STATE NEWS.

Fatal Shooting Affray at Eola. Polk County.

THE RESULT OF AN OLD FEUD.

A. P Beardsley Murders Thomas Perryman by Shooting Him With a Double Barrelled Shot Gun.

Special to the HERALD.

SALEM, March 14.—This morning at eight o'clock O. P. Beardsley shot and killed Thomas Perryman at Eola, Polk county, pouring two loads of buck shot into him, either of which would produce death. The murder is the result of a long feud. Beardsley is a well known hop grower and is very unpopular in the neighborhood and Perryman has had several quarrels with him. The opinion in Eola is divided, as is also the testimony, some claiming that Beardsly shot without provocation, others that Perryman threw a big rock at him. Beardsley immediately went to Dallas and gave himself up. He was incarcerated in the jail for examination Saturday.

The only one who was an eye witness to the terrible deed is Willis Jordan. He told his story in a straightforward manner, and a visit to the scene bears him out as to the distance between the two men when the firing commenced. Mr. Beardsley was so close to Perryman when he shot, that the newspaper with which the gun had been wadded struck Perryman with full force, and fell by his side to welter in the dead man's blood.

Mr. Strain did not see the shooting as his first intimation of anything was the firing of a gun. Even had he been standing in the door the view would have been obstructed by an old threshing machine which stands in the road.

Mrs. Beardsley was at the window in an instant. She saw Mr. Beardsley raise the gun and saw the death struggle of Perryman. She did not even see the second shot fired, as during those few seconds she was hastening from the window to the door.

To relate the story of the quarrels and fights of these two men would require more space than can be here given. Beardsley is said to have been abusive and quarrelsome, while the same is said of Perryman. Their lawsuits and disputes have kept them each busy for many days and now the terrible end has come. They are thought not to have spoken to each other since on May 11th last and to-day one is sent to his untimely grave and the other is in jail charged with murder.

The deceased was about thirty-two years of age and leaves a wife and one child, together with two step-children. Mr. Beardsley's wife and daughter constitute his family.

Articles of incorporation were filed in the secretary of state's office by the Excelsior Tanning Co., Arthur Warnick, A. Crossman and C. H. Finn incorporators; duration, ten years; capital stock, $5000; principal office, La Grande.

TRADING AT NINETY-SEVEN.

An Aged Half-Breed Who Knew Sam Huston.

St. Louis Globe-Democrat.

Bob Henderson, a half-breed Indian, who lives about thirty miles from here in the Indian territory, was in Honey Grove, Texas, the other day doing some trading. He says he is ninety-seven years old, and relates incidents that tend to confirm the truth of his assertion. While he is very active and enjoying the best of health, his face is seamed and wrinkled, as well as his hand and arms, and his hair is as white as cotton. He has in his possession and showed to the writer a bill of sale of three negroes—a man, woman and boy—dated at New Orleans, January 7, 1821, and signed by Pierre Larue, and he says he was about 30 years old when he bought the slaves mentioned in the bill of sale. He also says that the negro man mentioned in the bill of sale died less than a year after he had made the purchase, and that the woman, who was a quadroon, became his (Henderson's) wife, being legally married to him in Louisiana in July, 1855, and bore him six children, all of whom are long since dead, and his wife died in 1861, forty years after he bought her, and thirty-seven years after he married her. He says he was married by a Catholic priest, his wife passing as a Spanish woman. The negro boy he purchased at the same time is still living in Louisiana, and he states he saw him about a year ago near Lake Charles, La.

Henderson says he knew General Sam Houston well when he lived with the Cherokees, and that he was present at the meeting of General Houston and his Indian (adopted) father when the general returned to the Cherokees, after resigning as governor of Tennessee. He also claims to have known Judge George W. Paschal, the noted lawyer, who married an Indian wife, and whose half-breed son, Ridge Paschal, also a lawyer, was prominent in Texas during and after the days of reconstruction. He says Judge Paschal's Indian wife was the prettiest woman he ever saw.

Henderson, it appears, lived in Texas as far back as 1827; that is, he lead a kind of nomadic life along the Texas and Louisiana border in company with other Indians and half-breed hunters. He has, in fact, lived among nearly every tribe of Indians known in Texas since those early days, having remained over a year among the Wacos when their principal village or town was situated where the city of Waco now stands in McLennan county. He also lived with the Comanches, Kiowas, Lipans and Apaches. He says when among the Indians he bore the character of a "medicine man" and hence was allowed to go from one tribe to another at will, and was not expected to take part in their expeditions on the warpath either against the whites or neighboring tribes. He tells some thrilling adventures, however, both in hunting and fishing, and bears several scars which would lead one to believe that if he never went on the warpath he must have been very close to it on several occasions.

