A CORRECTION.

Last week we gave the vote upon Jenning's Joint Memorial asking congress to so amend the constitution as to allow the election of United States senator by the direct vote of the people. In some manner in the correction of proof the names were mixed up and the vote was incorrectly given; we therefore republish the names. in order that no injustice be done:

[illegible] almost incredible rate of speed. In 1875 the world's railways aggregated 185,000 miles, while in 1885 there were over 300,000 miles of railroad, thus showing an increase of 115,000 in ten years, or, on an average, upwards of 11,000 miles a year. When it is considered that this would mean the laying each year of railway enough to reach nearly half around the earth the magnitude of the increase can be in a measure appreciated.

THE unpretentious vegetable, the tomato, plays a more important figure in American industries than is imagined. It is said that the tomato-canning industry was large last year. A pack of 3,319,437 cases of two dozen cans each is reported, against 2,817,048 cases for 1887—an increase of 500,000 cases. The average consumption for the past six years has been about 2,500,000 cases. Assuming, therefore, that the demand for the current year will be only a normal one, there will be a surplus of from 500,000 to 800,000 cases to be carried over. Low prices stimulate consumption, however, and as prices are certain to be low, the surplus may not be so large as present figures indicate.

THE Farmers' Institute to be held at Hillsboro, will take place Thursday and Friday, March 14th and 15th. Efforts will be made to secure the aid of competent persons and make the occasion both interesting and valuable to the people of that part of the state. Among those who are expected to take part on that occasion will be Mr. and Mrs. A. R. Shipley of Oswego, Hon. T. T. Geer of Waldo Hills, and D. C. Stewart, who has made a silo the past season and may be asked to explain its workings. Mr. James Withycombe is spoken of as another essayist. No effort will be spared to make it a success and the people thereabouts will not permit the house to be empty.

A FREE press in Germany is not the rule. The Chronicle says the Germans are evidently bound to treat the press with the same severity at home and abroad. Here is a Berlin editor sent to prison for two months for language that he used in referring to a fountain presented to the Emperor, while in Apia the editor of the Samoan Times has had his paper suppressed. If the Samoan editor is an Englishman, as we have heard it stated, he will be able to make a fine claim for damages against Bismarck. The paper has been fair in its description of the events in Samoa, although manifestly in sympathy with Mataafa. Doubtless the Germans suppressed it on the plea that its editorials incited the natives to revolt.

OWEN BROWN, son of John Brown whose "soul goes marching on" in spite of the execution at Harper's Ferry in 1859, died recently at his home in Los Casitas, California, and was buried upon the mountain farm upon which he was living as by his request before death. The body of the brave father lies at North Elba, New York, the mother and son at different points in California, and a brother and sister still survive.

THE Oregonian thinks that the appropriations for wagon roads, that are being passed by the legislature should be expended under the direction of the various county courts in the counties where the roads are located. The suggestion is a good one, for at the rate that the appropriations are being made, there is immense chances for big jobs being put up by interested parties.

THE bill creating a state horticultural commission, introduced by Mr. Condon of Eugene, is in the line of a most excellent measure and should be passed. The fruit interests of the state are fast becoming the paramount interests, and should be carefully guarded and fostered.

IT is stated on good authority that Mrs. Harrison and her daughter refuse wine at dinner parties, a fact that will not be uninteresting nor unpleasing to a large majority of the citizens of this country.

IT is reported that Germany has spies in this country examing the resources of our army and navy departments.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City Fla., was taken with a severe Cold: attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, and had difficulty in breathing and was unable to sleep. Finaly tried Dr. King's New Discovery for Consumption and found immediate relief and after using a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption Guaranteed to do just what is claimed for it. Trial bottle free at Foshay & Mason

HAVE YOU A COLD in the head which does not get better? Have you an excessive secretion of mucus or matter in the nasal passages which either must be blown from nose or drop back behind the palate, or hawked or snuffed backward to the throat? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent soreness of the throat ringing or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dullness or dizziness of the head, dryness or heat of nose? Have you lost all sense of smell? Have you a hacking cough? Have you dyspepsia? Is your breath foul? IF SO YOU HAVE THE CATARRH. Some have all these symptoms, others only a part The leading symptom of ordinary catarrh is increased secretion of mucus or yellow or greenish colored matter. Foul breath is caused by the decomposing secretions exuded from festering ulcers far back in the head; sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are indeed objects of pity, as stench from corroding sores reveals the corruption within.

As every breath drawn into the lungs must pass over and become polluted by the relictions in the nasal passages, it must necessarily follow that [illegible] the whole secr gradually takes place, while the morbid matter that is swallowed [illegible] the sleep stem into the stomach, [illegible] finally greatness ty, nervousness and consumption.

DO NOT PROCRASTINATE.

If you have experienced any of the above symptoms do not delay, but try CALIFORNIA CAT-R-CURE at once. We positively guarantee a few applications relieve and a thorough treatment to cure. Six months treatment for $1.00; sent by mail
