STATE DISPATCHES.

Newy Items from the State Capital—The Deaf Mute School.

Special to the Herald. SALEM, Jan. 25.—Supplementary articles of incorporation were filed to-day in the office of the secretary of state by the Brownsville woolen manufacturing company, M. Myer, F. F. Croft, J. P. Galbraith, incorporators, increasing the capital stock from \$25,000 to \$50,000. Articles were filed incorporating the Drain & West Coast Telegraph Co., M. Kuykendall, W. F. Perkins, Joe Lyons, R. L. Shelly, C. D. Drain, incorporators: capital stock, \$3000; principal office, Drain, Douglas county; object, to build, equip and operate a telegraph and cable line from Drain to Gardiner. The legislative committee appointed for that purpose visited the deaf mute institution to-day and were highly pleased with the management. Prof. Knight, superintendent, takes great pride in its industrial features and thinks the state ought to extend substantial encouragement. The youth are taught to manufacture brooms, articles, furniture, etc., and the girls to sew, knit, crochet and other household usefulness. The professor takes great interest in the pupils and is hard at work.

THE CITY CHARTER.

Some Opposition to the Increase of the Tax Limit and Indebtedness.

The bill amending the city charter of Albany, now pending is not in a situation most desired. A remonstrance to the section increasing the limit of the tax levy from 5 to 8 mills has been circulated and presented to the members; also to the clause increasing the limit of the indebtedness of the city from \$2000 to \$5000. It is also learned that the bill has already been so amended as to fix the limit of the tax levy to be made by the city council at 6 mills and fixing the limit of the city's indebtedness at \$2000. This would be no change from the present charter, which grants to the city council the right to levy a 5-mill tax and when the people so vote a 6 mill tax, which was the levy last year. It is understood that vigorous efforts will be made by the mayor, council and many citizens to have the limit of the levy increased and the bill passed.

COAST NOTES.

Baker City wants better hotel accommodations. Iowa creamery butter is advertised as a specialty by a Baker City merchant. Stock in Eastern Oregon is reported to be in prime condition, with little or no snow to injure grass. The Milton Eagle says they are having quite a variety of weather, but so far as can be learned there is yet no damage to fruit or grain. The citizens of Elgin, with commendable enterprise, have concluded to offer a bonus of \$2000 for the building of a flouring mill in their town. LaGrande Gazette: The railroad company has two or three extra trains supplying different points along the road with ice for next summer. The ice is taken from the river at North Powder. The house of Mr. Frank Bennett, at Philomath, burned to the ground on last Sunday night; no insurance. Most all of the household goods were saved. The cause of the fire is believed to be the work of an incendiary. The officers of the Telephone, while at Astoria last Sunday night, were wudely awakened out of midnight slumber by what is claimed to have been the severest thunder storm that has ever visited the mouth of the Columbia river. It occurred between 12 and 3 o'clock in the morning. The lightning was terrific, which was quite a phenomenon to the Webfooters. Wallora Chieftain: Joseph creek seems to be a natural home for wild animals. Last week Jim Olford shot three panthers down there, and the largest one of the trio, which it required four shots to finish, was nine feet in length, "from tip to tip," as the hunters say. It might be well to explain that Joseph creek is fully thirty miles from the town of Joseph. A car load of lobsters from the East has arrived on the coast, sent here by the United States fish commissioner to be planted at suitable places on the coast. We are informed by Senator Canthorn that he will try to have some of them sent to Yaquina. The Oregon Pacific has consented to transport them free and to take care of them and see that they are properly planted. It would be a good thing to have at Yaquina and we hope that the matter will be attended to.

Church Service.

Preaching services to-morrow at the Presbyterian church at 11 A. M. and 7:30 P. M. Y. P. S. C. E. prayermeeting at 6:30 P. M. in the lecture room. The sacrament of the Lord's supper and the reception of members by letter and on profession will occur in connection with the morning service. All will be made welcome to these services.

Leading physicians recommend Ayer's Sarsaparilla. Old and young take it with perfect safety. It cleanses the blood, strengthens the nerves, and vitalizes the system. Popular experience has long placed this medicine at the head of tonic alternatives. The great popularity of Ayer's Pills as a cathartic is due no less to their promptness and efficacy than to their coating of sugar and freedom from any injurious effects. Children take them readily. See Ayer's Almanac for this year, just out.

THE LEGISLATURE

The House Also Adjourns Until 2 O'Clock Monday.

HALEY CHARTER BILL PASSED.

A Few Other Measures Passed—Memorials to Pay for Claims Arising from Indian Depredations.

Special to the Herald. SALEM, Jan. 25.—The house adjourned at 11 o'clock to-day, after a short but busy session. Irvine's bill amending the charter of Halsey was passed. Hume's bill to prevent depredations in stealing stock by giving and courts more discretion in passing sentence, which bill was lost yesterday was to-day reconsidered and referred to the judiciary committee. The bill, which is a meritorious one, was lost on account of a clause, adding dogs to the list of animals. The members evidently did not believe that too rigid laws were needed to punish offenders for stealing dogs. The objectionable clause will probably be stricken out.

HOUSE—MORNING SESSION.

