H. EWERT, PRACTICAL WATCHMAKER and jeweler, Albany, Oregon.

Warning.
The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and then by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing consumption and to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attending to it, and not lose your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Rose's German Syrup. It will give you immediate relief.

You Cannot Afford.
At this season of the year to be without a good reliable diarrhoea balm in the house, as cramps, colic, diarrhoea and all inflammation of the stomach and bowels are exceedingly dangerous if not attended to at once. One bottle of BEGG'S DIARRHOEA BALSAM will do more good in cases of this kind than any other medicine on earth. We guarantee it. G. L. Blackman, druggist.

SPECIAL NOTICE.
DR. W. C. NEGUS, Graduate of the Royal College of London, England, also of the Bellevue Medical College.

The Dr. has spent a lifetime of study and practice and makes a specialty of chronic diseases, removes cancers, scrofula enlargements, tumors and wens, without pain or the knife. He also makes a specialty of treatment with electricity. Has practiced in the German, French and English hospitals. Calls promptly attended day or night.

"GOOD WILL TO ALL."
Office and residence, Ferry street, between Third and Fourth.

9,999.00
IN GOLD
To Be Given Away.

6th—2 Next 320,000 1 each

OVER THE WIRES.

Secretary Blaine Disagrees with the Samoan Conference.

WORKMAN'S FEARFUL FALL.
The Loss of Life at Johnston is Between 3,000 and 4,000—U. S. Man-of-War Ordered to Hayti.

The Herald's Special Dispatches.
WASHINGTON, June 13.—Applications at the state department for information respecting the contents of a cablegram received yesterday from Hayti, met with a point blank refusal. Secretary Tracy, however, said the dispatch did not reveal the existence of any dangerous state of affairs at Hayti, but another official had seen the cablegram hinted that it told of renewed fighting between the forces on the island. Commodore Ramsay had a long interview with the secretary of the navy this morning. Secretary Tracy has ordered the Kearsage to proceed at once to Hayti.

THE SAMOAN CONFERENCE.

Secretary Blaine Disagrees with the Protocol.
BERLIN, June 13.—The American commissioners to the Samoan conference have received instructions from Secretary Blaine in relation to the protocol drawn up by the conference. Blaine disagrees with several provisions of the protocol. He is also of the opinion that England and Germany have not gone far enough in respecting the rights of the United States. The conference had a sitting today to receive Blaine's reply. The English and German commissioners will afterwards consider Blaine's objections and decide upon what policy they shall pursue, and upon what attitude they assume depends the further continuance of the conference.

AT JOHNSTOWN.

The Number of Dead Now Estimated at 3000 to 4000.
JOHNSTOWN, June 13.—The first real work under the supervision of the state began this morning, and all the men responded to the whistle. The weather is warm and cloudy and the stench from the decaying bodies is almost unbearable. Some worthless fellows gained an entrance and began stirring up dissatisfaction with the laborers, with the result that 100 quit and the military drove all the others out. An order was issued to admit no one without a pass. The general opinion among well posted people here is that the loss of life is between 3000 and 4000.

DROWNING AT VANCOUVER.

A Drayman Falls Overboard Into the Columbia River.
VANCOUVER, (W. T.) June 13.—Last night upon the return of the Undine from Portland, C. G. Harrel, a drayman, who for a long time has been residing in Vancouver, met an untimely death by drowning, while attempting to board the boat. Though every effort was made to save him, he soon disappeared beneath the turbulent waters of the Columbia. The river was dragged until late night but the body has not been recovered as yet. Mr. Harrel was 60 years of age, and leaves a large family, whose sole support he was, in rather destitute circumstances.

AID FOR SEATTLE.

Fully \$80,000 Has Been Forwarded from San Francisco.
SAN FRANCISCO, June 13.—The American Bank and Trust Company, custodian of the relief funds raised here for the Johnston and Seattle sufferers, reports that the money raised in this city and transmitted free by the bank amounts to fully \$80,000.

A FRIGHTFUL DEATH.

A Workman Falls From the New Hotel at Portland.
PORTLAND, June 13.—This morning about 11 o'clock James F. Killduff, a carpenter, fell a distance of 80 feet from the roof of the new hotel and was instantly killed.

Foreign Affairs.

LONDON, June 13.—Russia, Germany and Austria have sent an identical note to the Swiss government, advising it to deal severely with anarchists and socialists.

The Albany Furniture Co. would be glad to have you call and examine their complete stock of goods before purchasing elsewhere. We believe we can make it to your interest to examine our prices and goods before purchasing. Corner First and Ferry streets.

Now comes to the city will note the fact that I am the only grocer in town who owns his own delivery wagon and takes orders at their homes for the day's supplies. All goods delivered promptly and in good order. Leave orders at the store if you wish us to call. C. H. Spencer.

A new line of solid silverware, gold-lined cutlery, beautiful diamond rings, gold and silver watches, has just been opened by Will & Stark.

Exhaustion Treated by Electricity.

