NOTICES ABOUT TOWN.

Street railway meeting to-night. How will the Albany woolen mills show?

The wheat market remains quiet at 70 cents. Albany will have woolen mills within six months.

The subsidy for the woolen mills must and will be raised within ten days. Albany's population at the census in 1890 will not be less than 7,000.

The stockholders of the opera house company will meet next Monday evening. Public spirit, enterprise and liberality should season the donations for the woolen mills.

The spring crop of radishes and onions have made their appearance in the markets of this city. A. B. Custer has returned from San Francisco, where he sold his fine black span of horses for \$675.

A new peanut and cigar stand has been opened on Ferry street next to G. W. Harris' marble works. Cannot the Albany base ball players organize a nine this season?

This city formerly had the champion nine of the state. The question is not now "who struck Billy Patterson," but "who blacked a popular drayman's eye." He declines to relate the particulars.

F. A. Burkhart, real estate agent, sold yesterday to W. E. Albers, the farm owned by E. E. Hamrack and situated 2 1/2 miles south of Albany, containing 60 acres. The price paid for the same was \$500.

Prof. E. N. Condit has received a telegram announcing the death of Mrs. I. H. Condit at Elizabethport, N. J. She was an estimable woman and had many friends in this city, where she formerly resided.

E. J. Lanning, who returned from Portland last evening, states that Chris Leinenweber, one of Astoria's prominent citizens, died suddenly yesterday morning. He was well known in this city, where he had many friends.

Rev. D. H. Comann was tendered a pleasant surprise Thursday evening after services at the M. E. church South by the members of his congregation. He was presented with a generous supply of provisions and a well-filled purse.

Five tramps were sentenced to the days work on the street yesterday in Recorder Heaton's court. Tramps are beginning to find it very unhealthy to loiter about Albany, as they are invariably put to work improving the appearance of the streets.

Heavy rains in Northern California have rendered trains on the Southern Pacific for the south very irregular for the past few days, some portions of the track being washed away. It is expected that after to-day regular trains will again commence running.

With the woolen mills in process of building, the street railway being constructed, new brick buildings and scores of new residences going up this summer, newcomers will believe in truth that Albany has more business to the square mile than any other city in the Willamette valley.

At the election of Lebanon Engine Co. last Monday evening, the following officers were elected for the ensuing year: President, W. C. Peterson; vice-president, A. R. Cyrus; secretary, John B. Hopp; treasurer, M. E. Hearn; foreman, J. A. Beard; first assistant, C. D. Montague; second assistant, T. C. Feebler.

John Mulvan, while driving in the eastern suburbs of this city yesterday with a California gentleman, ran into a hole near the precipitating both occupants out of the buggy into a pool of water. It was not deep enough to swim in, but the California gentleman said it strongly resembled the famous mud baths of that state, and the general appearance of both certainly verified the assertion. The was afterward fished buggy out and brought back on a truck.

Last Night's Entertainment. The lecture on Alaska by Rev. H. V. Rominger, accompanied by views illuminated by light from the artist, Geo. M. Weisler, at the opera house was attended by a large audience. It was a most interesting and instructive entertainment, the wonders of Alaska being faithfully exhibited. It was given as a benefit for the literary societies of the Albany college, and was an entire success.

Our Saturday Item. Today is the last day of the week and F. L. Kenton would advise all his customers to call and purchase their supplies for Sunday. He will treat you well and if you good goods at very reasonable prices for cash.

WOOLEN MILLS.

The Brownsville Woolen Mills Will Be Removed to Albany.

A MOST IMPORTANT ENTERPRISE.

The Mill Will Be Enlarged to a Four Set Mill—Albany Must Raise a Bonus of \$25,000 Without Delay.

The most important enterprise which has recently been effected in this city, looking toward the permanent prosperity and advancement of the business interests and material growth of Albany, was consummated late last evening. It is the removal to this city of the entire plant of the Brownsville Woolen Mills, together with new machinery already shipped and on the road to increase the capacity to a four set mill.

Messrs. J. M. Mayer and F. F. Croft, of the Brownsville Mills, have been in this city for several days, and negotiations to this end have been pending, and last evening an informal meeting of citizens was held, at which contracts were made whereby the citizens of Albany will raise a bonus of \$25,000, and the Brownsville Woolen Mills Co. will remove to this city their entire plant, and by the addition of the new machinery already referred to, enlarge the mills, making the same four set mills.