Opened with prayer by Rev. F. H. Post, of Salem, and the reading of minutes dispensed with.

Col. Harrington, of Multnomah, called to the chair. Committee on corporations reported Irvine's bill amending Halsey charter, with amendments, that no liquor license be issued for a less sum than provided by the general state law; passed as amended.

Maxwell's bill providing for six terms of county court in Tillamook county, instead of four; passed. Harrington's bill defining the duties of magistrates; passed.

Thompson's bill authorizing U. S. surveyors to enter private and public lands in performing their work, and to protect them; passed.

MEMORIALS.

Jennings—For a department of agriculture; ordered printed.

Earhart—For payment of claims arising from Indian depredations; adopted.

Smith—For the state to render aid that will afford temporary help in building a canal and locks at The Dalles and Celilo; referred to commerce.

The vote by which Hume's bill was lost, giving the courts more discretion in sentencing persons convicted of stealing stock, and including dogs in the list, was reconsidered, and the bill referred to the judiciary committee.

Adjourned until 2 o'clock p. m. next Monday.

Another Water Craft.

The contract has been let by the O. R. & N. Co., of Portland, to construct a new river boat for use on the upper Willamette. The steamer when completed will cost about \$20,000, and will not be an elaborate affair, as has been stated but will be built and used for carrying freight, with but little regard for passenger business. She will draw but thirteen inches of water, and in consequence will be able to run the year round except in extreme cases when the river is frozen over on the upper Willamette, where her route will lie. Work will begin on the boat at once, and she will be got out for use just as soon as possible.

Severe Injury.

The Lebanon Express says: John Roberts on last Friday sustained, while spitting rails, a small injury which caused him not a little pain and suffering. In striking the wedge which he was using a small piece of steel was split off and sent with such force as to find lodgment in the center of his left leg between the knee and ankle. Dr. Courtman, of Lebanon, assisted Dr. by Maston, of Albany, cut down on the steel and removed it.

An Excellent Work.

Every family should have a standard atlas for reference and study. One of the best and most extensive and fullest is Cram's Family Atlas of the world. It is not only a perfect Atlas, but is also the latest and most extensive gazetteer issued. The work is being canvassed for in this city and vicinity by Joseph Tait, and every family should secure a copy while they have the opportunity.

Astoria Railroad.

This is an opportunity that the citizens of Albany must not lose. It is the "golden egg," and all should unite in grasping it. Few can realize the immense advantage to be derived from it. The road must be built, and in order to raise enough money everybody should buy their groceries from Willamette Packing Co., as they undersell any house in the city.

Notice.

W. C. Tweedale, having sold his store and hardware business to Messrs. Smith & Washburne, desires all having unsettled accounts to come forward without delay and settle. For the new firm he solicits a continuance of the liberal patronage of the public.

The Fire Bell.

A fire alarm was sounded yesterday shortly before noon to which the fire companies promptly responded. It proved to be an incipient blaze in the Star brewery, which was extinguished by a bucket of water without damage.

Companions, Attention.

Regular convocation of Bayley Chapter No. 8, R. M. N. M. this evening at 7:30 o'clock. Members and visiting companions requested to be present. By order M. E. H. P. L. W. Langdon, secretary.

FROM MILL CITY.

Newy Items from this Thriving Town on the Oregon Pacific.

MILLS CITY, Jan. 29.

Our old friend C. W. Heniue has moved his family to our town. Lee Berry our butcher spent several days this week in Portland. Ed. Thompson was in Albany this week purchasing a stock of goods.

The O. P.'s warehouse is completed and is an ornament to the town. The Mill Company will soon erect an office between Hobson's store and the telegraph office.

The Cliff house is now completed and in running order, the dining room is in charge of Miss Beckie Stewart who will carefully look after the hungry.

Mr. Davis a bridge carpenter had the misfortune to fall off of a scaffold a distance of 16 feet the other day and jammed his foot, and now is laid up for repairs.

General Manager Hoag and Supt. Bowen of the O. P., passed through to the front on a special train this week and no doubt work will soon be resumed.

Several of our young folks attended the ball at Gates this week, and too much cannot be said of the courtesy they received by the managers of the ball.

O. P. Abram who runs the Santiam Logging camp at this place, came near killing one of his oxen Wednesday, he was using a large maple tree for a snubbing post when the tree gave away falling on the ox.

MR. DAWSON'S TOBACCO BILL.

A good citizen of our town said to me: "The people of the state ought to commend Mr. Dawson for his bill to prohibit the sale of cigars and cigarettes to minors, and encourage him and his colleagues to carry it through without failure."

We can as a public school teacher, pledge the hearty support of this bill by every school teacher in the state. Teachers doubtless know more of how cigarette smoking especially, is breaking down the mental powers of boys in the schools, than any other class of citizens can know about it; for we are all the time carefully looking out for the health and mental development of the boy.

Let the teachers and citizens generally of the state commend Mr. Dawson of Linn county for his interest in the boys of our homes and schools, who if steeped with opium and tobacco for a few years can never make good citizens.

W. T. VAN SCOY, Jefferson, Jan. 24, 1889.
