

Warning. The modes of death's approach are various, and statistics show conclusively that more persons die from disease of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boscher's German Syrup. It will give you immediate relief.

THE BUYER'S GUIDE is issued March and Sept. each year. It is an encyclopaedia of useful information for all who purchase the necessities of life. We can clothe you or furnish you with all the necessary and unnecessary appliances to ride, walk, dance, sleep, eat, fish, hunt, work, go to church or stay at home, and in various sizes, styles and quantities. Just figure out what is required to do all these things comfortably, and you can make a fair estimate of the value of the BUYER'S GUIDE, which will be sent upon receipt of 10 cents to pay postage.