Nervous exhaustion implies a want of strength to a certain nerve or nerves on the entire nervous system. We hear the words debility or general debility every day. It is frequently passed by as meaning nothing, yet it means a great deal. Sometimes we see a person fleetly and healthily, yet they are far from it, they may have a reasonable appetite, sleep well at night and still there is a lack of vitality in the nerves or nervous system that renders life uncomfortable and burdensome. The end is not yet, sooner or later comes the disease that they call liver, kidney, bladder or bowel disease, profligate ulcer piles or a complication of local disturbances as a result of local or general debility of the nerves, not only so but dyspepsia in many of its forms with constipation are attributable to the same cause. Spinal irritation with all its offshoots and great variety of formidable symptoms can very frequently be traced to the cause above mentioned, with many forms of insanity and a host of other maladies too numerous to mention. How often the human sufferer is denounced as melancholy or hypochondriac because the general physical appearance would indicate health when indeed their suffering is beyond our comprehension. Very frequently in secret and in silence they endure the most excruciating pain and anguish both in body and mind and without sympathy, because if they should make their ailments known their friends would make fun of them and sometimes even the doctor. O, that we could onlyathom the invasion of disease in the deep recesses of the nerves, how much more proficient would we be in relieving human affliction. As long as we take sight for facts and do not remember the secluded attacks upon the most important system of the body, the nerves, many of our sufferers will pass along unhealed and be the object of fun and ridicule. We have observed those who to look at presented perfect health but time would reveal that deep seated disease was preying upon the nerves and when too late, our patients career would terminate in insanity or in death, therefore let us take heed and hearken to the cries of the human sufferers although in physical appearance we would presume them to be healthy. In the treatment of this class of maladies, the first object should be to begin treatment early in the formation of the disease. All of the reliable influences that tend to give tone to the nerves should be concentrated in the treatment such as air, sunlight, water food, rest, diversion muscular exercise, the internal administration of phosphorus, general fertilization and central galvanization. With these frictions and treatment avoiding all nostrums and slops designed to rob the afflicted of their money, thousands of now lingering sufferers would be the recipients of health. Electricity is the most active remedy in the treatment of nervous diseases of any agency known. J.

The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 30 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Foshay & Mason's Drugstore.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Foshay & Mason Druggists.

Lovers of good coffee should try some of Julius Gradwohl's choice grades. He keeps the best in the market and sells as he does all his choice family groceries, at the lowest living prices.

10, 20, AND 300
Seats now on sale at Blackman's drug store.

BIRTH OF A VOLCANO.

The Process as Observed in San Salvador.
"The Capital of Spanish America."
Yzalco, in the little republic of San Salvador, is in many respects the most remarkable volcano on earth, first, because its discharges have continued so long and with such great regularity; again, because the tumult in the earth's bowels is always to be heard, as the rumblings and explosions are constant, being audible for a hundred miles and sounding like the noise which Rip Van Winkle heard when he awakened from his sleep in the Catskills; and finally, it is the only volcano that has originated on this continent since the discovery by Columbus. It arose suddenly from the plain in the spring of 1770, in the midst of what had been for nearly a hundred years the profitable estate of Senor Don Balthazar Eraso, who was absent from the country at the time, and was greatly amazed upon his return to discover that his magnificent coffee and sugar plantation had, without his knowledge or consent, been exchanged for a first-class volcano. In December, 1769, the peons on the hacienda were alarmed by terrific rumblings under the ground, constant tremblings of the earth and frequent earthquakes, which did not extend over the country as usual, but seemed to be confined to that particular locality. They left the place in terror when the tremblings and noises continued, and, returning a week or two after, found that all the buildin had been shaken down, trees uprooted and large craters opened in the fields, which had been level earth before. From these craters smoke and steam issued, and occasionally flames were seen to come out of the ground. Some brave vaqueros or herdsmen remained near by to watch developments, and on February 28, 1770, they were entertained by a spectacle that no other men have been permitted to witness; for about 10 o'clock on the morning of that day the grand upheaval took place, and it seemed to them, as they fled in terror, that the whole universe was being turned upside down. First there was a series of terrible explosions, which lifted the crust of the earth several hundred feet, and out of the cracks issued flames and lava and immense volumes of smoke. An hour or two afterward there was another and a grander convulsion, which shook and startled the country for 100 miles around. Rocks weighing thousands of tons were hurled into the air and fell several leagues distant. The surface of the earth was elevated about 3000 feet, and the internal recesses were purged of masses of lava and ashes, which fell in a heap around the hole from which they issued. The discharges continued for several days at irregular intervals, accompanied by loud explosions and earthquakes, which did much damage throughout the entire republic. The disturbance was perceptible in Nicaragua and Honduras. In this manner was a volcano born, and has proved to be a healthful and vigorous one. In less than two months from a level field rose a mountain more than 4000 feet high, and the constant discharges from the crater which opened there have accumulated round its edges until its elevation has increased 2000 feet more. Unfortunately the growth of the monster has not been scientifically observed or accurately measured, but the cone of lava and ashes, which is now 2500 feet from the foundation of the earth upon which it rests, is constantly growing by the incessant discharges of volcanic matter.

Disarming an Infernal Fox.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that infernal fox, malaria, it is no longer a paradox, but an easy proposition. Whatever malaria evolves its mity venom to poison the air, and decaying unwholesome vegetable impregnates the water, there, in the very stronghold of miasma, is the auxiliary power to disarm the foe and assure efficient protection. Feyer and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is a potent force that should chiefly recommend the Bitters to persons dwelling in malarious localities, for it is a certain buckler of defence against which the enemy's powerless arrows, like dyspepsia, rheumatism, kidney and bilious ailments.

The Fride of Woman.

A clear pearly and transparent skin is always a sign of pure blood, and all persons troubled with dark, gray, yellow or blotched skin can rest assured that their blood is out of order. A few doses of BEGG'S PURIFIOR and BLOOD MAKER will remove the cause and the skin will become clear and transparent. Try it, and if satisfaction is not given it will cost you nothing. It is fully warranted, G. L. Blackman, druggist.

Paragon.

We have just received a fresh supply of this celebrated roast coffee, ground free of charge, on our self-grinding machine. Once used, always used. Willamette Packing Co.

Family Jars.

We have a fine supply of all sizes of fruit jars which we are selling at the lowest market price. The goods at the lowest figures. Willamette Packing Company.

Fahney's celebrated blood cleanser at Brownell & Starnard and at Heycox & Roberson's. P. J. Baltimore general agent.
