WHY THE TREATY WAS REJECTED.

The rejection of the extradition treaty with Great Britian, by the United States senate, calls our the statement from the Irish World that the reason assigned by the senators who voted against the English extradition treaty were manifold and unanswerable. The sympathy of Americans with the Irish people suffering under the same system of oppression which brought about the Revolution, a system which, moreover, is condemned by the greatest minds in England itself, unwillingness to permit this country to become "a hunting ground" for British spies and detectives empowered to drag American citizens over to England for trial and punishment, the evident purpose of the treaty, to cause the surrender of men charged only with what Americans regard as political offences—all these and many other reasons were given for refusing to ratify the favorite scheme of Messrs. Bayard and Phelps, The treatment of our fishermen by British officials, the violation of the Monroe Doctrine, as witnessed in Venezuela and Honduras, by England, and its discourtesy in failing to send a Minister to represent it at Washington were also dwelt on by those who took the American side on this question. And no American citizen worthy of the name will dispute the validity of their arguments or dissent from the conclusion at which they arrived and which led them to reject the treaty by an overwhelming majority.

THE COST OF WHEAT.

From the stand point of a commercial paper, which is of course upon the side of the dealers and not the producers, it is said that an expert in grain-growing has figured out that the average cost of raising a bushel of wheat in Michigan for the last five years is about 70 cents. With wheat at $1 there is a profit for the producer, middlemen, and commission brokers of 30 cents. The share of this that falls to the farmer is not easy to ascertain, but it is estimated to range between 10 and 13 cents. When there is a speculative value on wheat the profits to middlemen are proportionately increased, while the farmer realizes but a slight advantage. Says a Western contemporary: "If wheat can be produced for 70 cents, its market price should never go above $1. When it gets beyond that the consumer is lining the pockets of the speculator with ill-gotten wealth." Prices of wheat for the immediate future are uncertain, but on the assumption that the acreage and yield are fully up to the average another corner is not regarded as within the range of probability. One of the methods employed to prepare the country for an advance is to systematically and persistently misrepresent the condition of crops and the possible yield. When this part of the scheme has been successfully worked money and nerve will accomplish the rest. The recent scare seems to have had no more reliable basis than reports of short crops in one or two states, while in several of the largest wheat-producing states the yield was up to the average.

THE railroad committee reported favorably upon Irvine's bill to protect contractors, sub-contractors and laborers on railroads. The same committee were the subject rather acrimonious accusations from Senator Veatch because they did not return his bill to regulate freight rates upon railroads. The senator did not believe in killing bills in that manner.

Douglas county gets the ten thousand dollars appropriated some years since to build a bridge over the Umpqua, but never used because there was no provision for the secretary of state to draw the warrant. Fullerton and Blundell introduced bills that provides for the money being paid over.

THE passage of Layman's high license bill makes an annual license for spirituous liquors of $400 and of malt liquors of $200, and gives a chance to test the high license law in the state. The measure met violent opposition in the house, and all the detention methods that was possible to apply in the senate, but surmounted all the opposition, and is now ready for the governor's approval, which it will probably receive. After that it must run the gantlet of the supreme court that abrogated the Keady law.

THE bill appropriating $37,500 for the Agricultural College in Corvallis, has passed the legislature and will become a law. $30,000 is to purchase land, $5,000 for instructors and $2,500 to defray expenses of litigation with the M. E. church south.

SENATOR HATCH of Polk county, introduced a bill providing for a state board of regents for the Monmouth Normal school. The bill passed the senate but met its Waterloo in the house where it was lost by a vote of 29 to 29.

BELKNAP, in the house has put through a bill making an appropriation of two thousand dollars to construct a road down the Alsea valley to tide water, in Benton county. And still the road appropriations thrive.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City Fla., was taken with a severe Cold: attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, and had difficulty in breathing and was unable to sleep. Finaly tried Dr. King's New Discovery for Consumption and found immediate relief and after using a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption Guaranteed to do just what is claimed for it. Trial bottle free at Foshay & Mason

HAVE YOU A COLD in the head which does not get better? Have you an excessive secretion of mucus or matter in the nasal passages which either must be blown from nose or drop back behind the palate, or hawked or snuffed backward to the throat? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent soreness of the throat ringing or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dullness or dizziness of the head, dryness or heat of nose? Have you lost all sense of smell? Have you a hacking cough? Have you dyspepsia? Is your breath foul? If so YOU HAVE THE CATARRH. Some have all these symptoms, others only a part The leading symptom of ordinary catarrh is increased secretion of mucus of a yellow or greenish colored matter. Foul breath is caused by the decomposing secretions exuded from festering ulcers far back in the head; sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are indeed objects of pity, as stench from corroding sores reveal the corruption within.

As every breath drawn into the lungs must pass over and become polluted by the secretions in the nasal passages, it must necessarily [illegible] the whole secr[illegible] gradually takes place, while the morbid matter that is swallowed [illegible] the sleep stomach, [illegible] ty, nervousness and consumption.
