A TRIP TO THE MOUNTAINS. More Attachments Served on Searle & Dean, Railroad Contractors.

The Salem Statesman of Sunday has the following: Deputy Sheriff Wrightman returned yesterday from an official trip to the advance work of the Oregon Pacific railroad where he levied two attachments against the property of Searle & Dean, contractors, one in favor of Fleischner, Mayer & Co., of Portland, for over \$1000, and the other in favor of the Giant Powder Company for \$7000. He levied on the whole plant and stores from Don Smith's to near Breitenbusche, the space covered by Searle & Dean's contract, and placed in charge of the property Don A. Smith, Wm. Clark and George Cox. He also, while up there, released that portion of the Myers and Jacobs & Neugass plant lying above Breitenbusche, which has been under attachment, some of the claims having been satisfied, to give them a chance to handle their property and pay the remainder.

Mr. Wrightman found the trail from the end of the railroad in bad condition and the snow about six inches deep, but there is no snow on the ground at Don Smith's or for some distance beyond there. The railroad is finished and regular trains are running about a mile above Bad Banks. Manager Hoag went up to the end of the track Friday, took a horse there and rode up to within a few miles of the tunnel, it is presumed to investigate the condition and progress of the work, so as to move intelligently in the spring. The last squad of engineers, Mr. Eckleson's struck camp and came out yesterday, thus bringing all operations to a standstill for the present winter.

Business at Mill City is reported lively, the new mill there being one of the best on the coast and kept running to full capacity all the time. It took a good deal of trouble, time and money, the greater portion expended under discouraging prospects, to place that mill in good running order, but now the proprietors will reap the reward of their courage and industry. A year ago there were several thousand dollars expended, and a prospectively dead railroad a few miles away, which made the experiment a dubious one, but the road has been resurrected and the mill is there to meet the demand it brings, so the project is now an assured success.

Patents Granted. The following patents were granted to citizens of the Pacific States during the past week, and reported for the HERALD by C. A. Snow & Co. patent lawyers Washington, D. C.: P. Abrahamson, San Francisco, ventilator; J. A. Cole Julian, Cal., reversible plow; J. DeMonnin, Corvallis, Oregon, motion converter; J. F. Kolb, Oceanside, Cal., buggy bow support; G. W. Marsh, Oakland, Cal., automatic air brake; B. M. Price, Arroyo Grande, Cal., veterinary remedy; J. A. West, San Rafael, vehicle seat.

Finger Cut Off. Eugene Randall, who's working in Dillon & Co.'s furniture factory yesterday, had the misfortune to allow his hand to come in contact with the buzz saw, cutting off the index finger of his right hand. The wound was dressed by Dr. Ellis.

Fairley's celebrated blood purifier at Brownell & Stanard and at Devoe & Robinson's, P. O. Baltimore general agent. Use Fairley's panacea.

ALL OVER ABHORRE TRADE. A Bloody Fight With Knives and Swords—Both Participants Injured.

A serious altercation occurred yesterday afternoon in an old barn at the Stephens place in this city between A. T. Thomson and Jesse Clark, which may result in the death of the latter.

The participants had traded horses. Thomson started home and found that the horse he had traced for was worthless. He came back and proceeded to take his own, a shaver, and was accompanied by Geo. Sparrell and George Miller, essayed to keep the horse traded by Thomson. Thomson received a wound on the top of the head about four inches long which is not dangerous. He drew his pocket knife and stabbed Clark in the chest, inflicting a serious and perhaps fatal wound.

Clark and Thomson were both placed under arrest on a charge of assault with a dangerous weapon. The former is too badly hurt to appear at present for examination and is in the custody of the sheriff.

Thomson was arraigned before Justice Humphrey and gave \$1000 bonds for his appearance at nine o'clock this morning.

Clark's wound is a deep cut in the chest on the left side. Dr. Maston, the physician, thinks the chances are even for his recovery. Clark is a Gypsy horse trader, and Thomson is a German living on a farm a few miles below this city and bears a good reputation.

Elite Dancing Party. The first of a series of social dancing parties will be given at the opera house on Thursday evening, January 31. The committee in charge have engaged for the occasion the famous Roos' orchestra, of Portland, which is one of the finest on the coast. No pains will be spared to make it a brilliant social success, and enjoyable to both young and old. The elite of this city, as well as from neighboring towns, will be present. The floor will be held strictly for dancers and no others admitted, except ladies and their daughters. The gallery will be open for the public at 25 cents admittance. Dancers tickets \$1.50.

An Excellent Work. Every family should have a standard atlas for reference and study. One of the best and most extensive and fullest is Cram's Family Atlas of the world. It is not only a perfect Atlas, but is also the latest and most extensive gazetteer issued. The work is being canvassed in this city and vicinity by Joseph Tait, and every family should secure a copy while they have the opportunity.

ABOUT A STREET RAILWAY. Messrs. O'Connor & Barr Offer to Construct and Operate a Line in Albany.

Messrs. O'Connor & Barr, who built the Salem street railway, state that they will beat the proposition made by the Eastern gentleman, who proposed to construct a street railway system in the city in consideration of an exclusive franchise for 25 years and a bonus of \$3000. They offer to build, equip and operate a street railway on First street from Washington to Lyon street, and up Lyon street to the depot, and on other streets whenever the needs of the city demand it, if such an exclusive franchise is granted, together with a bonus of \$150.

This is the most liberal proposition yet made, and if any exclusive rights are to be given by the city it certainly ought to be granted in this matter. The street railway is paying so well in Salem that it is being extended upon side streets, and Albany has had a questioner arrived at that period in her growth when the city ought to be provided with a street railway.

Foot Cut Open. Wm. Buchner, living near Millers Station, while cutting wood yesterday had the misfortune to cut his foot open with an ax. He was brought to this city on last evening's train for medical attendance. Dr. J. L. Hill dressed the wound, removing a portion of the bone. The wound was a very painful one.

War Evident. From the latest reports it is evident that a war will take place between America and Germany. This will be nothing compared to the war the Willamette Packing Co. is waging against high prices.

Knights of Pythias, Attention. There will be work in the first Rank at Laurel lodge No. 7, Jan. 31, 1889. By order of Chancellor Commander, Q. E. Propst, K. of R. & S.
