The postoffice will be closed each evening from six to seven o'clock.

Registered matter for the early morning train should be mailed before 8 o'clock the previous evening.

RAILROAD MATTERS.

The effect that legislation has upon the railroad interests of the country, is decried and belittled as much as possible by certain parties, but it nevertheless has a salutary effect and its results will be for reaching and beneficent if judgement, good sense and equity control the future enactments and the administration of the law as enacted. In the matter of the enforcement of the inter-state law now in operatisn, we glean from the Springfield Republican that the railroad presidents in conference at New York reached an agreement on Thursday as to remedial plans quite unlike the "clearing-house" scheme at first reported as being in favor with them. It is an "interstate railway association," composed of one manager and one president from each road, which shall meet monthly, work for the enforcement of the inter-state law, and fix rates for the various roads represented, providing penalties of fines for all violations of the agreement. Each president shall be responsible for the rates of his road, and no changes can be made save by the board's approval. Subordinates caught cutting rates must be discharged, and all violations of the inter-state law will be reported to the commission. So far as rates are concerned, this plan is simply an extension of the various agreements formed between lines since pooling was prohibited; only that more stringent provisions are here made to prevent any violations. The determination to at last combine for the enforcement of the commerce law and assist in toning up present railroad business morality is a very commendable one and would of itself, without any rate agreement, do much to protect the properties from present scandalous management. But how willing some Western roads will be to join the association is uncertain.

THE SAMOAN AFFAIR.

The little island far away in the Pacific ocean, for the lack of exciting incidents in any other quarter, just at present forms a center of news attraction. The latest in regard to the matter indicates that Lord Salisbury, the English Premier, has concluded to join with the United States and demand that Germany shall observe treaty stipulations and international law in the treatment of Samoa.

The Chronicle thinks that we need not inquire too closely into the motives which induce Great Britain to join hands at this time and juncture with the United States in defense of the autonomy of Samoa. It is enough to be assured that she will uphold the treaty stipulations and obligations, and will insist that the convention between the three nations, the United States, Great Britain and Germany, is not a mere rope of sand, to be broken at the pleasure of any one of the contracting parties, but that it is a valid and subsisting agreement, binding upon all alike and to be kept inviolate.

The view which Salisbury takes of the Samoan question indicates that he does not attach as much importance to the formal declaration of war on the part of Germany as Mr. Bayard seems to have done. Count Arco, the German Foreign Minister at Berlin, informed Mr. Bayard about the 10th of this month that a state of war existed between Germany and Samoa, and Mr. Bayard seems to have accepted the statement as literally true. Such a war would be an opera-bouffe sort of affair, but if the Secretary of State credited the German Minister he could do nothing for the actual defense of Samoa. There will be much curiosity to know whether a similar statement will be made to the English Embassador at Berlin.

No accounts yet received from Samoa raise the trouble there between the Germans and the Samoans to the dignity of a war. The Germans seem to have landed men on two occasions for the purpose of capturing Mataafa or destroying his fortresses and to have been defeated each time. But that does not constitute a war. It was at most but an attempt to depose Mataafa in the interests of Tamasese and to increase the influence of Germany in the islands.

As has been said before, there can be no doubt but that Germany will recede from the position which she has taken, if a positive and peremptory demand be made by the United States; and if Great Britain shall unite in such demand, the reply will be the better assured, for Bismarck is not foolish enough to insist upon the retention of Samoa in face of the opposition of two such nations as Great Britain and the United States.

REPRESENTATIVE clergymen of New York city have issued a call to the citizens of the city and the Nation asking that those "of every name and race and creed" "follow the example of their fathers and meet in their respective places of worship at 9 o'clock in the morning of April 30 and hold such religious services of thanksgiving and praise as may seem suitable in view of what God has done for us and our land during the century which has elapsed since George Washington took the chair of state."

THE steady growth of temperance sentiment in the United States is shown by the fact that eighteen states have adopted scientific temperance education laws, and congress has passed a law which insures the instruction of youth in principles of temperance in the school of the territories, the District of Columbia, and the military and naval schools.

THE North invested last year in Southern industries $168,000,000. Nearly $30,000,000 of this was invested in Alabama, which leads in mining and manufacturing enterprises in that section. Kentucky got $28,000,000; Texas, $18,000,000; and Georgia $14,000,000. The least amount invested was $2,000,000, which went to Mississippi.

Use Fahrney's panacea.

Produce taken in exchange
Very Respectfully,
PARDUE & UNDERWOOD.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City Fla., was taken with a severe Cold: attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, and had difficulty in breathing and was unable to sleep. Finaly tried Dr. King's New Discovery for Consumption and found immediate relief and after using a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption Guaranteed to do just what is claimed for it. Trial bottle free at Foshay & Mason

California Cat-R-Cure.

The only guaranteed cure for catarrh, cold in the head, hay fever, rose cold, catrrhal deafness and sore eyes Restore the sense of taste and unpleasant breath, resulting from catarrh, Easy and pleasant to use. FOR SALE BY

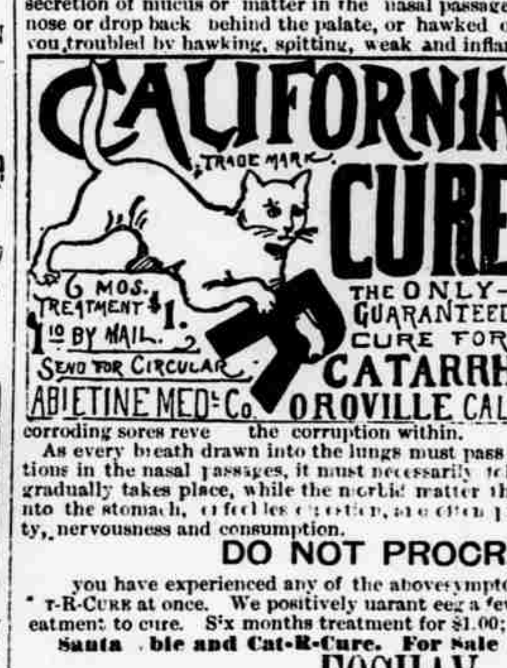
Foshay & Mason.

ALBANY - - OREGON

HAVE YOU A COLD in the head which does not get better? Have you an excessive secretion of mucus or matter in the nasal passages which either must be blown from nose or drop back behind the palate, or hawked or snuffed backward to the throat? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent soreness of the throat ringing or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dullness or dizziness of the head, dryness or heat of nose? Have you lost all sense of smell? Have you a hacking cough? Have you dyspepsia? Is your breath foul? IF SO YOU HAVE THE CATARRH. Some have all these symptoms, others only a part The leading symptom of ordinary catarrh is increased secretion of mucus of yellow or greenish colored matter.



Foul breath is caused by the decomposing secretions exuded from festering ulcers far back in the head; sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are indeed objects of pity, as stench from corroding sores reveals the corruption within.

As every breath drawn into the lungs must pass over and become polluted by the secretions in the nasal passages, it must necessarily follow that poisoning of the whole system gradually takes place, while the morbid matter that is swallowed during the sleep is carried into the stomach, enfeebling digestion, and often producing dyspepsia and finally general debility, nervousness and consumption.

DO NOT PROCRASTINATE.

If you have experienced any of the above symptoms do not delay, but try CALIFORNIA CAT-R-CURE at once. We positively guarantee a few applications to relieve and a thorough treatment to cure. Six months treatment for $1.00; sent by mail
