The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning; a day or two before the attack the child will become hoarse, and that symptoms is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided; it has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For sale by Foshay & Mason.

WHO RULE EUROPE. GENERAL NEWS.

Discussion of the Women's Suffrage Amendment. MRS. DENIWAY SPEAKS AGAIN. A \$20,000 Fire in Duluth, Minnesota—Grand Op. a House and Postoffice Burned—Foreign News.

The present Emperor of Germany is William II. He is 29 years of age. The Emperor of Austria, Francis Joseph is 58 years of age, and has worn the imperial crown for forty years.

The King of Portugal, Luis I., is 50 years old, and is a man of enterprise and progress. He has been twenty years a King.

The King of Sweden and Norway, Oscar II., is in his 60th year, and has reigned for sixteen years. He is a fairly liberal monarch, and has favored some reforms during his reign.

The King of Roumania, Carol I., is 49 years old, and was proclaimed King only seven years ago, but for fourteen years before that time he had been Chief of the Roumanians.

Farmers in the Sound country and islands are setting a good example in having their lands underdrained, as is shown by the following from J. C. Ayer to a Seattle paper.

The farmers of Whidbey island, about Coupeville, are becoming much interested in the drainage. Messrs. Gould & Jones have just completed the largest and most complete system yet laid in the territory, 30,000 feet, with a single ten-inch main long.

Mr. Thomas Calhoun has also laid 10,000 feet on the Highwarden plain in what is called joint clay soil. Mr. John Robertson is also about to put 20,000 feet on his ranch, seven miles down the island.

All these lands hold water so much that they cannot be worked early in the spring and much loss is caused in the season, and the quality is believed to be often much lower than it should be.

Dr. Calhoun was in town yesterday. I had laid out three miles of drains for him on the Swinomish flats last fall, and I asked him how they worked. He replied, "Very well, indeed. We got on to the land a month earlier in the spring and then the crop stood a week earlier than others. The oats were of very fine quality. Oats on the flats have had a bad name, but I now find we can raise them as good as elsewhere. My drains are twenty rods at most."

Underdraining Orchards. A recent issue of the Columbian (O.) Horticultural Society's Journal contains a discussion on this subject, of which the following are extracts. In answer to the question, "How does underdraining effect the apple?" Dr. Townsend said: "Underdraining makes the orchard grow twice as fast. An orchard underdrained is always more healthy, and stands the changes in the seasons better than one not underdrained. It is not affected by the drought so badly, nor by a wet season. Underdraining, too, helps to make the soils more porous, so the water that falls on it gradually sinks in, and the excess is carried off by the tile; being more porous, it retains more water in the soil, not on top of it; roots run farther through the soil and reach more moisture held in the porous soil than they would if the soil was harder. I underdrained my farm forty years ago, so have had some chance to see how old drains operate. I have a drain every two rods on 240 acres, and the drain has been an advantage in both wet and dry seasons."

Every mother is cautioned against giving her child laudanum or paregoric; it creates an unnatural craving for stimulants which kills the mind or the child. Acker's Baby Soother is specially prepared to benefit children and cure their pains. It is harmless and contains no opium or morphine. Sold by Foshay & Mason.

The immense sale of Chamberlain's Cough Remedy has been produced to a great extent by people who have been cured by it telling their friends and neighbors of its good qualities and urging them to try it. The most severe cold will soon yield to its soothing effects. For sale by Foshay & Mason.
