JOTTINGS ABOUT TOWN.

The militia company was out on the streets for drill last evening.

Wade-Leroy Co. Nothing like it; it is simply wonderful.—Chicago Times.

John P. Ward of Portland, has appointed appraiser of merchandise for the port of Portland.

Grain elevators for the handling of grain in bulk are being constructed along the O. R. & N. line.

L. W. Clark and Mrs. Mary Moore, formerly of this city are now married and living in Portland.

The Albany street cars will be running by July 4th. A big rousing celebration should be held in this city.

G. L. Blackman has purchased of Jason Wheeler ten acres off of his farm near this city, paying for the same \$1000.

The Western Union Telegraph company are stretching another quadruplex wire between San Francisco and Portland.

Some of the employees of the Brownsville Woolen Mills were in the city yesterday looking after the purchase of residence lots.

The dog poisoner was abroad in this city yesterday, the canines of Peter Schlosser, W. H. Lampman and E. E. Montague, being the victims.

Yesterday Mrs. Margarette Hamer sold to H. R. Schultz the east half of block 62 for \$1200. The sale was made through the real estate agency of Burkhardt & Keeney.

Miss Minnie Parker has opened a studio in Flinn's block, and will give instructions in oil painting, making a specialty of fine landscapes. She has some fine paintings of different Oregon scenery, which are beautiful productions of the true artist's brush.

Jim is dead. He was the faithful friend of Uncle John Schlosser, and the latter was in deep mourning yesterday. Jim was only a small boy-legged canine, but had many good qualities, and it was sad that he was cut down by an assassin's hand and a big dose of strychnine.

Prof. C. Krumbin, the well known London artist, who has been doing some fine portraits of noted Oregonians at the state capitol, is in the city, and will remain for a week or two at the St. Charles hotel. Some of his pictures have been on exhibition in the show window of G. L. Blackman, and need no recommendation. Those wishing fine portraits in oil crayon should not neglect to call upon him.

YAQUINA BAY NEWS.

Yaqina Republican. Pudge & Assell will soon have their oyster and clam canning establishment in operation.

On Monday one of the government scows, loaded with 200 tons of rock, got aground at low water and was considerably wrecked.

The boat used by the boys who went over the bar last Tuesday was wrecked on the rocks at Cape Fox weather. The boat formerly belonged to the steamer Yaquina Bay.

Available land is not so plenty about Yaquina Bay but what a city of any great size will make desirable locations for business and residence purposes very scarce. In two or three years time a well located lot on this bay will be worth a small fortune.

Mr. Abbey is making a wonderful change in the Bay View house. He has had it repainted and renovated from top to bottom. He has put in a new hundred dollar range, new parlor furniture and new furniture in many rooms. The office will be fixed up in fine style. Old guests will hardly know the house.

The papers outside had all kinds of stories about the damage done on this bay by the storm and tides last week. The damage in reality was very small, but the shifting of the sand on the south side nearly spoils the present landing at the government wharf and may necessitate the outlay of sufficient money to build the wharf out to deep water.

At Cost. G. W. Simpson has just received at a bargain a large lot of ladies' muslin underwear and infant's robes, slips and hoods, which he will sell at wholesale cost, marked in plain figures.

New line of gold watches and a great variety of fine jewelry at Will & Stark's.

French keeps railroad time.

THE WOOLEN MILLS.

The Final Arrangements All Concluded—Now Ready for Work.

Messrs. J. M. Moyer, F. F. Croft and J. P. Galbraith, who have been in this city since Monday completing the negotiations with the citizens' committee of this city for the removal of the Brownsville mills to this city, concluded such negotiations yesterday, having secured a lease of Mr. John Crawford for the necessary water power for a term of 20 years.

Messrs. Moyer and Croft, having concluded all the arrangements for the removal of the mills to Albany, making everything ready for the work of construction of the buildings, left yesterday for Portland and Mr. Galbraith returned to Brownsville. The company will at once prepare plans and advertise for bids for contracts, and as soon as the buildings are completed the new machinery which has already been received in this city together with the plant at Brownsville, will be put in position. This work will be pushed vigorously as the company cannot afford to allow the mills to remain idle any longer than they are compelled to in making the removal.

