The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it, and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning; a day or two before the attack the child will become hoarse, and that symptom is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided; it has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For sale by Foshay & Mason.

It is not better to nip Consumption the greatest scourge of humanity in the bud, than to try to stay it's progress on the brink of the grave. A few doses of California's most useful production, will relieve, and a thorough treatment will cure. Nasal Catarrh, too often the forerunner of consumption can be cured by California's Catarrh Cure. These remedies are sold and fully warranted by Foshay & Mason.

GENERAL NEWS.

The Latest Official Information on Samoan Matters.

MESSAGE FROM PRES. CLEVELAND

It is Announced that Prince Radolph Committed Suicide—A Defeating Official Ships to Canada.

The Herald's Special Dispatches.
WASHINGTON, Feb. 1.—President Cleveland to-day transmitted to congress an additional correspondence relative to Samoa showing the facts to be in conformity with Bayard's representations. The German government has exempted foreigners from operation of martial law in Samoa and directed the German consul to relinquish the command of the administration of the island.

Secretary Bayard says: "I have yet to learn that any American has been injured, or any of their rights, as defined by law and treaty, taken away. Our policy has been fixed and steady in the direction of the preservation of American rights. The German government has constantly given us assurances that Germany would not violate American rights."

It Was a Suicide.

VIENNA, Feb. 1.—It is officially announced that Crown Prince Rudolph committed suicide by shooting himself through the head with a revolver.

Ill-Fated to Canada.

INDIANAPOLIS, Feb. 1.—John E. Sullivan, county clerk, who failed for \$75,000 Thursday, is missing, and with Tom O'Neil, his confidential clerk, is supposed to be in Canada. It was discovered that he had issued fraudulent warehouse receipts for large consignments of poultry, produce, etc. The aggregate is not known, but one house holds \$30,000 worth of them.

THE SEAL FISHERIES.

An Interesting Report Presented to the House.

News from Washington says Representative Dunn, from the Committee on Merchant Marine and Fisheries, has presented the results of the investigation by the committee into the fur-seal fisheries of Alaska, with special reference to whether the contract giving the Alaska Commercial Company the right to take fur seals had been violated. Dunn accompanied his report with a bill on the subject. It proposes to amend the present law by providing that one year before the present lease to the Alaska Company expires, or when any future similar lease expires, the Secretary of the Treasury shall lease to the proper persons the right of taking fur seals on the islands of St. Paul and St. George for twenty years, at not less than \$50,000 per annum, and \$3 50 in addition for each seal skin shipped from the islands. Such lease shall not be transferable.

The present law is declared to apply to all the waters of Behring sea in Alaska mentioned in the treaty with Russia, by which Alaska was ceded to the United States, and the President shall take measures to have arrested all persons, and seized all vessels violating the United States therein. In addition to the above, provision is made for the protection of the salmon fisheries. The report recommends that the act to prevent the extermination of our fur-bearing animals in Alaska be continued in force with certain amendments, believing that not only the system it adopted, but the methods of carrying it into effect are well adapted for the purpose indicated.

In conclusion, the committee finds the following facts: That if the law protecting seal life is enforced, the preservation of the seal rookeries will be assured, the revenue continued and increased, and the native inhabitants of the seal islands maintained without cost to the Government; that the Alaska Commercial Company has fully performed its contract with the Government; and has contributed liberally to the support, maintenance, comfort and civilization of the inhabitants of not only the Seal islands, but to those of the Aleutian islands, Kodiak and mainland; that the fur-seal industry will have paid into the Treasury over \$8,000,000 during the period of the present lease; that the chief object of the purchase of Alaska was the acquisition of the valuable products of Behring sea; that at the date of the cession of Alaska to the United States acquired complete title to all that portion of Behring sea situated within the limits prescribed by treaty.

The Story That Dreams are Made of.
From time immemorial dreams have been the wonderland of waking hours. Hope and fear have wrought them into their own fabric. Superstition has seized upon them and worked up a curious ritual of "dreams that go by contraries," of "dreams of the morning light," of "dreams with significance" some of which seem natural enough
