Having sold out on account of poor health, I expect to change climate for a while, and all accounts not settled before I get ready to leave Brownsville will be left with and due for collection. A word to the wise is sufficient.  
C. E. STARNARD, Brownsville

Green peas, cabbage, cauliflower, onions, cherry pie plant, fresh, at Brownell & Starnard.

**Warnings.**  
The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly, and is shown by slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh of the nose, all this, however, and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you an immediate relief.

**You Cannot Afford.**  
At this season of the year to be without a good reliable diarrhoea balsam in the house. Cramps, colic, diarrhoea and all inflammation of the stomach and bowels are exceedingly dangerous if not attended to at once. One bottle of BEGG'S DIARRHOEA BALSAM will do more good in cases of this kind than any other medicine on earth. We guarantee it. G. L. Blackman, druggist.

### EAST OF THE ROCKIES

Gladstone Makes a Statement Concerning American Affairs.

### TROUBLE BREWING IN EUROPE

News from the East and the Old World—Cooler Weather for Oregon—Notable Wedding.

The Herald's Special Dispatches.] New York, June 11.—Henry Clews has received a letter from Gladstone, in which the latter says that the Palmerston cabinet never dealt with the subject of recognition of the Southern Confederacy, except of promptly and unanimously rejecting overtures of Louis Napoleon looking for such recognition.

### PACIFIC COAST PRODUCTS.

The East Will Take All the Prunes the Coast Can Supply.

New York, June 10.—Wheat dealers here are watching the California, Oregon and Washington crop with a great deal of interest. Together they are expected to produce 75,000,000 bushels. Washington alone is estimated at almost 30,000,000.  
A leading dealer in dried fruits says that the demand for Pacific coast prunes is greater than ever before. Dealers must have good stock, though much inferior stock is placed and is injuring the trade. The East will take up all the prunes the coast can supply at good figures, but producers must be more careful in goods that are boxed for this market.  
There is no change in the hop market from last week.

### A Trifle Bellicose.

Berlin, June 11.—The government has notified the Swiss authorities that it cannot agree to the proposals made for the settlement of questions arising from the expulsion from Switzerland of Herr Hohengrub, German police inspector. It has also informed them that Germany reserves the right to take action.  
A Big Failure.  
Albuquerque, June 11.—Dr. C. D. Eaton, police judge and a large dealer in furniture and glassware, assigned to-day. Liabilities \$111,000; assets probably \$15,000.  
Eastern Weather.

### Chicago, June 11.—

Temperature at New York 13; 74; Chicago, 51; St. Paul, 58; Winnipeg, 66; New Orleans, 74.  
Notable Marriage.  
London, June 11.—The marriage of Portland and Miss Dallas York took place to-day.  
Cooler Weather.  
SAN FRANCISCO, June 11.—Slightly cooler weather is indicated for Oregon and Washington territory.

### PRESIDENTIAL APPOINTMENT

A Number of Good Offices Given Out in the West.

WASHINGTON, June 10.—The president made the following appointments this afternoon:  
Thomas J. Morgan, of Rhode Island, to be commissioner of Indian affairs, vice John H. Oberly, resigned.  
Roy Sherman, jr., of Utah, to be receiver of public monies at Salt Lake City, Utah, vice George W. Parks, removed.  
Frank O. Hebbes, of New Hampshire, registrar of the land office at Salt Lake City, Utah, vice David Webb, removed.  
Charles D. Ford, of Colorado, to be registrar of the land office at Lamar, Col., vice Frank P. Ar buckle, removed.

### G. A. R. RATES.

The Western States Passenger Association Makes Its Decision.

MILWAUKEE, Wis., June 11.—Word has been received here that the Western States Passenger Association, at its session this week, took up the matter of reduction of rates to G. A. R. veterans who wish to attend the national encampment here.  
John M. Abbott, chairman of the association, is quoted as authority for the statement that the action previously decided upon by the railroad will stand without change.  
This fixes the rate at one fare for the round trip, which is 1 1/2 cents a mile.

### A Masher Crushed.

A Young Lady Who Was Deaf and Dumb at the Right Moment.  
N. Y. Sun.  
There were three or four uncoupled seats in the car, but he stood for a moment, grip in hand, near the door, and then walked to a seat in which a young lady sat alone and sat down beside her with an impudence that astonished all the other passengers. The girl looked up at him and around the car, and evidently realized the situation, for she took pencil and tablet from her reticule and made ready for him. After about five minutes the man turned to her and observed:  
"Beg pardon if I am mistaken, but don't you live at Utica?"  
She looked up in a furtive way, and then wrote on the tablet and handed him:  
"I am deaf and dumb."  
"Ah! by George!" he sighed, as he read it; "that's too bad, too bad! Deuced pretty girl to have such a misfortune. Well, I'm left, after all my smartness. Saw her at the window before I got on, and carried out the plan to a dot. Deaf and dumb, eh? First one I ever struck."  
He nodded his head to her to signify that he understood, and he would have been glad to change seats if he could have done so without loss of dignity. As the train thundered on he perused the contents of a couple of newspapers, yawned awhile, and then bought and finished a novel; and finally, after a ride of four mortal hours, the whistle blew and he reached for his grip with the remark:  
"I'll be hanged if I ain't glad this stupid ride has come to an end at last."  
"Ditto!" quietly replied the girl, as she turned on him.  
"You—you—" he gasped, as he stood there looking down upon her with twelve kinds of emotion galloping over his countenance.  
"Good bye," she said, and he backed out and dropped to the platform like a man retreating from a mule's hind legs.

