WHO OWNS THE WATER.

The question of the right to the water of a river that runs between contiguous countries, is about to rise out of the action of Escobar, the Mexican consul at El Paso, Texas. He claims that the irrigation schemes now under contemplation by congress, whereby it is proposed to direct the waters of the Rio Grande river into irrigation of the desert lands of New Mexico, will destroy certain portions of Mexico that now depend upon the Rio Grande for water to produce their crops, and that the measure in comtemplation will consume the entire waters of the river. The Chronicle thinks that this may add a new element to the much-disputed and debated question of riparian rights. No case can be cited, we think, where international questions were associated with the rights of riparian proprietors living on each side of the border line. In the case of the Rio Grande there would be no legal tribunal common to the United States and Mexico, and, should the Mexican protest be entertained, it might be necessary to construct a joint commission, or to submit the question to the arbitration of some foreign sovereign.

We can hardly believe, though, that Mexico will adopt Senor Escobar's views in their full extent or claim that there is any obligation resting upon the United States to permit the Rio Grande to run its entire length with undiminished flow. There is certainly no rule of international comity which requires a nation bordering on the upper part of a river to be careful of the rights and privileges of another nation nearer the river's outlet, nor to abstain from taking and using the waters of that river lest some detriment should come to the nation lower down. So far as the United States is concerned, the Rio Grande may be deemed to end at the frontier, without any regard as to what becomes of it when it reaches alien territory.

The map shows that the Rio Grande, after it leaves New Mexico does not run through Mexican territory, but between the republic of Mexico on the west and the State of Texas on the east, so that Senor Escobar's contention is only half true, even upon the basis of international riparian rights, if any such rights exist. The Mexicans are entitled to but one half the water of the Rio Grande, and the Texans to the other half.

The construction of public works seem to universally be the prey of the dishonest contractors. Why this is so is hard to understand, but in the examination of the records of public works the fact can be easily substantiated. Take for instance the Washington aqueduct, which the congressional committee recommend to be abandoned and substituted by an iron pipe at a cost of $500,000, the committee says: "Beyond all question, substantially the whole and every part of the lining of the tunnel is absolutely and enormously defective, and it is scarcely too much to say that there is hardly any continuous length of ten feet in the whole lining where the bricking is, particularly over the arch of the line, that is not either absolutely wanting or only partially filled, or, where fully filled, so badly constructed as to make the whole bricking up of the lining utterly worthless."

As the time for the inauguration draws near the cabinet makers increase in number and activity, In the mean time the greater majority of the people wait inperfect confidence in the ability of Generel Harrison to select his own cabinet, and with the assurance of perfect content with the selections he may make.

The result of the case of Parnell and the London Times, which has terminated in the practical vindication of Mr. Parnell's side of the case, by the confession of Pigott that the letters, produced on the trial to implicate P r...l, were clever forgeries by Pigott, will be received with satisfaction in this country. These letters were the main evidence depended upon by the Times to sustain its accusations against Mr. Parnell, and by their failure the Times case is gone, and the cause which Mr. Parnell leads is immensely helped.

The Chronicle says the enterprising American embezzler in Canada is showing the dominion people how to carry on large enterprises. John C. Eno, who fled from New York to escape arrest for embezzling a large amount of bank funds, is forming a company to carry on mining, with a capital of $1,000,000. Several of the New York boodle Aldermen have also gone into business in Montreal, but they will take good care not to come within range of the law, as the Canadians have no sympathy th gentlemanly thieves.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

Worth Knowing.

Mr. W. H. Morgan, merchant, Lake City Fla., was taken with a severe Cold: attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, and had difficulty in breathing and was unable to sleep. Finaly tried Dr. King's New Discovery for Consumption and found immediate relief and after using a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption Guaranteed to do just what is claimed for it. Trial bottle free at Foshay & Mason

HAVE YOU A COLD in the head which does not get better? Have you an excessive secretion of mucus or matter in the nasal passages which either must be blown from nose or drop back behind the palate, or hawked or snuffed backward to the throat? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent soreness of the throat ringing or roaring in the ears, more or less impairment of the hearing, loss of smell, memory impaired, dullness or dizziness of the head, dryness or heat of nose? Have you lost all sense of smell? Have you a hacking cough? Have you dyspepsia? Is your breath foul? If so YOU HAVE THE CATARRH. Some have all these symptoms, others only a part. The leading symptom of ordinary catarrh is increased secretion of mucus of yellow or greenish colored matter. Foul breath is caused by the decomposing secretions exuded from festering ulcers far back in the head; sometimes the membrane covering the bones is eaten away and the bones themselves gradually decay. Such cases are indeed objects of pity, as stench from corroding sores reveal the corruption within.

As every breath drawn into the lungs must pass over and become polluted by the secretions in the nasal passages, it must necessarily follow that ... the whole secretion gradually takes place, while the ... the sleep ... into the stomach, ... and finally greatness, nervousness and consumption.

DO NOT PROCRASTINATE.

If you have experienced any of the above symptoms do not delay, but try CALIFORNIA CAT-R-CURE at once. We positively guarantee a few applications relieve and a thorough treatment to cure. Six months treatment for $1.00; sent by mail
