T. C. Patterson, of Portland, Or., claims that nearly all the land where the town of Stratford, Conn., now stands, belonged to the heirs of Hezekiah Patterson, who died in 1760. Patterson, it is claimed, left the property to his wife, on condition that if she married again it should go to her children. Mrs. Patterson married and disposed of the children by binding them out.

Boys kill suits at W. F. Read's.

THE MINING DISPUTE.

A Demur to the Complaint Argued and Overruled—The Case Continued.

The case of A. B. Woodin and others vs. Dr. E. O. Smith to recover possession of the mining claim on the Sautiam now in dispute between Dr. Smith, of Portland, and a company of citizens of this city and Salem, was begun in Justice Humphrey's court yesterday.

The attorneys for the defense occupied several hours yesterday in arguing a demur to the complaint on the grounds that the court did not have jurisdiction and that the complaint should be dismissed for the reason that under the state law the plaintiffs had abandoned their claim to the mine.

The attorneys for the plaintiffs argued that the claim was held under the U. S. law, the provisions of which would entitle them to the claim. The court held that the U. S. law was good and overruled the demur.

The plaintiffs were given until 5 o'clock to file an answer, which they did, and the case was postponed until 9 a. m. Tuesday.

The history of this claim, which is known as the "Red Bull," is that in June, 1837, M. B. Bilyeu, Harvey Massey, Amos Strong, A. B. Woodin and A. A. Rhodes located the ledge, sinking a shaft ten feet, exposing the ledge and taking out quartz from which they washed free gold. They located the boundaries, staked off the claim and put up notices on June 22, 1837; recorded the claim in the clerk's office on July 14, 1837.

They returned and worked several days on it in September, 1837, again in June, 1838, were on it looking after it in September, 1838, and in December, 1838, were on it with hands, numbering six men in all, and put in 26 days work, running a tunnel and building a house with the intent of working all winter.

Dr. Smith in September, 1838, considered the law and that the claim was jumpable until on it during their absence, putting up notices and claiming it. On Christmas Dr. Smith learned that the Albany company were at work on the claim, and went before squire Lyons, made information that they were taking ore from his claim, and taking a constable with him went to the mine and threatened to arrest them if they did not desist. As has already been published in the HERALD they came out seeking legal advice, but returned in two or three days to their work when they were arrested by a constable sent for the purpose, and tried before Squire Lyons as has been published. The suit is now in possession of the mine.

Business Change.

Messrs. S. W. Smith and Edward Washburn, who have been engaged in the hardware business in Cropp, Illinois, for about seven years, have purchased of W. C. Tweedale his hardware establishment in this city. The firm is Smith & Washburn and both are energetic business men. They will increase the size of the stock, and become permanent citizens of Albany. Mr. Tweedale will take a rest from business for a short time and travel for the benefit of Mrs. Tweedale's health. He expects, however, to remain in Albany and engage in some other business here. He has been engaged in business in Albany for 28 years.

What the Girl Said.

The Baker City Reveille claims that a girl in that town who wanted a pair of garters a few days ago entered a store and addressed the young man who presides behind the counter thusly: "I desire to obtain a pair of circular appendages capable of being contracted or expanded by means of oscillated burnished steel appliances that sparkle like gold leaf setting with Alaska diamonds, and which are utilized for retaining in proper position the habiliments of the lower extremities which innate delicacy forbids me to mention."

CITIZENS' MEETING.

All persons interested in the prosperity of Albany are requested to meet at Stewart & Sox' on Tuesday evening, January 15, for the purpose of organizing a Building and Loan Association. The object of the association and the principles on which it will be organized and run will be fully explained and made plain at the meeting.

MANY CITIZENS.

The Smallpox Patients.

The three smallpox patients in the family of Mrs. East have nearly recovered. The last of the nurses, E. B. Davidson, was discharged yesterday, all the patients being able to help themselves. They will be out probably in a week or ten days, or two weeks at farthest. This is all the smallpox there is in the city.

County Prisoners.

There are now only three prisoners in the county jail. They are Bannion, the Lebanon bank robber, Lewis Taylor, held for an assault with a dangerous weapon, and Louis Horton, held for petty larceny.

Plenty of Light.

Albany is better lighted at the present time than ever before, all owing to the fact that Pearl coal oil can be bought for \$1.25 per 5 gallon can at the Willamette Packing Co. store.

Why is it?

The Willamette Packing Company are selling such an enormous quantity of Canned Fruits and Vegetables.

Because they are the best and of home production.

