A MERITED TRIBUTE.

What Mr. and Madam Heine Think of the Sterling Pianos.

Mr. Josef Heine in his entertainment, Wednesday evening took occasion to speak in terms of warm praise of the beautiful Sterling piano, which had been placed in the opera house for the use of Mrs. Heine.

He said they had been able to play some of their most brilliant numbers because they had a good piano, which at several places they did not have, and were compelled to omit some of the passages on that account.

Mrs. Heine was so delighted with the instrument that she wrote the following note at the close of the performance to Mr. G. L. Blackman, who furnished the piano:

ALBANY, Feb. 13, 1889.

Dear Sir:—Having thoroughly examined the beautiful Sterling piano furnished for use at our entertainment at the opera house this evening, it affords me much pleasure to say that I consider it one of the best pianos upon which I have ever played. The purity of tone and excellence of finish makes it, in my estimation, a superior instrument, not excelled by any of the best pianos in use in this country.

Yours truly, ADA HEINE.

DESCRIPTION OF THE BLUEBERRY. The Blueberry is a valuable fruit and is reliable to grow in our North west states, where the more tender varieties of fruits winter-kill. It is perfectly hardy, having stood 40 degrees below zero without showing any injury to the most tender buds. It ripens in this latitude about the 1st of July, and is borne in clusters like currants; shape, round; color, reddish purple at first, but becomes a bluish-black when fully ripened. The flavor is equal to the raspberry, a very mild, rich subacid, pronounced by most people delicious. It may be served with sugar and cream, or cooked, and is splendid canned for winter use. The plant seems to flourish in all soils and is a prolific bearer. It grows very stocky, and makes a nice hedge. The shining dark green leaves and the blue fruit making a pleasing contrast. The demand for the fruit is great, and usually in the spring, during March, April and May, in rows two or three feet apart, and six or eight feet between the rows, making a perfect hedge, and no grass or weeds should be allowed to grow between rows.

PRICE LIST. 1 dozen plants by mail.....\$ 60

1 dozen plants by mail.....\$ 1 00

100 dozen plants by express or freight.....\$ 2 50
