The reports were adopted and the work ordered done.

The committee on health and police were instructed to look into the matter of the emptying of the Calipooia street sewer into the Calipooia above where the city water works pump the water for the city's use.

WASHINGTON STREET GRADE.

Seventeen Days Under Water.

The body of James Burns, the 5-year-old boy who was drowned off the foot of Oak street while playing with a companion on the forenoon of Saturday, March 23, was recovered in the river near Ash street yesterday afternoon, says the Oregonian. The body was seen floating in the river by a deck hand on the steamer Orient at about 3 o'clock. Several men passing by in a row boat were hailed and by them the body was secured by tying it to a pile at the Ash street dock. The coroner was then notified and the remains were taken to the morgue, where they will be prepared for burial. It is somewhat of a mystery where the body has been all this time. It will be remembered that the river was dragged in the vicinity of the supposed drowning, and in addition Captain Paul Boyton exploded several dynamite bombs, but all without avail. The parents of the unfortunate boy live at the corner of Fourth and Salmon streets.

Excursion to the Front.

Arrangements were concluded by the I. O. O. F. fraternity of this city yesterday for a grand excursion to the front on the eastward extension of the Oregon Pacific railroad on the 20th inst., it being the occasion of the celebration of the 70th anniversary of Odd Fellowship in America. The train will leave Albany at 8 a. m. and return about 4 p. m. and will run as far as Gatesville. The Odd Fellows of Salem will participate in the excursion.

Improving the River.

The government snag boat Willamette is proving herself a good boat in swift water and had bars, which are to be found on the upper Willamette. She made the run from the mouth of the Luckiamute to Oregon City in eight hours, one stop of half an hour. Recently she ran from Albany to Corvallis in three hours, which is exceedingly good time. The Willamette draws twenty-seven inches and consumes half a cord of wood an hour.

Capt. John Mullin's Examination of Oregon Claims—Pioneer Dead.

Special to the Herald.—SALEM, April 11.—Captain Jno. Mullin, claim agent for Oregon, California, Nevada and Washington territory, left to-day for Washington, D. C. He has been several days examining the state records to ascertain the amount of interest paid by the state on bounty relief bonds and other war claims which the state has against the government, with a view to preparing evidence to present to the board of examiners of the war department and securing the allowance. In 1865 Oregon issued relief bonds to the amount of \$93,637 and bounty bonds of \$137,700, and Captain Mullin states that the interest on these bonds now nearly equals the principal.

Rev. Samuel Miller, a Cumberland Presbyterian minister, residing 8 miles southeast of Scio, dropped dead of apoplexy yesterday evening at Amity, Yamhill county. The body was brought here this evening by the Odd Fellows of Amity and were taken to Jefferson. He was an old settler, 62 years of age and a prominent prohibitionist. He leaves a wife and seven children. He was on the way to the conference at Lafayette when he died.

Teachers' Institute.

The teachers and friends of education throughout Linn county hereby notified that the teachers' institute for the third judicial district will be held at McMinnville, beginning the 30th of April and continue through a three days' session. As this district includes Linn county, it is expected that a number of teachers from this county will be present. Every teacher should consider the importance of a good institute and should attend when it is in his power to do so. Ask your directors whether you can attend and explain the benefits to be derived from such work; if you are desiring to make a success of your work take advantage of these opportunities to improve yourself. Supt. McElroy is in earnest when he says he expects a good representation from Linn county, so let us all go. Everybody is invited to attend, teachers, parents and school officers.

An accident happened on the Park Martha Fisher Wednesday, which came near finishing the earthly career of two longshoremen. A tub of coal had been hoisted up and swung out over the dock to dump. By some means the tub failed to dump and swung back over the hatchway, throwing the coal down on the men that were working beneath. One of them received a severe cut on the head, and another one was hurt on the arm.—Astoria Pioneer.

FOR 1889

FRIDAY, APRIL 12, And following days.

E. & C. HOWARD,

ALBANY, OREGON.

Crawfordsville Notes.

CRAWFORDSVILLE, April 8. Everybody is busy, and things are moving along lively.

Mr. Joseph Glass has a very sore hand, caused by a large carbuncle. Mr. J. Wine and family moved here a few days ago from near Brownsville.

The public school commenced here to-day with Mr. George Finley as teacher.

Mr. J. H. Scott and Rev. R. Robe started to Lafayette to-day, to attend the Presbytery.

The roads are getting good, a few loads of lumber has been brought out from the mill above here.

Miss Maud Hume, Miss Emma Blanchard and Miss Martha Acock, of Brownsville, visited friends in this place last week.

Mr. H. B. Derrick and wife went to Albany last Tuesday, Mr. Derrick returned Thursday, and Mrs. Derrick went on to Portland.

Several teachers from here and near here attended the Institute at Albany, most all of them commenced schools this morning.

Our town was visited last week by many from Brownsville, Harrisburg, Halsey, Coburg and other places. A new lodge of I. O. O. F. being the attraction.

The people of this country are anxiously awaiting developments concerning the Narrow Gauge road. The way it has been running it is a grand nuisance. We would be glad if it would pass into other hands. But what this country needs is a branch road from the Southern Pacific line starting at Halsey, and running up into the mountains, so as to tap the timber belt. It is a fine country to build a road through, and the cost would be nominal compared with other places. There is immense bodies of timber along the route. There is considerable grain raised on Fern ridge which has to go to Brownsville or Halsey to be shipped. There is considerable manufacturing carried on in this valley and an opening for a great deal more if we had shipping facilities. There is said to be good mines of different kinds in the mountains east of here. So all together I think there is quite an inducement for a road into this valley in the near future.