PERSONS AND THINGS.

The cost of the Paris Exposition will be $10,000,000.

A man has been sentenced to 417 days' imprisonment for getting drunk at Rutland Vt.

Stonewall Jackson is to be commemorated in bronze at an expense of $30,000 to the Jackson Memorial Association of Lexington, Virginia.

In London there are 3700 persons of either sex who earn their living as teaching, performers or composers of music. Then there are also 1100 orchestral players, half of whom are violinists,

It is said that the case of the cartridges for the Lebel rifle about which the French government maintains such a mystery, is solid drawn copper and the bullet of type metal with a thin coating of steel.

In Sweden, fifty years ago, the proportion of alcohol consumed to the population was fifty-four litres for every man, woman and child; now it is only eight litres. In Norway the proportion, fifty years ago was sixteen litres, now it is three and one half.

Governor Ross, of New Mexico, has vetoed the "gag law" which the legislature had passed. He characterizes the measure as tending to a suppression of free speech and a free press, and not at all in harmony with the enlightenment of the nineteenth century.

Squire Moses Parkins, of St. Clair Pennsylvania, is a thrifty old gentleman, of 77, and when last Saturday evening Mrs. Mary Gregory, aged 66, became Mrs. Parkins he kept the wedding fee in the family by reading the marriage ceremony himself.

The Hon. Bernard Coleridge, M. P., speaking recently at Leeds, said that he regarded the entry of women in politics as having a most humanizing effect. He hoped specially that women would preserve pure and untainted a quick and ready sympathy for the working classes.

It is said that the trustees of a heavily mortgaged church in Lincoln Neb., in order to raise money to clear the debt, sold advertising space on the walls of the auditorium, and that "handsome advertising cards appear in conspicuous places, the charges being $5, and the agreement including an indorsement from the pulpit."

The Canadian government will soon adopt a policy of hostility against immigration. All alien laborers, except British will be prohibited from coming to Canada, and the funds which the dominion government has hitherto granted in aid of immigration, amounting in the aggregate to 250,000 sterling, will be withdrawn.

Putting it Mildly.

A phlegmatic Dutchman, when dining at a restaurant, detected one of your professional overcoat snatchers in the act of walking off with his new garment, and stepping up to him as he was walking out of the door he tapped him on the shoulder, saying:

"Perhaps you will just allow me to get another cigar out of my coat pocket?"

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first only a cold. Don't, permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottles free at Foshay & Mason's Drug Store.

A Child Killed.

Another child killed by the use of opiates given in the form of Soothing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Acker's Baby Soother. It contains no opium or morphine. Sold by Foshay & Mason.

GENERAL NEWS.

A Quiet Day Passed at the National Capital.

THE END OF THE SAMOAN CANARD

It Is Officially Announced to Be Without Foundation.—A Big Land and Railroad Scheme in California.

The HERALD'S Special Dispatch.

WASHINGTON, March 14.—The president denied himself to-day to all except a favored few in order to attend to official business. He consulted with the secretary of the interior, postmaster general and attorney general in regard to nominations made to-day. Morrow, of California, also called on him.

At noon the president formally received the members of the diplomatic corps. They first assembled at the state department in resplendent court costume and were presented to Mr. Blaine, who escorted them to the president in the blue parlor. The reception was informal and lasted half an hour.

A BIG SCHEME.

A Syndicate Buying Large Tracts of Land in California.

ST. LOUIS, March 14.—The statement comes from Vicksburg, Miss., that a syndicate composed of C. P. Huntington, Mrs. Hopkins, wife of the late millionaire, and Leland Stanford, have bought 1,003,000 acres of land in lower California and are buying more. Their object is said to be to develop that section of the country, and a part of the scheme is the building of 1300 miles of railroad, some of which is now being built. When the engineering party were surveying the route they struck gold on this property, and this, it is alleged, has decided Huntington to dispose of all his railroad property east of the Mississippi river, and concentrate his interests in the far west.

It Is Officially Announced to Be Unfounded.

SAMOA (via Auckland), March 14.—The Niepsic-Olga report is without foundation. Everything has been tranquil. The Germans have abandoned their aggressive policy, and the proclamation of the martial law has been withdrawn.
