supplied. On Fish's arithmetic the exchange price is to be 15 cents for No. 1, and 30 cents for No. 2. On Robinson's Algebra the exchange price is 60 cents, and on geometry and trigonometry 90 cents. Following is a complete list of text books adopted, among which are several new ones, involving no change of books. These are marked below with an asterisk: PRIMARY AND INTERMEDIATE GRADES. Orthography—Watson's child's speller, Watson's complete speller, Swinton's model word blanks, Mason's spelling blanks, and Swinton's new word analysis. Pronunciation—Webster's dictionaries. Reading—The New National series, instead of "Independent" series. Penmanship—Spencerian system of copy books. Arithmetics—\*Piper's Seat Work, Fish's Written arithmetics, Nos. 1 and 2, instead of Brooks' and Brooks' normal mental arithmetic. Descriptive geography—Monteith's elementary geography, and Monteith's comprehensive geography (both Pacific Coast editions). Grammar—Language lessons—\*Short studies in English and Sill's grammar. History—\*Barnes' primary history and Barnes' brief history of the United States. Science—Monteith's popular science. Literature—Westlake's common school. Drawing—\*White's Industrial—Primary and intermediate numbers. Vocal Music—Loomis' series, Nos. 1, 2 and 3. Natural History—Tenney's Elementary. FOR HIGH AND ADVANCED SCHOOLS. Arithmetic—Brooks' Normal Mental and Fish's Written Arithmetic, 2d part. Algebra—Robinson's Algebra, instead of Brooks'. Geometry and Trigonometry—Robinson's, instead of Brooks'. Geography—Guyot's Physical. \*Grammar—Clark's Normal Grammar. History—Barnes' General History. \*Composition—Bardeen's. Physiology—Steel's Fourteen Weeks. Citizenship—Young's Government Class-book. Book-keeping—Bryant and Stratton's, instead of Lytle's. Business Forms—Ward's. Drawing—White's Advanced Numbers in Drawing. Vocal Music—Loomis' Nos. 4 and 5. Letter Writing—Westlake's. Chemistry—Steel's Fourteen Weeks. Natural Philosophy—Steel's Fourteen Weeks. Botany—Steel's Fourteen Weeks. \*Astronomy—Steel's. \*Geology—Steel's. Caution to Mothers. Every mother is cautioned against giving her child laudanum or paregoric; it creates an unnatural craving for stimulants which kills the mind or the child. Acker's Baby Soother is specially prepared to benefit children and cure their pains. It is harmless and contains no opium or morphine. Sold by Foshay & Mason. We Can and Do. Guarantee Acker's Blood Elixir for it has been fully demonstrated to the people of this country that it is superior to all other preparations for blood diseases. It is a positive cure for syphilitic poisoning, ulcers, eruptions and pimples. It purifies the whole system and thoroughly builds up the constitution. Notice. CHAMBERLAIN, CLERK.