As heretofore located the site for the mills has been secured between the Farmers' Warehouse and the Red Crown Mills, on land owned by Messrs. Ison & Lanning, the water power being taken of course from the Santiam canal. The mills will be situated adjacent to the river on the switch lines of the Southern Pacific and Oregon Pacific railroad lines. The company agree to erect a large two-story fireproof brick building for four set mills, and other buildings required to make the plant first-class in every respect.

The bonus of \$25,000 has already been raised. One-half of the amount is to be paid when the building is complete and the machinery in readiness for operation, and the remaining one-half three months thereafter.

The capacity of the mills. The mills will have a capacity of manufacturing 350,000 pounds of wool per annum, and will employ from 75 to 100 hands. The payroll of the two set mills at Brownsville is from \$200 to \$250 per month and the enlarged mills here will distribute among its employees not less than \$350 to \$450 per month.

The importance of the enterprise cannot be overestimated in the future growth and advancement of the business interests of Albany. Besides the amount of labor employed and money distributed, the proprietors of the mills will bring with them some \$200,000 capital. The Brownsville mills have an established reputation throughout the Northwest, and it will require no years of waiting to reap the benefits of a full grown, thriving institution. The manufactured woolen goods meet a steadily growing trade, and under the new regime with enlarged mills, and a location more favorable for shipping, their business will correspondingly increase. Albany is to be congratulated on having definitely secured these mills, with their attending benefits.

After the Chinooks.

The Oregonian says that there was a great slaughter among the chinook salmon Monday, 1400 coming down on the first boat from Oregon City, and many by train and later boats, and wagon loads of these fine fish were to be seen on the streets all day long. The fish were very fine ones, many weighing from forty to fifty pounds and some more. It is probable that on account of the low stage of water about all the fish which have come up the Willamette so far this season were collected below the falls, and that every fisherman along the river between here and Oregon City was bound to have his share. It is hardly probable that such a killing as that made Monday will be made in the Willamette again for some time. It is safe to say that a majority of the citizens of Portland feasted on Chinook salmon yesterday, as all the markets were well supplied, and there has been no good salmon for a month. There were plenty of little brook trout in market also, and both salmon and trout will be plentiful from this on.

Noted Elocutionist Coming.

Miss Heines, of Brooklyn, N. Y., one of the most talented elocutionists of that state, will give an entertainment at the Presbyterian church in this city on April 22d, under the auspices of the Young People's Society. Miss Heines is cordially endorsed by some of the most distinguished literary men and divines of this country, and entertainment will be a rare treat.

TANGENT NOTES.

A revival meeting is in progress here, being conducted by Rev. D. H. Comann, of Albany.

Tangent claims considerable credit for a good exhibit in the recent horse show in Albany.

A little daughter of Alfred Blevins, a little son of Ben Simpson and Henry Beard are each very sick.

The reported change in time on the Southern Pacific railroad would suit the people of Tangent, as the through trains now come very late and very early.

Improvement.

We have the woolen mills; now for the street cars. We also have some delicious delicacies, such as California cream cheese, pickled herring, Boston mackerel, garlic, etc. Willamette Packing Company.

THE MYSTERIOUS MAD STONE.

CRAWFORDSVILLE, March 27.

TO THE EDITOR OF THE HERALD: What I know about mad stones. About 15 or 16 years ago I providentially came in possession of several mad stones, said to be genuine, which I doubted. Still their virtue has surpassed all former reports. I regard it as the last act of folly for any person to snake or poisonous insect if within reach of a mad stone. I have also used them in many diseases as an experiment and have seldom failed in making a perfect cure to my delight and the relief of the sufferer.

United States Inspector of hulls, James L. Ferguson, of Portland, has been trying to resign for some time, but has so far failed to have his resignation accepted. Rev. S. G. Irvine, Edward Blodgett, Mrs. L. E. Blain, Mrs. E. L. Power and Miss Lillie Robertson, of this city, will attend the meeting of the presbytery of the U. P. church, which convenes in Portland to-day.

The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it, and be prepared to arrest it as soon as the first symptoms appear. True croup never comes without a warning: a day or two before the attack the child will become hoarse, and that symptoms is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as this hoarseness or cough appears, all danger and anxiety may be avoided; if it has now failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substance. For sale by Foshy & Mason.

For canned vegetables or anything you happen to need in the grocery line you will do well to call on F. L. Kenton near the post-office.

It is no good to look at the thermometer this year to judge of winter. The only thing to guide you is Brownell & Stanard's prices, which are always down to zero.
