The prosecuting witness was also held in \$200 bonds for his appearance.

A PLEASANT RIDE.

Out to the Front on the Oregon Pacific—New and Thriving Towns.

An invitation from Mr. Wm. M. Hoag, vice-president of the Oregon Pacific railroad, to take a ride on a special train to the end of the eastern extension of the road, was eagerly accepted by the senior editor of the HERALD yesterday. Mr. Hoag was on his way to look over the line and the grading completed and in progress beyond the end of the track as far up as the tunnel, 12 1/2 miles beyond Breton-bush, and generously took along a number of Albanyites to enjoy the ride. The party consisted of Messrs. John A. Crawford, Jason Wheeler, the Hackleman, F. J. Stites and S. S. Train, and were entertained by Mr. Hoag and Superintendent Bowen.

The fine road bed, over which the single passenger coach of which the train consisted, was rapidly and smoothly drawn, was observed; the substantial bridges over the two Santiams, the one on its solid iron and concrete piers, the other on its perfect rock abutments, were admired. The thriving new stations springing into existence almost like magic, the large lumbering and manufacturing mills at Mill City, were viewed, and before we hardly realized it we were at Fort Lock, the end of the track, five miles above Gates ville.

Here Engineer Eckleson met us and Mr. Hoag bade us good-by and pluckily started on his forty mile walk and inspection, a task that many a younger man would have hesitated at, but which Mr. Hoag entered upon with all the zest of a trained pedestrian. The workmen on the construction have all been brought in and the engineers will finish the estimates this week and come in, and the active work will be only in the shape of making preparations for an early start in the spring.

Superintendent Bowen, while laughing and joking in his pleasant way, was constantly keeping his eyes upon the track and road to see where to put in future work, and the splendid condition of the road bed is largely due to his efficient and pleasant management.

The party returned highly pleased with the pleasant ride, and the generous treatment of Mr. Hoag. We are sure that the entire citizenship of Albany will join with us in hoping that at no distant day the official force of the Oregon Pacific may become a part and parcel of ourselves by becoming citizens with us, in the removal of the offices and headquarters to this city.

THE ALBANY IRON WORKS.

A New Company Incorporated with a Capital Stock of \$10,000.

Articles of incorporation will be filed with the secretary of state today of the Albany Iron Works of this city. This is the reorganization of the company owning the J. G. Cherry foundry. The incorporators are E. F. Sox, Jos. T. Watson and August Costel. The capital stock is \$10,000. It will be the object of the new company to engage more extensively in the business, and manufacture of all kinds of machinery, building fronts, and run a general first-class foundry.

Limping.

Mine host J. A. Gross of the depot hotel limps a little with his right foot, the result of a too vigorous use of that member in assisting a would be burglar down the stairs the other night. The burglar tried to enter Mr. Gross' room, after having gone through two rooms of Leggers without obtaining any valuables, and failing to open the door went to the lead cook's room. Mr. Gross followed him up and invited him to descend the stairway in the manner indicated. Two of the employes, one of them with a pistol minus any cartridges, marched the robber off to the calaboose, where he was incarcerated, and was afterward held in \$500 bonds to await the action of the grand jury.

An Excellent Work.

Every family should have a standard atlas for reference and study. One of the best and most extensive and fullest is Cram's Family Atlas of the world. It is not only a perfect Atlas, but is also the latest and most extensive gazetteer issued. The work is being canvassed for in this city and vicinity by Joseph Tait, and every family should secure a copy while they have the opportunity.

About Street Railway.

An Eastern gentleman, who does not desire his name made public at present, has offered to establish a street railway system in this city, provided an exclusive franchise for a period of twenty-five years and a bonus of \$3000 is granted. A street railway would be desirable, the only question being as to the price demanded for starting it.

The Men All Paid.

Concerning the payment of the laborers engaged on the Oregon Pacific road eastward under Messrs. Searle & Dean, as well as those of J. R. Myers & Co., it might be of interest to know that the men have received all their money. It is learned from reliable sources that the company has procured the payment of the men on these contracts. The company certainly deserves credit for seeing the men paid, having advanced the money for a portion of it before the payments were due the contractor.

Die Lerolis.

Says that a diet of beans is better for the complexion than anything else. Consequently anybody who uses anything else don't know beans. Three tons of them have just been received by the Willamette Packing Co.

A DEPLORABLE SITUATION.

An Old Man Found Nearly Starved and Paralyzed in His Cabin.

