COAST NOTES.

Firemen's election will occur at Corvallis on March 9th. There will be a station show and sale in Salem on Saturday March 9th. What has become of the mail agent who was to be put on the Oregon Pacific? Asks the Yaquina Republican. There is talk of a telegraph line to run from Menama to the station, 1 1/2 miles distant, which will be quite a help to persons not wishing to walk that distance to see if there is any freight there. Mr. Beach, of New York City, representing the Scientific American is now making a tour of the Pacific Northwest. Some of its towns will soon be illustrated in his paper. He is accompanied by a complete modern photo traveling outfit for interior and exterior views, which by a new process, are readily transferred to print, without the expense of engraving. The hot-water cure is the latest idea in Astoria. Folks who have tried it say that it beats the faith cure all to pieces. It doesn't consist in getting into hot water, but in getting the hot water into you. It is said to cure croup, dyspepsia, disappointed love, freckles, heart disease, insomnia, constipation, loss of memory and rheumatism. It also acts as an emetic. Oregon City Courier: Hell's Half Acre? is the melodious name which a settlement in the foothills bears. One Saturday in each of the last three months a circuit rider has been preaching the Word at a school house to the inhabitants and on each occasion a portion of them had been brawling at the door of the meetin' house like mastiffs quarreling over a sheep skin. Last Friday Mr. Wm. Skipton killed a white swan a few miles below Corvallis. The bird is the largest and as fine a specimen as has ever been seen in this section. It measured from the bill to the tip of the tail four feet, expanse of wings six feet, eight inches, girth 32 inches and length of toes six inches. It is now in the hands of Mr. Kriebel, an expert in taxidermy, who will mount it for Henkle & Bier. Mr. Wm. Parker met with an accident near Junction Tuesday, which resulted in his instant death. He left Junction in company with Mrs. Abbott, who had just arrived from Idaho, and his little granddaughter, having also a load of fifteen sacks of wheat. When he came to the gate leading to his home he opened it when the team started. In attempting to stop the team he slipped and fell, the wagon passing over him breaking his left arm and severing ribs, killing him instantly. The team ran into a field where Frank Parker a son of the deceased was plowing, and was caught by him. Mrs. Abbott and the little girl escaped without injury. Mr. Parker was highly respected by his neighbors. South Coast Railroad. H. Y. Thompson, representing Nelson Bennett and associates, recently held a conference with the board of directors of the Astoria & South Coast railroad and submitted a proposition to the board to take the railroad project off their hands and agree to push it through to completion, according to an Astoria paper. They do not ask Astoria to subscribe another cent towards its construction. If the proposition is accepted, work on the road will be commenced immediately and will be completed to Seaside by June 15th. The board of directors have not decided what they will do, but will probably call a meeting of the stockholders within a very short time to discuss the matter. The Pioneer favors the proposition. Evergreens for Sale. Mr. H. W. Settlemire the Tangent nurseryman that has a full supply of all the leading and desirable varieties of evergreen trees from two to three feet high, which is selling cheap, and those desiring such trees will do well to call upon him before going away from home. He has also several thousand Italian and Hungarian prune trees, as well as a general variety of fruit trees. Make out your orders and send or go to him for the trees you want, and support a worthy home industry. Teachers' Examination. Notice is hereby given that the regular public quarterly examination of teachers for Linn county will take place at the court house in Albany, commencing at noon, Wednesday, February 27, 1889. All teachers desiring examination will please be present at the beginning. L. M. Cull, County School Superintendent. Still They Go. F. A. Burkhardt real estate agent sold yesterday to Mr. H. L. Schultz, proprietor of the City Meat Market four acres in the Millard addition, the consideration being \$1000.

A MERITED TRIESTE.

What Mr. and Madam Heine Think of the Sterling Pianos.

Mr. Josef Heine in his entertainment Wednesday evening took occasion to speak in terms of warm praise of the beautiful Sterling piano, which had been placed in the opera house for the use of Mrs. Heine: He said that they had been able to play some of their most brilliant numbers because they had a good piano, which at several places they did not have, and were compelled to omit some of the passages on that account. Mrs. Heine was so delighted with the instrument that she wrote the following note at the close of the performance to Mr. G. L. Blackman, who furnished the piano: ALBANY, Feb. 13, 1889. Mr. G. L. BLACKMAN: Dear Sir:—Having thoroughly examined the beautiful Sterling piano furnished for use at our entertainment at the opera house this evening, it affords me much pleasure to say that I consider it one of the best pianos upon which I have ever played. The purity of tone and excellence of finish makes it, in my estimation, a superior instrument, not excelled by any of the best pianos in use in this country. Yours truly, ADA HEINE. Heine company. This voluntary recommendation coming from such distinguished musicians as Mr. and Madam Heine speaks volumes for the popular Sterling pianos.

EMINENTLY CORRECT.

The Oregonian says, Albany is subscribing for a street railway and will need one if the place grows as rapidly as there is prospect. It has a nice country to run across. The streets are wide and the land very level, so that a horse can do the work with ease. Really, there is growth and progress in these Willamette towns and a prospect that there will be more growth in 1889 than in any two years previous thereto.
