NOTICES ABOUT TOWN.

Steamers to have horses on their fire engines.

Work on the eastward extension is likely to be resumed soon.

Crops will be bountiful in the Willamette Valley this year.

River traffic on the upper Willamette continues lively in spite of low water.

Trains which run eastward on the Oregon Pacific twice a week are crowded, and do a lively freight business.

The East Oregonian is urging that the lands of the Umatilla Indian reservation be opened at once for settlement.

There is some talk in railroad circles that there is some probability of the Oregon Pacific purchasing the Narrow Gauge road.

Lu Joy, a Chinese contractor of this city, has taken a contract for cutting 500 cords of wood for the Oregon Pacific east of this city.

F. A. Burkhardt, real estate agent, sold yesterday to Geo. W. Wright, of Heppner, the house and one lot situated in block 11, Hackleman's 2d addition and owned H. Flindt; consideration \$900.

Making Harney City the county seat of Harney county is liable to work a hardship on the town of Burns, as the business men of the latter will most likely move to the county seat.

Nathan Pierce, the wheat prince of Eastern Umatilla, has seventeen hundred acres of wheat in this season, mostly fall sown, which is now above the ground. Mr. Pierce anticipates the largest grain crop in many seasons.

Marshall Mail: Theodore Brunetti, an Italian, was instantly killed at the Newport mine by a cave in his room on Tuesday. His skull and lower jaw were broken and he was badly mutilated. He was a single man, aged 28 years.

W. C. Tweedale has leased the buildings now occupied by Geo. W. Harris' marble works and will open a real estate office. The peanut store in the adjoining building will be removed on April 1st, and Mr. Tweedale will occupy both rooms.

Baker City Blade: While the recent rains are of incalculable value to the farmer and the stockman they are rather late in the season to be of much benefit to the miner, as it was only on the highest points that any snow fell, and that is what the miners depend upon for a long water season.

Two old men belonging to a Milton debating society got into a personal encounter one night recently while discussing whether the negro or the Indian was the better protected by the government. One of the men was a strong republican and the other a Southern democrat, hence the trouble.

Weston Leader: Perhaps no time in the past has the prospect for a large wheat crop been so sure at present. Nothing but an unprecedented drought will prevent an average crop, and with an ordinary rainfall, the yield must be immense. The writer has had many years of practical experience in wheat raising in this country, and it has never been his fortune to see the indications for a large crop so good or more general.

PERSONAL MENTION.

W. R. Kirk, of Brownsville, is in the city.

L. Henness, merchant of Gatesville, is in the city.

S. E. Young went to Seattle yesterday on business.

Mrs. Martin Payne, who has been ill, is recovering.

Rev. A. M. Acheson is at Colfax, W. T., assisting in a series of meetings.

Hon. Geo. A. Waggoner, clerk of the railroad commission, is in the city.

A. B. Woodin, Dr. C. C. Kelly, S. S. Train, J. D. Guiss, S. W. Reece and Elmer Hyatt returned yesterday from a trip up the Santiam.

Fancy skating match.

J. B. Gillmore, of this city, who has five gold medals for fancy skating in San Francisco, has challenged Charles Waldworth, the champion fancy skater of Nevada, for a contest in this city to occur about the middle of April.

Mr. Gillmore beat Waldworth four years ago, and if this match is made it will prove an interesting affair. It will be for a purse of \$500 and a gold medal.

A fine line of fresh candies just opened at Parker Bros. Do not forget to try some of their French soups.

ALBANY'S PROSPERITY.

A Promising Business Outlook—How and Important Enterprises.

The removal of the Brownsville Woolen Mills to this city will contribute more than any one thing recently brought about toward the permanent prosperity of Albany, and people throughout the state recognize the growing prosperity of this growing business center of the Willamette Valley.

The current number of the West Shore says: The indications all point to a year of prosperity throughout the entire Willamette Valley, and especially to the progressive city of Albany, which occupies a position of special advantage and possesses elements of growth peculiar to itself.

One of the greatest factors in the city's prosperity is the Oregon Pacific railroad, which, after a long struggle against adverse circumstances and hostile interests, has now placed itself in a strong position, and will soon become one of the leading transportation lines of the state, and a portion of a great transcontinental system.

Within a month, at least, work on the line eastward from Albany will be resumed, and will be pushed with great vigor, so that by the end of the working season the line will have been extended across the Cascade mountains and into the great wool producing region of the interior.

Another year the line will be extended still further eastward, crossing the counties of Crook, Harney and Malheur, to an eastern connection in the vicinity of Snake river.

The wool, cattle, horses and other products of the region thus opened, including the extensive and fertile Harney valley, will thus be offered a new and cheaper route to market, and will find at Albany the first diverging point.

At that place they will not only connect with the line of the southern Pacific, but with the steamers plying on the Willamette. It requires but the most ordinary intelligence to understand the wonderful advantages Albany possesses as the point of junction of two such systems as the Oregon Pacific and Southern Pacific, advantages which are about to be largely enhanced by a short narrow gauge line connecting the city with the extensive narrow gauge system running through the valley midway between the river and the foot hills.

It is expected that the Oregon Pacific will make Albany the operating headquarters of the road, and will build extensive machine and car shops there. A fine depot will be erected, and it is more than probable that the company will be instrumental in the erection in the city of a large hotel building.

It is expected that a line of street cars will be put in operation by the fourth of July next. The Albany Street Railway Co., has been incorporated, the subscribers to the stock being the business men and citizens. This is a popular movement, and is participated in by a large number of those interested in the welfare of the city, and who are willing to do their share in pushing forward the car of progress.