THEIR LOCATION.

A site for the mills has been secured between the Farmers' Warehouse and the Red Crown Mills, on land owned by Messrs. Isom & Lanning, and water power has been secured from the Santiam canal. The mills will be situated adjacent to the river on the switch lines of the Southern Pacific and Oregon Pacific railroad lines. The company agree to erect a large two-story fireproof brick building for four set mills, and other buildings required to make the plant first-class in every respect.

The bonus should and will be raised within ten days. One-half of the amount is to be paid when the building is complete and the machinery in readiness for operation, and the remaining one-half three months thereafter.

THE CAPACITY OF THE MILLS.

The mills will have a capacity of manufacturing 350,000 pounds of wool per annum, and will employ from 75 to 100 hands. The payroll of the two set mills at Brownsville is from \$3000 to \$2500 per month, and the enlarged mills here will distribute among its employees not less than \$3500 to \$4500 per month.

The importance of the enterprise cannot be overestimated in the future growth and advancement of the business interests of Albany. Besides the amount of labor employed and money distributed, the proprietors of the mills will bring with them some \$200,000 of capital, besides some 40 or 50 families from Brownsville. The Brownsville mills have an established reputation throughout the Northwest, and it will require no years of waiting to reap the benefits of a full grown thriving institution. Their manufactured woolen goods meet a steadily growing trade, and under the new regime with enlarged mills, and a location more favorable for shipping, their business will correspondingly increase.

ALBANY MUST RESPOND PROMPTLY.

This proposition is now before the people of Albany. The site and water power has been secured, the company has agreed to remove the mills here, all being definitely settled in black and white, and it now only remains for the citizens of Albany to come forward promptly with the required subsidy. This should, and the HERALD predicts will, be raised within ten days. Not a dollar is asked until the mills, with permanent brick buildings and enlarged capacity, are ready for operation, and a subsidy of \$25,000 for such an enterprise, with a well established and successful business, is a trifling sum when compared with the benefits which will accrue to Albany therefrom.

The following committee was appointed last night to wait upon the citizens of Albany for this purpose, and they will start out bright and early this morning. Let there be no hesitancy; meet enterprise from abroad with enterprise at home, and assist an undertaking which will contribute more than any other one thing toward the future prosperity of Albany:

THE GRAND JURY'S REPORT.

Some General Notes Concerning the Contingency in the County Jail.

We, the grand jury of Linn county for the March term of circuit court, beg leave to report that we have examined the county jail in this city, and find it in fair condition, but would recommend that the south side of the building be made more secure, so that prisoners could be kept there, as the south side is much pleasanter and healthier than the one now used. We visited the treasurer's, the county clerk's and recorder's offices, and find them all in good condition. (Signed.) A. Brandon, A. S. Bassett, M. Cunningham, William Goin, Geo. F. Coffe, Israel Carleton, Geo. A. Dyson.

World Make a Good Immigration Agent.

City Marshal John Hoffman is proving an efficient officer, and it is suggested that in the light of his recent actions in bringing in immigrants at the point of a pistol he would make a good immigration agent. Yesterday morning he arrested a party of half a dozen tramps at the Southern Pacific depot. Three of them started to run, when he began firing at them. He captured one of them, and two made their escape. He has a gang of seven tramps now at work on the streets.

To Cut Stone by Steam.

Frank Wood has received a new steam engine and steam drill which will soon be put in operation at his stone quarry across the river. He has taken a contract to furnish large quantities of hewn building stone to parties in San Francisco. It is expected that the Oregon Pacific railroad company will build a switch to the quarry for this purpose.

A sneak thief entered the kitchen of Hon. R. C. Miller, at Lebanon last Sunday night and stole a ham and some jars of fruit. He had no trouble in getting in, as the door happened to be left unlocked. Citizens of Lebanon complain of the amount of depredations committed by burglars at that place recently.

The roll was called and the minutes of the former meeting read and approved. The bonds of the secretary and treasurer were approved. The secretary reported that the amount collected from stockholders was \$137.

The first loan was then made, the money being let to the highest bidder, the treasurer, George W. Keeney, acting as auctioneer. The sum of \$1000 was loaned to R. Kent, who bid 55 months' interest in advance, and \$600 was loaned to L. M. Curl, who bid 38 months' interest in advance.