A gentleman who came over from Yaquina yesterday states that an old bachelor named Brown, familiarly known as "Dumpy" Brown was found nearly dead Tuesday in his lonely cabin across the bay from Omecatta.

He was a queer old man and lived entirely alone. He had not been seen since last Saturday and Tuesday finding something might have happened to him several men went to his cabin and broke in the door. They found the old man partially paralyzed and lying helplessly upon the bed, where had lain since Saturday morning without food or water. He was nearly dead, but had a knife lying upon the bed by his side, and said that he had decided if he was not found by Tuesday that he would prevent starvation by cutting his own throat. He was taken to Yaquina City, where he was kindly cared for and medical assistance given. It is thought he may recover.

FROM YAQUINA BAY.

A Deputy United States Marshal Gives a Few News Items From That Place.

Deputy United States Marshal Roberts, who had promised himself the pleasure of conveying R. E. Janeway to the penitentiary, but missed connection on account of being sent to Yaquina to serve papers on J. W. Brassfield and wife, in the suit brought by District Attorney McArthur to condemn certain lands to the use of the government, reports business quite dull at the bay, and says the wrecked steamer Yaquina is lying with her nose buried deeply in the sand. All the machinery has been taken out of her and she is generally dismantled, and in her present condition looks like she might have lain in the sand for twenty years.

Captain Lord, her former master is at the bay in charge of the wrecked vessel, by direction of the board of underwriters. The pilot, whose name is Kelly, who brought her to destruction, has fled from this country, and no one knows where he has gone to, although considerable effort is being quietly made to find him. Considering the "ix" in which he placed himself it is not to be wondered that he is unwilling to stay in the country and face the music of the investigation.—Oregonian.

Farm Residence Burned.

The dwelling house of Taylor Foster at Rock Creek with all the furniture and clothing, was burned to the ground a few days ago. The fire was caused by the explosion of some gunpowder, which had been put near the stove pipe, upstairs, to dry. If any one had been in the house at the time the explosion occurred, there would, no doubt, have been something more serious to chronicle than merely the burning of the house, as a can of coal oil, also several loaded guns were near the powder. Two small boys left the house only a few minutes before the fire caught.

J. E. N. Bell Not Suspended.

When Governor Penoyer appointed the railroad commission he also appointed Rev. J. R. N. Bell as secretary, and when last Wednesday he dismissed the commissioners he did not dismiss the secretary. This leaves Brother Bell occupying an honorary position viz the secretaryship of a defunct commission.

As the secretary was appointed by the governor and had no intimation that his services were no longer required he will continue to fill the vacuum and draw his salary of \$2000 a year—at least until in receipt of advice on the matter.—Capital Journal.

Twenty-Five Years.

Perhaps the oldest editor in the state in continuous service on the same paper is Harrison R. Kincaid, of the State Journal at Eugene, which enters upon its twentieth-sixth year this week, without change in editorship of having missed an issue. The only change noticeable in the paper for ten years is this: The editor's name was formerly printed H. R. Kincaid and now it is Harrison R. This is a mere incident, however—nothing vain about the old man.

What On Earth.

Is the reason people will not, cannot or do not see any difference in cheap nostrums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as Beggs' Blood Purifier and Blood Maker, and every bottle that does not do its work will cost you nothing. The Sultan at present only allows excavations for antiquities, and does not allow them to be carried out of the country.

THE ANARCHISTS.

They Must Not Assemble in Bodies at the Graves of Their Dead.

CHICAGO, Jan. 23.—Superintendent Waldheimer of the cemetery in which the executed anarchists were buried has written to the trustees that it will be necessary hereafter to exclude anarchists from going there in bodies on anniversaries of the execution on the ground that lot owners seriously object. He recommends that hereafter only relations of the dead be allowed admittance.

Our Early Defenders.

Assistant Adjutant General A. E. Wilson has prepared a list of 552 names of the Oregon volunteers who fought in the Cayuse Indian war, together with the amounts due them, aggregating \$109,345. Among the list we find the names of Clark Rodgers, James H. Lewis and Clark S. Pringle, residents of this county.

It will be remembered that these men equipped themselves and went out on the frontier in an early day to subdue the hostile tribes of Eastern Oregon. They suffered all the privations that are known to Indian fighting in a wild country, much of the time they were imprisoned on were forced to resort to "horse beef" for sustenance. They gave their time and money to subdue a hostile race and reclaim a wild country and it would be a partial remuneration for their services now for the government to allow their claims.—Ohoce News