### FARMERS NEWS AND NOTES.

Finely-sifted coal ashes are excellent for providing dust baths for poultry.  
All the rakings, soil grass and refuse of the farm can be used as a foundation for a compost heap.  
Cultivate the peach orchard in the same manner as when cultivating corn. That is, use the cultivator, and stir the top soil frequently.  
Do not try to cultivate onions deep; if an inch of the surface is kept mellow, and no weed allowed to grow, it is all the cultivation that will be needed.  
Wood ashes are excellent on the flower beds. Roses need an application of them now. All kinds of flowers will be benefited by superphosphate and ashes at this season.  
Weeds make excellent green manure if turned under. A rank growth of weeds indicates fertile land, but such land can be exhausted by removing weeds as well as by removing a regular crop. It will pay, therefore, to turn the weeds under and let them rot in the ground.  
The liquid manure is more valuable than the solids, and a liberal use of the absorbent material will aid in arresting its loss. It should be saved carefully, and a drain at the rear of the stalls should conduct it to some kind of a receptacle, from which it may be pumped over the manure heap.

### Starving an Unseen Foe.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria professes its misty realm to poison the air, and decaying unwholesome vegetation impregnate the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, biliousness, dyspepsia, rheumatism, kidney and bilious ailments.

### The Pride of Women.

A clear pearly and transparent skin is always a sign of pure blood, and all persons troubled with dark, greasy, yellow or blotched skin can rest assured that their blood is out of order. A few doses of BEGG'S BLOOD PURIFIER and BLOOD MAKER will remove the cause and the skin will become clear and transparent. Try it, and if satisfaction is not given it will cost you nothing. It is fully warranted, G. L. Blackman, druggist.

### New comers to the city will note

the fact that I am the only grocer in town who swas his own delivery wagon and takes orders at their houses for the day's supplies. All goods delivered promptly and in good order. Leave orders at the store if you wish us to call. C. H. Spencer.  
Lovers of good coffee should try some of Julius Gradwohl's choice grades. He keeps the best in the market and sells as he does all his choice family groceries at the lowest living prices.  
Highest market price paid for five thousand pounds of bleached dried apples by G. W. Simpson, Albany, Oregon.

### WASHINGTON NEWS.

Comments Concerning Recent Presidential Appointments.

### THE HAYTIAN COMMISSIONERS

A Woman Made Supervisor of the Census for California—The Behring Sea Affair.

### Special Correspondence.]

WASHINGTON, June 3.—Among the few Presidential appointments during the past week were the following: George B. Fisher, of Delaware, to be First Auditor of the Treasury; J. N. Patterson, of New Hampshire, to be Second Auditor of the Treasury; O. W. Chapman, of New York, to be Solicitor General; John L. Cotton, of Maine, to be assistant Attorney General and Lewis E. Parsons Sr., of Alabama, to be U. S. Attorney for the northern and middle district of Alabama. Mr. Parsons was the originator, and the leading spirit in organizing the "White Man's republican party", of Alabama which recently held a convention at Birmingham.  
The two Haytian Commissioners—Gen. Lew Wallace and Beverly Tucker—whose appointments were announced last week but immediately withdrawn as premature are still here but neither of them seems to know whether the withdrawal of the appointments was permanent or only temporary. In the mean time Dame Ramor is busily engaged in circulating all sorts of tom-tom stories about the matter. Not wishing to do anyone an injustice I shall not report any of these very improbable yarns.  
The President greatly enjoyed his trip to Brooklyn, where he reviewed the Memorial day parade, notwithstanding his hurried nature. He left here Wednesday afternoon and Thursday night at 10 o'clock he was back in the White House.  
Superintendent Porter, of the Census bureau has received the application of Mrs. Kate B. Cochran of California, to be appointed supervisor of the census for the California district. The fact is notable because it is the first application of the kind ever made by a woman.  
At the State and Navy department little credence is put in the report telegraphed here from Canada that several English war vessels had been ordered to Behring Sea with instructions to prevent U. S. vessels from seizing English sealing vessels in these waters under the President's March proclamation. In as much as the assumption of full and sole authority over these waters by the United States Government has been received by the Governments of the world without even the slightest diplomatic protest, it is hardly probable that England would attempt to forcibly resist what has never been peaceably objected to.  
Gen. Greely, the Chief Signal officer, has ordered that all announcements and publications of the signal service shall hereafter be called "forecasts" instead of "indications."

### Secretary Tracy is stirring up

things in the Navy department. His latest orders are for the completion of the iron clad "Puritan" and "Amphitrite," which have been lying for several years in an unfinished condition, one at a private ship yard at Wilmington, Delaware and the other at the Norfolk Navy Yard. They are to be finished by the department, one at the League Island, Navy yard, and the other at New York.  
The Anti-Mahone republicans, of Virginia made a rife last week. In their endeavor to break the little general's influence at the White House, but Mahone still holds the fort. The President will give the Anti's a hearing on the 11th inst.