To arrive in a few days, a nice variety of toys and holiday presents at C. H. Spencer's.

FROM THE CAPITAL.

A Bash for Positions—An Appeal From Pomona Grange.

SALEM, Jan. 11.—A large number of legislators are in the city, and are besieged by candidates for clerkships, doorkeepers, pages, etc. The Marion county Pomona grange passed resolutions asking the legislature to memorialize congress to create a department of agriculture, and make the commissioner a cabinet officer. Also to amend the constitution of the United States, so that senators may be elected by direct vote of the people, and until such amendment the legislature is urged to elect some reliable and practical agriculturist as senator. Also in favor of sustaining the mortgage tax law.

Articles of incorporation were filed in the secretary's office by the Telfer & Stearns Real Estate Company. N. G. Telfer, G. M. Stearns and E. Quackenbush are incorporators; principal office, Portland; capital stock, \$50,000.

COAST NOTES.

At Eugene last Sunday a little boy, aged 12 years, was playing with a pet deer, when the animal thrust both horns through the hands of the boy, inflicting a painful wound.

The Ashland Tidings says: A half-breed Indian, "Billy" Crane, who lived for a time near Ashland, and by his industrious habits and good character gained the respect of all who knew him was drowned in Klamath lake last Monday near Modoc Point, by breaking through the ice while trapping beaver. His body had not been found at last report. He leaves a family.

The Newport Republican says: The engines of the Yaquina Bay are being taken out of the hull by a crew of men under charge of Bob Campbell. It will take some time to remove them. The boilers are seven years old, and it is thought they are not worth the expense to remove them while the hull lies in its present position. The vessel will be completely stripped of everything that can be moved.

George Brown, Jr., of Eagle Point, Jackson county, met with a fatal accident while out gunning near that place last Tuesday. He was crawling through thick brush near J. J. Fryer's place, dragging his gun after him, when the weapon was discharged, and the charge striking an old-fashioned powder horn hanging by his side full of powder caused it to explode, also. A terrible wound in the thigh was the result, from which he died a few hours afterward. Mr. Fryer heard the report and heard some one calling afterward, but it never occurred to him that any one was shot and needed help. About two hours afterward he accidentally discovered the young man, nearly dead from the shock and the loss of blood. He immediately took him to his father's home and efforts were made to save him, but he rapidly sank, and soon died. Deceased was in his 15th year. His father, George Brown, was formerly a resident of Jacksonville, where the affliction of the family calls out the sympathy of many friends.—Tidings.

It is Enterprise That Wins.

The business men of Corvallis, Albany and Astoria are projecting railroads to build up their respective towns. But since Wm Reid finished his road Portland men seem to have concluded that railroad building was finished. It would be a sad commentary on Portland enterprise if Albany, Oregon, should secure connections to Astoria before Portland does. Albany would then have two good seaport outlets. Hurray for Albany. Go in and win. It was Seattle pluck and push that gave form to its Lake Shore & Eastern road. Courage is half the battle in this world, and counts for towns just as for private individuals.—Portland News.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe cold; attended with a distressing cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Reduced in flesh, and had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief and after using a half dozen bottles found what he claimed for it. Had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption Guaranteed to do just what is claimed for it. Trial bottle free at Foshay & Mason.

THE BEST LIFE INSURANCE CO. WHICH IS IT?

Companies and Agents are not disinterested witnesses. Policy holders are—and scores of them, after long and large experience in the leading companies, bear testimony similar to that of

MR. R. NUNN-MACHER, A well known banker, of Milwaukee, Wis. After maturing and being paid a twenty year endowment policy in the

NORTHWESTERN MUTUAL LIFE Which returned him his outlay, with OVER SIX PER CENT

COMPOUND INTEREST.

He says: "Knowing the company and its management as I do I have no hesitancy in advising my friends, who desire good and safe investments, to secure Northwestern policies."

"I have secured the full limit of \$50,000, and consider the company the BEST IN THE WORLD."

The immense sale of Chamberlain's Cough Remedy has been produced to a great extent by people who have been cured by it telling their friends and neighbors of its good qualities and urging them to try it. The most severe cold will soon yield to its soothing effects. For sale by Foshay & Mason.

The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it, and be prepared to arrest it as soon as it first symptoms appear. True croup never comes without a warning; a day or two before the attack the child will become hoarse, and that symptoms is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided; it has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For sale by Foshay & Mason.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that every one, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly, and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all proceed dangerous and slow, and will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

Rev. W. D. Humphrey, of Eugene, will preach at the Christian church in this city on Sunday.