It has been the experience of other cities that street car lines are great developers of business, and add much to the value of all property within a convenient distance of the lines. They are not merely a convenience, but are a great aid to the growth and prosperity of a city.

Another enterprise which will have a beneficial effect is the Albany Building & Loan Association, just organized upon the plan that has been so successful in Portland the past five years, and in eastern cities for longer periods. The officers of the association are all well known and responsible citizens, and the stock is subscribed by a large number of industrious and frugal people who expect to reap the full benefits flowing from such co-operative action.

It is confidently expected that a number of additional manufacturing enterprises will be established in Albany before the end of the year. In respect to water power, nearness to raw materials and advantages of shipment, both by rail and river, Albany has undoubted advantages which must be apparent to intelligent manufacturers.

Already the value of manufactured products turned out yearly reaches a large sum, and a large increase may be expected, not only from a development of industries now established, but by the springing up of new ones.

In the Santiam mines, which are rendered tributary to the city by the Oregon Pacific railroad, and in which many of Albany's citizens are financially interested, it possesses an element of growth of much importance. The extent and value of these mines are just becoming known, and expert miners of long experience state that the Santiam district is one of the most promising on the Pacific coast. Great developments may be expected there during the next few years, and Albany is in a position to reap greater benefits therefrom than any other city. It only remains for its citizens to fully comprehend the opportunities offered them, and grasp them with a firm and energetic hand.

Leg Crushed.

It is learned that on Monday the mate of the steamer Richardson at Yaquina, as the vessel was about to make fast to the wharf at Newport, had his leg crushed by falling between the boat and the dock. He will be taken to the Marine hospital at San Francisco.

Debate Free Trade vs. Protection.

This evening at the college chapel the class in political economy will ventilate this interesting question. It will be worth hearing. Those who desire to listen will be welcome to come. The debate will begin at 7:30 o'clock.

No charge for reserved seats at W. F. Read's; we want to show goods.

THE WASHINGTON STREET GRADE.

An Injunction Suit Commenced—Action by the City Council.

An injunction suit was served upon the city yesterday, the same having been granted in Judge Boise's court, restraining the cutting down and grading of Washington street, upon which work has been commenced. The injunction restrains the city of Albany from digging, cutting down, excavating or grading Washington street from its intersection of First street to its intersection with Third street, or any part thereof, until final hearing or further order of the court, upon execution by the plaintiff, A. H. Marshall, to the defendant, the city of Albany, of an undertaking in the sum of \$1000, conditioned that the plaintiff will pay all costs and damages to defendant in case the injunction is declared wrongful or without cause.

A perpetual injunction is asked in the complaint on the grounds that the grading is being done without right or authority of law, that there exists in the city no established grade, and that no notice has been served upon the property owners. C. E. Wolverton and D. R. N. Blackburn appear for the plaintiff. Pending the suit work has been temporarily stopped on the grade.

The city council met last night and employed J. K. Weatherford and Capt. N. B. Humphrey as counsel on behalf of this city in the suit, and a committee consisting of Councilmen Julius Gradwohl, F. M. French and C. G. Burkhardt was appointed to confer with the attorneys.

Southern Oregon Matters.

Deputy U. S. Marshal Myers has been out in Southern Oregon serving legal papers and tells an Oregonian reporter of a not very favorable condition of things out there. He reports that section as very dry and considerable stock dying from eating tules, it is supposed. The cattle have all been driven in off their winter range on the desert, as there is no water there. Lake Warner is five feet lower than the oldest inhabitant of that section ever saw it before, and Goose lake, which once reached to the town of Lakeview, is now five miles away. Mr. Myers was in the Chewaucan valley and over as far as Drewsey, and the same lack of moisture prevails anywhere. It had begun to rain before he left and the stockmen were feeling encouraged.

The State Reform School.

Recently a petition of 300 names of prominent citizens of Albany was presented to Governor Penney and the board appointed by the legislature to select the location of the state reform school, asking that it be located at Albany. The petition was presented by Hon. R. A. Irvine, who says the governor was favorably disposed toward locating the school here. Mr. Irvine is now looking for a suitable tract of land for the location of the school. Albany is entitled to it, and should have at least one state institution.

The Astoria Railroad.

The following intelligence from the Astorian shows that the people at the other end are moving in earnest: Secretary Holden, of the Astoria & South Coast Railway Co., has been around during the last three days collecting the assessments of the stockholders and reports a general desire on the part of all to furnish the money required, the assessments in all cases being promptly paid.

Preaching at Oakville.

Rev. A. M. Black, D. D., of Monmouth, Ill., will preach at the Oakville United Presbyterian church next Sabbath, March 24th. All are cordially invited to attend.

RUFUS THOMPSON, P. M.

GREENWOOD'S FINE ART STUDIO.

TO THE PUBLIC:—When I bought L. W. Clark's photographic business I did not buy in one day to sell out the next, but I am here to stay. I have bought his negatives which I have carefully registered, so that duplicates can be had at reduced rates. I am prepared to make all kinds of pictures from the smallest gems to full life size in the latest style of the art, having just arrived from the East on the first of January, 1889. All copying done at my gallery, no work sent away. Old pictures copied and enlarged to any size and colored in oil, India ink, water colors or crayon. Call and examine our specimens and accessories and be convinced. All the instruments used are of the latest improved, even to the Venus camera, the only one in Albany. Soliciting a share of your patronage, I am very respectfully yours,

W. H. GREENWOOD.

The dry cold weather of the early winter months is productive of a great deal of croup among children. Both parents should be on the lookout for it, and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning a day or two before the attack. The child will become hoarse, and that symptoms is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided. It has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For sale by Foshy & Mason.

REAL ESTATE TRANSFERS.
