For a Big Brick Hotel.

Mr. Charles Pfeiffer, the well known proprietor of the Revere house, informs us that arrangements are being made by himself and a few others to erect a big brick hotel in this city. The site has not yet been definitely located, but the men connected with the enterprise have plenty of money and will spare no pains to make it what Albany needs, a first-class hotel. It will either be built this summer or early next season.

THE SANTIAM MINES.

A Company Incorporated with a Capital Stock of \$700,000 to Develop Them.

Articles of incorporation have been prepared and will be filed this week with the secretary of state, incorporating the Albany Mining and Milling Company. The incorporators are A. B. Woodin, W. F. Read, A. A. Rhodes, Robt. Brown, M. Cowan and B. M. Huston. The objects of the company are to open, develop and operate the mines situated on the Santiam. The capital stock of the company is placed at \$700,000, and the location of the company's office is in this city.

Another company, consisting of Messrs. W. F. Read, A. A. Rhodes, Robt. Brown, A. B. Woodin, B. M. Huston, M. Cowan, Chas. E. Brownell, O. P. Donley, Herbert H. Ames and John McChesney, who own ten different claims in the Santiam district has been organized and they will incorporate and take \$350,000 of the capital stock of the first named company, by putting in their mining claims valued at that amount, leaving \$350,000 stock to be sold. It is estimated that several Portland capitalists who are interested in these mines will become stockholders in the company and assist in developing the mines.

That good gold and silver quartz mines exist in the Santiam district there is no longer any doubt, and it is only a question of a very short time when an interest which will equal or exceed that of the famous Coeur d'Alene district will be centered in these mines. This is an important movement toward the opening and development of the mines of this region, and it is to be hoped the company will be successful in carrying out the objects for which it has been organized and incorporated.

THIS YEAR'S STATE FAIR.

President Apperson Says the Indications Are That It Will Be a Good One.

An Oregonian reporter met Hon. J. T. Apperson, of Oregon City, president of the State Board of Agriculture, in Portland Tuesday, and questioned him regarding this year's state fair.

"There is every indication that we will hold a good fair, one of the best we have ever had," was his reply. "We contemplate putting up more stables and fences on the ground, and making other improvements to accommodate those making exhibits. The facilities for holding fairs enlarge each year, as the state grows and increases in wealth, and there is no good reason why each fair should not be better than the preceding one."

"What is the financial condition of the board?"

"Excellent. We have had prosperous fairs for four consecutive years, and our indebtedness is gradually being reduced. When the state board assumed charge of affairs four years ago, the indebtedness amounted to \$30,000; now it is between \$15,000 and \$16,000, a reduction of about one-half."

"How will the creation of state board of agriculture in Southern and Eastern Oregon and the holding of fairs in those sections of the state affect you?"

"I think they will be very beneficial to us. They will add to the interest in the state fair rather than detract from it."

Resignation of G. W. Hundsaker, supervisor of road district No. 5, accepted and Edward Goins appointed.

In the matter of opening a county road near Lebanon, a trial was had on a remonstrance to the petition and the case was warmly contested. The case was dismissed.
